## SECOND EDITION

## THE DAILY EXAMINER.

DECEMBER 20, 1879.

FAMINE is reported in the Province of Van, in Armenia.

THE Imperial Parliament has been summoned to meet on the 5th of February.

THREE constituencies for the Commons are now open, Cornwall, North Lanark and Provencher, in Manitoba.

LOWEST READING of thermometer last night—zero. We are indebted to Mr. Cundall for readings from the thermometer.

THE Times says diphtheria is spreading in Moncton, several deaths occurring from it within a week or two. It says there is probably not less than one hundred cases there at the present.

THE New Era is the latest addition to the field of journalism in Halifax city. It is well-written and printed, aims at a high-toned standard in politics and literature, and claims (of course) to fill a long-felt want.

FRANCE is regarded as one of the most prosperous countries in the world. Yet, at the instance of the French Government, the French Legislature has by an almost unanimous vote granted five million francs for the relief of the poor.

AN APPEAL is made for the population of the district of Iovroomeeyah, in Persia, and Turkish Kurdistan, who are in a starving condition. The crops have been a failure, and poverty has prevented a corresponding import of food.

THE embargo laid on Canadian cattle, without any sort of reason for the imposition, is likely to be raised at an early day. United States transportation companies complain heavily of the imposition, and the people of the Eastern States condemn it.

MOTTO FRAMES, with glass and back, for 40 cents; Picture Frames, of every style and variety at low prices; Mouldings in walnut, rosewood, rustic and gilt, wholesale and retail, very cheap; Chromos, Mottoes and panel Pictures at Lewis'.—dec 4, eod tf

IS IT THE "N. P."?—It is the talk among the Customs officials that there was collected for the Sick Mariners' Fund yesterday, \$106, which, at two cents per ton, represents an entry of 5,300 tons of shipping from sea for this one day. More shipping has entered our port already this month than in December of '76 '77 and '78 all combined.—St. John Sun.

WINTER COMMUNICATION.—The advertisement headed "S. S. Northern Light," in another column, renders the insertion of the letter of our esteemed correspondent "KING'S" unnecessary. We shall thank the King's County Advertiser not to misrepresent the views of THE EXAMINER on this subject. These views have been clearly set forth; and if our contemporary cares to act fairly he can easily make the correction.

It is gratifying to learn that late and authentic intelligence from the North West reports all quiet along the border of the Saskatchewan, with no prospect of trouble with starving Sioux. On both sides the line buffalo have been struck and pemican is growing plentiful among the red men. Information to this effect comes from Capt. McLeod, in the North West, who is in the best possible position for learning the facts. This news is all the more pleasing because of the change in the aspect of the Indian question south of the boundary, there being now reason to hope, since warlike Utes have surrendered for trial, that the Washington Government, that possibly there may be no renewal of Indian wars in the United States.

GAMBETTA is persuaded that if girls are not educated up to the level of the Republican ideal the Republic will fall down to their notion of what it ought to be. It will become a disguised monarchy or theocracy, until the time is ripe for the Pope and Caesar to advance upon the stage and invest themselves with all power. Gambetta said the best advisers he ever had—not alone as to the conduct of his private life, but in politics—were good women, whose minds were emancipated from sacerdotal tyranny. The French woman, in his opinion, is a marvellously gifted creature, and would be, if emancipated, simply peerless. It was of vital importance to the commonwealth that the fullest justice should be done to the girlhood of France.

HONOR TO A P. E. ISLANDER.—We learn from the columns of the Queen's College Journal, that Mr. A. A. McKenzie, B. C., at present attending the Glasgow University, Scotland, has been elected non-resident Vice-President of the Alma Mater Society of Queen's University, Kingston, Ontario. He is very popular among his fellow students, and enjoys also the high regard of the Professors. It will gratify his friends in this Province to hear of the well-earned honor thus shown him by the principal society in connection with the Canadian University of which he is a distinguished graduate. From the same source we learn that a popular lecture was given, on the 21st ult., by Principal Grant, on "Norman McLeod." The Journal notices it thus: "We can only say that the large audience, all of whom had heard Principal Grant before, were not disappointed. It was a sketch of the life of a good man, sketched by one who had the good fortune to know him, and the better fortune to appreciate him."

## NEWS BY TELEGRAPH.

CANADIAN.

OTTAWA, Dec. 18.

Sir Charles was at St. Catharines yesterday, and inspected some proposed changes in the canal near there. The new departure of Sir Charles and Sir Leonard, by personally inspecting matters under their control, is eliciting warm admiration, in contrast to the customs of their predecessors, who viewed everything from their Ministerial seats through the misty advice of departmental leasers.

TORONTO, Dec. 18.

Judge Barton has been compelled to retire temporarily from the Bench, owing to the complete loss of his eyesight. It is believed that he will recover the use of one of his eyes after a period of rest.

SUSSEX, N. B., 18.

Sir Leonard Tilley, accompanied by Hon. G. E. King, Major General Domville, and others, arrived here by train at 2.25 o'clock this p. m., and was met by the Reception Committee appointed by the citizens of this place. Sir Leonard was escorted to the factories in and about Sussex, and expressed himself as much pleased with the evidences of prosperity visible in the different industries. Having completed his tour of the manufactories, the Finance Minister proceeded to Victoria Hall, which was crowded with the leading men of Sussex. When the applause which greeted Sir Leonard on his entrance had subsided, the Chairman called on Nelson Arnold, Esq., who read a highly complimentary address, to which the hon. gentleman made a suitable reply.

OTTAWA, Dec. 18.

It is rumored that the Manitoba elections have resulted in the defeat of the Government by 14 to 10. As the returns are not yet complete, the exact results are unknown.

The Montreal Witness says:—Seldom has honor been better earned than the homage paid by the temperance men of New Brunswick to Sir Leonard Tilley. All his life he has served his generation in the advocacy of this reform, and has neither in point of public eminence nor public recognition failed of his reward.

A silver medal has been donated by His Excellency the Governor General to the Ottawa Ladies College for competition.

The principal Grain Elevating Company in Montreal has an increase of 20 per cent in its business this year over last.

Thirteen cars of iron ore were shipped from Belleville yesterday for Buffalo.

There is a rumor from Quebec that Mr. Chaveau is to be appointed Judge of the Quebec Police Court.

In consequence of the revival of the cotton trade in Lancashire, Cheshire and Derbyshire the weavers will apply for an immediate increase in wages.

Despatches from Paris predict the early announcement of a new French Ministry, perhaps on Saturday, with Dreyfouin Premier and Waddington as Minister of Foreign Affairs.

IRELAND.

DUBLIN, Dec. 18.

Special cablegrams to the Toronto Mail state that the Duchess of Marlborough, the wife of the Lord Lieutenant of Ireland, intends to start a relief fund for the sufferers in Ireland, and she appeals for contributions. She says while the present distress is not for a moment comparable to that of 1847, in some parts of Kerry, Galway, Sligo, Mayo, Roscommon, Donegal and Cork there will be extreme misery and suffering among the poor.

EUROPEAN.

VIENNA, Dec. 18.

The Emperor Francis Joseph, in reply to an address from the delegations to-day, said: "My relations with all foreign powers are most friendly. My close understanding with the German Empire offers a strengthened guarantee that universal tranquility, which ensures practical labor its full development, will be established."

The Prohibition on Cattle Importation.

The Privy Council of England has revoked the following orders:—That of February 10th, rendering American cattle subject to slaughter on landing or quarantine; those of May 16th and January 13th relative to American swine, and that of November 4th, rendering American sheep subject to slaughter or quarantine. The revocation is to take effect on the 31st inst. The United States, however, does not appear in the Gazette's official list of countries whose live stock is exempt from slaughter or quarantine. It is presumed, therefore, that partial restrictions will continue in force as to the United States.

Killed by a Meteor.

News from Nemah County has reached Kansas City, Mo., that David Meisenthaler, a well-known stock man, was killed by a meteor or aerolite. He was driving cattle from the field when the meteor descended obliquely through a tall maple, cutting the limbs as if it had been a cannon ball. It struck Meisenthaler near the shoulder, passing through the body obliquely, and burying itself two feet in the earth. The meteor is composed of iron pyrites, round and rough, about the size of a common patent bucket.
