

Summerside Has Large Traffic Court Docket

SUMMERSIDE — After pleading guilty to passing a school bus while it was stopped, Harold Arthur Miller, Port Hill, was fined \$25 and costs when he appeared before Magistrate W. Chester S. MacDonald in Magistrate's Court yesterday morning.

Lloyd Rogerson Howatt of North Tryon pleaded not guilty to impaired driving and his case was adjourned until November 14.

Roy Clarence Curlew of Deer Lake, Newfoundland, pleaded guilty to leaving the scene of an accident, was fined \$100 and costs; to driving without due care and attention, fined \$10 and costs, and to driving without a license, fined \$10 and costs.

Cecil William Skerry of McNicoll Mills and James Peter McCarville of Maple Plains both pleaded guilty to driving without a valid license and were each fined \$10 and costs. McCarville had been originally charged with driving while his license was suspended, but this charge was withdrawn.

John Arthur DeCoste, Marine, pleaded not guilty to driving without a valid license, and was convicted, paying a fine of \$10 and costs.

Pauline MacLean of Souris and U.S.A. changed her plea from not guilty to guilty on a charge of driving while impaired. She was fined \$75 and costs on the charge.

Robert Johnson Jardine of Freetown paid a fine of \$10 and costs for failing to yield at an intersection and a Miscouche man was warned after he had been charged with failing to file a change of address on his driver's license.

Three people in Borden will appear in court Nov. 21, after being charged with walking on the street with more than two people abreast.

Earlier in Magistrate's Court, Joseph Cameron Ranahan and Reginald Joseph Coyle, both of Borden, pleaded guilty to causing a disturbance by fighting, and were each fined \$25 and costs.

Coyle also pleaded guilty to resisting arrest, and sentence was adjourned. Ranahan pleaded not guilty to resisting arrest and his case was adjourned until next Monday for trial.

Edward Alexander Cameron, CFB, Summerside, was convicted of a charge of impaired driving, and was fined \$75 and costs. Evidence was heard in the case

Campbell Gives Further Assurance On CFB S'ide

During the past several months there has been much speculation as to the future of Canadian Forces Base at Summerside.

Premier Alex Campbell last night said this speculation appears to find its roots in the federal government's program of unification of the armed forces which has and will continue to result in the closing of several military establishments in eastern Canada.

"Because of the vital role this station plays in the economic life of Summerside and the province generally, I have been following these developments and have for the past several months been keeping in close touch with the minister of national defence and other government officials in Ottawa.

"As a result of these meetings and following further discussions which I had with Defence Minister Hellyer last week I was pleased to be able to announce that the Summerside base would be continued in operation as an important and integral part of our country's defence establishment on the eastern coast.

"Because of the importance of this establishment to our provincial economy we will endeavor to press for a continuing expansion of the base and for the improvement of facilities for the service personnel stationed there."

Damge In Wellington Accident Is \$350

SUMMERSIDE — A minor accident at Wellington Tuesday evening resulted in \$350 worth of damage.

No Inquest In Paynter Death

SUMMERSIDE — No coronor's inquest has been ruled necessary in the accidental death of Mrs. Ivan Paynter Tuesday morning.

Mrs. Paynter of French River was killed when the car she was driving left the road at Long River about 9.30 a.m. Summerside detachment RCMP investigated.

TOP LAWYER RESIGNS

DETROIT (AP)—The resignation of Washington lawyer Joseph L. Rauh Jr. as general counsel of the United Auto Workers Union was announced Tuesday by UAW President Walter P. Reuther. Stephen I. Schlosberg of Detroit, associate general counsel for the UAW for the last three years, will become the union's general counsel. Reuther said. Rauh would continue as Washington counsel for the UAW.

NOT SPREAD EVENLY

The farms of Europe and North and Central America, supporting 30 per cent of the world's population, use 75 per cent of the world's fertilizer.

PRIZE STEER FROM YORK POINT

This is the Fulton Sanderson and Sons' steer from York Point which placed third in the steer class finals at the Atlantic Winter Fair in Halifax this week. The Island farm received \$4,088 for the animal at the rate of \$4.08 per pound. It was reported the steer placed only 13th in the live judging but made a surprising comeback in the carcass assessment. The judging system gave 26 points for the live placing and 72 for the slaughter test.

Discover Noisy Tractors Produce Hazards To Health

By J. LINCOLN DEWAR

SOIL AND CROPS

The attention of soil and crop minded farmers is directed to the meeting planned for 8:00 p.m. Monday, November 7 at Birch Court. This meeting will direct attention to the work being carried on by soil and crop improvement associations in other provinces and the feature speaker will be Jack Johnson formerly of the CBC.

This should be a very interesting and profitable meeting and good attendance is urged.

This week the Directors of the three county Federations are meeting to plan dates, places and program for the county annual meetings to be held later this month. It is expected that this year's program will include an illustrated report on a visit made to Russia this summer by one of the Federation Directors.

NOISY TRACTORS

The following item is copied from a recent issue of Doane's Agricultural Report and deals with a matter that may be of more importance to health than has generally been realized.

"An average tractor is 10 times as loud as an air hammer and 25 times louder than a busy city street," says Edward Stinson, Public Health engineer at Nebraska. Tests on 55 tractors and 18 other types of farm machinery show a noise output sufficient to impair hearing if a person is subjected to this level over a period of time. The tractors tested showed a sound output of from 97 to 114 decibels. The level set as maximum for sustained exposure is 85 decibels.

Further study will be conducted by the University of Nebraska on this subject, which has been relatively untouched in the past. It does indicate that best practice will be to always use the muffling equipment furnished by manufacturers on their tractors and other engine-powered equipment. And most important of all, don't succumb to wishes of young people to replace the muffler with a "straight pipe."

FOREKUNNER

The last day of October gave notice of what might be expected in the coming months weatherwise. It is always more than difficult during the latter part of August to realize that in six months time that there can be

Former S'ide Man Dies

Funeral services were held recently at Hodgeville, Sask., for Thomas Scott Phillips, 73, a former resident of Summerside.

The late Mr. Phillips was born in Summerside, the son of the late Mr. and Mrs. Albert J. Phillips. He moved to Brandon in 1910 and the following year joined the staff of the Regina Leader Post. He moved to Gravelbourg in 1914 where he published The Gravelbourg Review. In 1928 he moved to Hodgeville to publish the Hodgeville Standard. In 1948 he joined The Canadian Weekly Newspapers Association.

Surviving are his wife, Jeanne, three sons, Harold of Edmonton, Wilfred of Calgary and Gene of Vancouver, also four daughters, Mrs. Dorothy Jones, Calgary, Mrs. Pearl Smith, Swift Current, Mrs. Eleanor Schous, Hodgeville and Mrs. Leeta Harvard, France.

Five brothers and five sisters also survive: Charles, Wendell, Al, Leonard and Leighton, and Florence, May, Ethel, Ruth and Mary Jones all of Prince Edward Island.

snow and frost and quite severe conditions indeed. As the years pass by these changes seem to come more rapidly which is perhaps a simple way of stating that growing old compresses our vision and our ideas of space and extent.

There is still a considerable acreage of potatoes to harvest and Monday morning's 24 degree reading serves notice that time is running out for the harvesting of this perishable crop.

Traditionally November was the month for harvesting turnips however, the acreage of this crop has declined greatly and a very large number of farms have ceased to have any at all.

QUEBEC FARMERS

The Quebec Farmer's Union is described in some quarters as being ambitious, hard to deal with and nationalistic in its views. In any event when it comes to criticizing members of Parliament it pulls no punches.

At a recent annual meeting 500 delegates criticized Members of Parliament for "lack of knowledge about agricultural problems, their political immaturity, their political opportunism during elections and their general carelessness and indolence."

"The delegates also reproached the MPs for not carrying out electoral promises once they had been elected. The Quebec members had not shown sufficient vigor in backing legislative measures calling for establishment of a grain-regulating agency in the eastern provinces and for establishment of a minimum price of \$4.00 for each 100 pounds of milk bought from farmers."

WALLS RETIRES

One of the ablest of Canadian farm leaders has been Charles Walls. The Secretary Manager of the British Columbia Federation of Agriculture. Those who were acquainted with him and had watched him perform they were always amazed at the thoroughness of his knowledge on any subject which he undertook to study. There were no half measures in this respect and in particular on difficult tariff problems Charles Walls could be counted on to have the answers.

His abilities have been recognized by appointment to two different Federal Royal Commissions and as these have been making heavier demands upon his time the decision to retire as of December 31 is now announced. However, the British Columbia Federation of Agriculture has made plans to ensure that from time to time the experience and wisdom of their former manager will be available in an advisory capacity. The Canadian Federation of Agriculture is losing one of its Vice-Presidents as a result and certainly one of its ablest Directors.

DUTCH ELM

A very important part of the landscape in Ontario and Quebec are the beautiful elm trees. A large number of these trees have fallen victim to Dutch Elm Disease which made its appearance some three years ago in New Brunswick. During the past season it made a 10 mile jump to the Moncton area and is now within shooting distance of this province.

The elm tree is not numerous here—the ones that grow wild

appear to stay about the same size for ages but there are nevertheless some very beautiful ornamental ones which if they fall prey to the disease will certainly produce serious blanks in the landscape.

CAUSEWAY FIGURES

We have recently been supplied with the report of the briefing session on the causeway held on July 14. The report among a variety of interesting statistics estimates over 7,000,000 cubic yards of rock fill will be needed. To reduce this to understandable terms it could be obtained by excavating 150 acres to a depth of 30 feet or three times that number of acres to a depth of 10 feet. Required will be two million barrels of cement and over a 100,000 tons of steel.

NOTICE OF CITATION

In Re Estate of Frank A. MacKenzie late of Charlottetown in Queens County in Prince Edward Island, Retired, deceased, testate.

NOTICE IS HEREBY GIVEN that a citation has been extracted for the passing of the final accounts in the above Estate and for an Order for distribution and the hearing of same shall be before the presiding justice in the Estates Division of The Supreme Court of the Court House in Charlottetown in Queens County, on Monday the 14th day of November next coming, at the hour of 11:00 o'clock in the forenoon.

DATED this 26th day of September, A. D. 1966.

WORLD NEEDS SAINTS

VATICAN CITY (Reuters)—Pope Paul said Tuesday the world needs saints. Speaking to thousands of pilgrims at St Peter's Square from his studio window, the Pope said everybody should try to be saintly.

"And this let us remember here, in the face of the world panorama, because saints—we say saints above all—are needed by the world," He spoke on the occasion of the Roman Catholic feast of All Saints Day.
