Borden Sisters Capture PEI Girls Hockey Title

The Borden Nationals Sisters captured the Island title at Montague Saturday night when they blanked the Shmohawk Sisters 4-0 in the final game of a home and home series. The first game played at Borden Thursday night ended in a 1-1 tie. This is the first time for the Borden Sisters to bring home the coveted trophy and they were well deserving of it as they played excellent hockey through three hard fought periods. Nor is any glory lost to the Montague Sisters who also played well, despite the loss of a valued player, but lost gracefully to a better team. At the conclusion of the game Mayor B. H. Yeo of Montague presented the trophy to Miss Doris Noonan, captain of the Nationals Sisters. Short congratulatory speeches were also given by Major John A. MacDonald, M.L.A., president of the Kings County Hockey League; Cpl. Don Davis, R.C.M.F., coach of the Shmohawk Sisters, and Mr. Bedford MacDonald, coach of the Nationals Sisters. Greenfield Man In Hospital After Fire

Mr. Thomas Troy, Greenfield, was taken to the King's County Hospital late Friday night after suffering severe burns to his left leg and hand. He had gone to bed earlier in the evening, and had been smoking while lying in bed. He fell asleep and awakened to find his bed on fire. He leaped out of bed and came downstairs. Fortunately a few minutes later his son, Fred, arrived home, and was able to extinguish the fire, otherwise the house would have been a total loss. Only the bed clothes, mattress and a small table were lost. Mr. Troy, who is 82 years of age, was immediately removed to the King's County Hospital, where his condition last night was described as about the same as when he was admitted.

(Continued from Page 1) joined HMCS Assiniboine in England in October, 1939. He was appointed in command of the destroyer Skeena in April, 1940, which was employed in the approaches to the United Kingdom and on numerous early in the war. In September, 1941 the escort group of which he was senior officer and his convoy were under attack for 66 consecutive hours. Seventeen ships of this convoy were sunk in one of the heaviest U-boat assaults during the war. For his part in this action he received the Distinguished Service Cross. In 1943, Rear-Admiral Hibbard was commanding the destroyer H. M.C.S. Iroquois on the Murmansk convoy run and escorted a convoy which was unsuccessfully attacked by the battleship Scharnhorst only hours before the Scharnhorst was sunk Dec. 26, 1943. In later actions, the Iroquois distinguished itself in damaging attacks on enemy shipping in the English channel and Bay of Biscay, sinking 21 enemy surface craft. Rear-Admiral Hibbard was awarded a bar to his DSC in 1944 for his role in attacks on enemy sea communication. The channel action also brought to him the French awards of the Legion of Honor and Croix de Guerre avec palmes. Norway honored him with the King Haakon Cross of Liberation. Promoted to acting captain in 1945, Rear-Admiral Hibbard was in charge of Canadian warships operating out of Halifax. He served as deputy chief of naval personnel at headquarters and as commanding officer of the cruiser Ontario between 1945 and 1949. He was appointed chief of naval personnel in August, 1950.

Quebec Junior

(Continued from page 6) Byrnie indicated he was through with junior hockey but was still interested in the game. He suggested the JAJHA might expand to include Hull, which will have a 7,000-seat rink Oct. 1, Shawinigan Falls and possibly Chicoutimi. It is understood Hull interests have already asked the JAJHA for a franchise. Byrnie did not indicate whether he had received many offers and declined to name his price. There have been rumors that Quebec Aces of the Quebec Senior Hockey League were interested in having a club here. Aces already have a farm-club agreement with Three Rivers Reds. Charles Smith, Aces treasurer, was reported to Ottawa as a possible Citadelles buyer. He was not available for comment.

A spokesman said the orders referred to operational aircraft on training flights as well as to trainer planes. Not Armed In Past RAF training planes have not been armed in the past and an air ministry spokesman said only Friday night that British pilots in regular service were under instructions "not to fire unless they are fired upon." The spokesman made this point in commenting on an order of the British-commanded second Allied air force, stationed in North Germany, that its planes were not to fly within 10 miles of the East-West frontier. Manoeuvres Begin Today The RAF bomber command manoeuvres, called "Jungle King", will begin Monday and end the following Sunday. Road Requirements For King's County Stressed

The need of a hard surfaced road from Georgetown, through Montague, to Wood Islands by means of a separate grant, rather than part of the regular road allotment to the district, was emphasized by Dr. M. Lorne Bonnell, Fourth King's, when he took part in the Draft Address debate last week. Dr. Bonnell maintained that since Kings County was not sharing in the Trans Canada Highway this proposed new road which his district had been promised should not be considered as part of the regular road work. However, he expressed the appreciation of the people he represents for what Hon. Dougald MacKinnon, Minister of Public Works and Highways, had done on the roads during last year. The speaker also said he would like to see special work done this season on the Whim Road to Abney, the St. Mary's Road and the road running through Glen William. He also spoke of the Montague Bridge and called for some action in either replacing it or building a causeway before a tragedy might occur. Another bridge needing repair or replacement, he said, is the one at Murray River which is situated on a curve and creates a dangerous situation for motorists who do not know of its presence. One vehicle had already bumped into the side of it during the winter and caused damage which was not yet repaired, he stated.

Highway Safety

Speaking of highway safety he expressed the opinion that a white line in the centre of the pavement was a great aid to night driving when visibility is poor. He also approved the idea of frequent checks of vehicles by the R.C.M. Police. Dr. Bonnell was bitterly critical of the transportation facilities available to the people of the Murray Harbour District. He said that while he did not believe that the Canadian National Railways would get the bus franchise they are seeking it was his opinion they should. When the Johnsons ran the bus line from Murray Harbour to the city people were able to get into town and home again the same day. Now, he said, everything seemed to stop at Southport and the train takes five hours to go 40 miles. This, he said, did not look like the progress in transportation supposed to be taking place. He agreed with Mr. T. R. Oullen, Second King's, in objecting strongly to the placing of markers on the roadside calling attention to fatalities. At the same time he stated that if we kept going at the present rate the time would come when

Wood Islands Service

Among other subjects on which he touched the speaker mentioned the need of a Wood Islands ferry capable of carrying 100 cars per trip and travel day or night, winter or summer. Even then, he believed, the service would be inadequate within five years time. He said he would approve and support any plan for rural electrification which would give electric service to the people who want it. Dr. Bonnell, while recognizing the fact that provincial finances are limited, said he thought there should be a home here for retarded children. But failing this he believed some financial assistance should be provided to homes where such children are looked after. He also favored some aid for crippled children.

Friends of Mr. George Phelan

It is with deep and sincere regret that her friends learn of the passing on Sunday March 8th of Bristol's grand old lady, Mrs. Allan James MacDonald, at her home in the west St. Peter's district at the advanced age of ninety three years. Mrs. MacDonald resided here all her life, where she brought up a large family. Her husband passed away a number of years ago. One son resides on the old homestead, another is post master at St. Peter's Bay, and one daughter lives at Souris. Other members are in the U. S. A., and one son has been at Halifax for many years. This lady, known for years as Bristol's grand old lady will live on in the memory of her score of friends. Sincere sympathy is being extended to her family.

The very serious illness of Mr. Ruthvan MacDonald at his home in this vicinity is very much regretted by his many friends. Suffering a heart ailment, his condition on Sunday March 8th was very grave. Mr. MacDonald's scores of friends are hoping for a turn for the better.
