VICTORY!

THE Liberal-Conservative Party in Queen's County have gained another great and decisive victory. Mr. Welsh is, it is admitted on all sides, the strongest man they could possibly have brought into the field. His own great personal popularity—especially in the important district of Belfast—and his large business connections throughout the country—made him a most formidable opponent in a contest for votes. His nomination by the unanimous voice of the Grit Convention assured him the support of every out and out Grit, and the "Independent" cry which he raised, was "very alluring" to Liberal-Conservatives, not staunch and true as steel to their party. The opponents of the Government were confident of success. They spent their money freely. They counted large odds in their favor at almost every meeting. They boasted that they would carry theCounty by an overwhelming majority! But the strong,quiet,steady, onward stream of the Liberal-Conservative sentiment continued to flow over the County; and notwithstanding the strength of their candidate, the peculiar attractions of their canvass, their liberal expenditures, their underhand defamation, and their loud boastings, they are the beaten men to-day; and the question now is "can they ever rise again?" The charm of Welsh is broken; and many a long day will come and go, ere they again find a candidate who possesses a charm so strong as his.

Under all the circumstances, the Liberal-Conservatives may well congratulate themselves, and Dr. Jenkins, their candidate, and Sir John A. McDonald, their distinguished Leader, on this great and decisive victory. The Doctor polled no less than THREE THOUSAND SIX HUNDRED AND TWENTY-ONE,or over a hundred more than Mr. L. H. Davies polled in 1882! From a party point of view, there is this most pleasing feature about the gains he has made: they are not unduly large in any one polling division; they are general and widespread; they do not show that they are due to some special cause–as the gains of Mr. Welsh at Springton and at some of the divisions in Belfast show;—but they do show that they are largely due to the steadily increasing strength and popularity of the Government under whom our people live assured that the public credit stands high and the public honor safe, while they enjoy prosperity and contentment, with high prices for what they have to sell,and low prices for what they have to buy! While the country remains in its present happy condition, and continues to have its public affairs managed by capable, energetic and patriotic men, the people will not transfer their allegiance from the Liberal-Conservative Party; and it seems unlikely that Queen's County will again return a Grit to Parliament.

The Liberal-Conservatives of Charlottetown acquitted themselves nobly. They were early at the polls; and in the afternoon they distanced their opponents in the race to bring tardy electors up to vote. In 1882, Mr. Davies polled more votes in Charlottetown and Royalty than Dr. Jenkins; but, as a result of their union, energy, activity and good management, the Liberal-Conservatives of Charlottetown polled, yesterday, a hundred and eighteen more votes for the Doctor than their opponents did for Mr. Welsh. This is a special triumph, and as a special triumph deserves to be specially noted!

There is still another point in which we may felicitate the Liberal-Conservatives of Queen's County: it is on the ability of those who took the stump in support of their candidate. The Hon. Donald Ferguson, the Hon. Neil McLeod, Patrick Blake, Esq., Mr. A. A. McLean and others, "floored" the Opposition speakers time after time; and convinced the people in spite of the wild statements, and fishy agents, and and cunning sophisms, and blatant declamation of Mr. L. H. Davies, Mr. Beer, and Donald Farquharson. By the way it was one of the latter gentlemen, we believe, who predicted, some weeks ago, that "Donald Ferguson will be a sick man on the twentieth of August!" Grits predictions about Tory disasters, are like the popular interpretion of bad dreams—they are unvariably followed by success, and may be taken as a sure sign that some good thing is in store for those against whom they are leveled. Mr. Ferguson is not a sick man to-day—he is quite well, and is no doubt, proud and happy in the victory which he helped to win for his Party and his Party's Leader.

Mr. Welsh, too, deserves credit for the good feeling and moderation he displayed throughout the canvass. There was, certainly, in his profession of "Independent," while running North by South under the auspices of a Convention of red hot Grits, something very ridiculous and something—worse. But Mr. Welsh was, we believe, quite sincere. He was determined to run as "an Independent," and, if elected, to vote as "an Independent" in Parliament; and the Grit Convention were compelled, out of their very weakness and want of eligible candidates, to accept him on his own terms. They,and not he,must, therefore, bear the blame of an attempt to play fast and loose with the electors. Mr. Welsh has fought a hard fight; and he has behaved like a gentleman. His talents do not lie in the direccion of politics; he has no great ambition to be a member of parliament; and we have no doubt, that he will bear his defeat like a brave man, without complaint and without regret. It may, indeed, be that he is not ill pleased at having escaped the responsibility and care which necessarily fall upon the shoulders of a pubilc representative man.

On the other hand, the splendid victory won by Dr. Jenkins will cheer our great statesmen-leader, and it will be hailed with delight by Liberal-Conservatives throughout the wide Dominion. It will show that the people of the Island Province appreciate and approve of the beneficent policy and administration of the Government; and it will prove beyond a doubt that we, in little Prince Edward Island, are in sympathy with the movements which tend to the development and building up of our New Nationality.

—In an article on Imperial Federation suggested by the recent conference, the London *Times* says:—

"The obstacles to union interposed by distance and extent of territory have vastly diminished, and are diminishing from day to day. Steamships and railways, postal organization and, above all, the electric telegraph, have brought the most distant provinces of our colonial empire at the present day into intimate connection with the Mother Country. Australians and Canadians are, in every real sense of the word, nearer to the centre of English social life and political activity than the country people of Scotland or Ireland, or even of England, a century and a half ago. Moreover, we must reckon with a new distribution of population and of power in the next, or the succeeding, generation. France and Germany, if the present movement of population continues, will then have fallen back into the second rank as compared with Russia on the one side and the United States on the other, and if England is satisfied to remain a purely insular state, she, too, will have to recede before younger and stronger communities. But it will be her own fault if she breaks the ties which bind her daughter nations to her."

THE EXAMINER, and public generally, are greatly indebted to Mr. T. C. James, Superintendent of the A. A. Telegraph Company, and his assistants, Messrs. Morrison and Henderson, for their promtitude and courtesy in furnishing the election returns last night and to-day.

"A calm deliberation over 'the situation' before the heat and clamor of the contest begins; the difficulties anticipated; a course marked out; a suitable candidate in whose support all will join, and a united and determined effort—this is the programme. Let it be followed; and the victory will assuredly be ours."—*Examiner, July, 1884.*

—The programme has been followed; and the victory *is* ours.

ELECTRIC GLOSS.

FOR cleaning Solid Silver, Nickel, Brass, Copper and Plate Glass Quick! Sure! Permanent! No dirt, no trouble, no labor. Being entirely free from grit and acids, it cannot injure the most finely burnished surface. It is the only preparation ever produced that will polish brass or copper without the use of acid. Nothing approaches it for removing grease and finger marks from Brass, Copper, Glass, etc; while for cleaning Nickel or Stoves it is especially useful. Retail price, 25 cents per bottle.

MICA WASH.—This wash is the only thing of the kind ever invented. A stove may be as handsome as a jewel and shine like ebony; but smoked mica lights will spoil it all. Day by day mica becomes scarcer and higher in price, and an article that will clean and preserve it is valuable to all concerned. Try this wash once, and you will always use it. Retail price, 25 cents per bottle.

The above household necessities are manufactured by The Electric Gloss Co., Philadelphia, U. S. A, and sold by every respectable Druggist, Stove Dealer, Hardware Merchant and General Dealer in Canada. The Canadian trade supplied by
