Ancient Deed Of Maritimes Bought By Ontario Museum

TORONTO (CP) — A 1621 deed which gave most of the Maritime provinces to Sir William Alexander has been bought by the Sigmund Samuel Canadiana Gallery of the Royal Ontario Museum.

The announcement, made here by the musuem, said the deed, issued by King James I to hand over Nova Scotia, New Brunswick, Anticosti Island and Gaspe to Sir William, was bought at auction in London.

It was paid for by Mr. Samuel, the 94-year-old Toronto philanthropist, who established the Canadiana Gallery and provides funds for its maintenance and expansion. A museum official said the purchase price is confidential.

The official said the previous owner of the document was listed as Dumfries House — a Scottish estate which held the document for generations. The purchase was arranged through a London dealer.

The museum terms the deed as "one of the most important documents surviving from Canada's early history." Two copies were made, the other being held among the state papers of Scotland.

AMBITIONS REWARDED

Sir William, said to be a favorite of James I, was given the deed after the king recognized his ambitions to colonize the New World.

He spent £6,000 of his own money on his colony in three years and, when he requested financial help, was given the right to create baronets of Nova Scotia for a fee. With his fee he hoped to send Scottish immigrants to the colony.

But the project proved too expensive and Sir William was ordered to abandon it in 1631 when his colony was returned to French control.

Sir William's land grant included a small area in front of Edinburgh Castle, now the Parade Square, where baronets could receive their title on Nova Scotia soil without leaving Scotland. A plaque on the castle wall still informs the public they are standing on part of Nova Scotia.

The order of baronets of Nova Scotia continued until 1929, although after 1707 they used the wider title of baronets of Great Britain, and after 1801, baronets of the United Kingdom.

The badge of Nova Scotia baronets was kept until 1929. Two of them are in the Ontario museum.

Americans Show Iron Hand In Sales To Communists

WASHINGTON (CP) — United States officials said here that when it comes to trading with Communist China, foreign subsidiaries of U.S. companies abroad must conform with American law and policy whether they operate in Britain, Canada or any other country.

They said the U.S. will not budge from a decision to block the use of American-controlled radar in the six Viscounts Britain is building for Red China. U.S. trade is prohibited with China under the "trading with the enemy" act. In special cases, exceptions are made when military goods are not involved.

The current anglo-American friction on the question of the planes sale appears to have some of the overtones of Canada — U.S. differences in 1958 when rumors circulated that the U.S. was preventing the Ford Motor Company of Canada from negotiating to sell 1,000 trucks to China.

The order never materialized, but Prime Minister Diefenbaker met with former President Eisenhower that year and Eisenhower agreed there would be prior Canada — U.S. consultation before any decision is taken preventing a U.S. subsidiary in Canada from consummating a deal with the Chinese.

Officials said that since that time the treasury department has issued two licences allowing U.S. subsidiaries in Canada to make sales to the Chinese. They said these deals were never completed. One was for the sale of woodpulp and the other for used steam locomotives.

Liquor Taxes Figures Given

MONTREAL (CP) — Government revenues from liquor sales have totalled more than $4,500,000,000 since the end of the Second World War—enough to retire all the outstanding direct debts of the provinces with more than $1,000,000,000 left over, the Association of Canadian Distillers said here.

A booklet prepared for the association by Montreal economist J. R. Petrie says this revenue also would provide enough money to meet all expenses of all provincial government at the present levels for two full years.

It says provincial and territorial governments made net profits of more than $228,800,000 during the 1960 fiscal year from operating retail liquor stores.

During the same period the federal government collected $102,000,000 in excise duties.

Of every dollar spent on low-priced Canadian whisky, an average of 44 cents goes to the provincial government, 37 cents to the federal government, two cents for transportation and 17 cents to the distiller.

NOT 'FOR THE BIRDS'

COLLIERVILLE, Tenn. (AP) Rev. Frank L. McRae explains why a pigeon shoot was held at Collierville Methodist Church. "During our worship services the pigeons peck constantly at the stained glass windows. Then there's this constant flurry of feathers whenever people are leaving the sanctuary. But the biggest objection I have is that people all over town kept saying the Methodist Church is for the birds."

The bidding:

South	West	North	East
1 NT	Pass	2 ♣	Pass
2 ♦	Pass	3 NT	

Opening lead — three of spades.

This hand occurred in the match between Argentina and the United States last year. North's two club bid was artificial and requested South to bid a four-card major suit if he had one. When South denied major suit length by bidding two diamonds, North went to three notrump.

The bidding and the opening lead were the same at both tables.

When the Argentine South was declarer, he ducked the spade in dummy, East winning with the queen, and finessed the queen of clubs when a club was returned. West took the ring and led another spade. East won with the king and again returned a club, the ten losing to the jack.

By this time the Argentine declarer had tried four finesses and lost them all. West led a spade at trick five, and even though the diamonds were favorably divided, South wound up with only eight tricks to go down one.

When the American pair held the North-South cards, they made three notrump. The Argentine East won the spade lead with the queen and also returned a club.

But the American declarer, Peter Leventritt, alert to the danger of allowing West to take the lead for another spade play, went right up with the ace of clubs. He decided to pin his hopes on bringing home the heart suit.

Accordingly, he entered dummy with a diamond and led a low heart. When East followed low, Leventritt finessed the eight, losing to the jack.

West returned a spade, as expected, but Leventritt, spurning the finesse, took the ace, ran his hearts and diamonds, and wound up making ten tricks as a result of his cautious play. So the United States team gained 730 points on the deal.

Leventritt did not permit himself to be caught in the series of crisscross finesses that plagued the Argentine declarer. He placed his faith on the strong probability that the hearts could be run before the defense could establish enough tricks to defeat him.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is LONGFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
