THE attention of the Commissioner of Public Works is called to the necessity of im mediately rebuilding the Bridge at Ryan's on the Launching Road, Lot 53, which was carried away last April. An emergency meeting of the City Council was held last evening for the purpose of providing a suitable Police Station. J. D. McLeod, Esq., exhibited plans of the proposed new building on the corner of Queen and Grafton Streets, showing wherein he would fit up a suitable Station if the Council desired it. A letter was read from Mr. C. P. Fletcher, offering to lease the premises on Queen Street (formerly occupied by C. F. Harris) for a Police Station for the sum of \$100 per annum for the first year and \$140 for the remainder of the term. It was moved by Councillor Tanton and seconded by Councillor Ladner, that a committee consisting of Councillors Morris, Home and Murphy be appointed to report upon the most convenient place for a Station. The meeting then adjourned.

ON Tuesday, the 16th inst., a countryman entered one of the lunch rooms in the market cellar. He was considerably under the influence of liquor. When he had lunched, he refused to pay more than four cents for the meal. The proprietress of the lunch room refused to take it. He then asked the loan of ten cents from a boy whom he knew, and who was in the room at the time. The boy refused to give it, and the old gent left, apparently with the intention of borrowing the balance of the lunch money. He is still borrowing, or, at any rate, he never returned; but, singular to say, he left behind a purse containing enough money to pay for a lunch and lunched—a purse containing \$26.74. Now, if the old gentleman calls at THE EXAMINER office, we shall tell him where to get his money, minus the price of his lunch.

Advices from Egypt state in addition to outbreaks of cholera at Foreskhour, eight miles west of Damietta, leprosy appeared there and is spreading rapidly. There are neither doctors nor medicines at Foreskour.

The Chinese have prohibited the export of bullocks for the use of the French troops in Tonquin. Two cargoes of cattle have been detained at Hainan. The French admiral has made a strong complaint, and the British consul also protested as some of the shipments were made by English firms.

A fight among an excursion party to Staten Island, N. Y., on Sunday, which included the Hibernian Rifles and Montgom ery Guards of Jersey City, and a number of roughs, resulted in two being killed and eleven badly wounded. Ten of the wound ed are under arrest. Rifles, pistols, knives and bludgeons were freely used.

The victims were married and had families.

The Haytien revolutionists remain in undisputed possession of Mirgo, and although the Government troops number 9,000 men they apparently fight only when attacked. The Haytien steamer Egatite is engaged in carrying provisions and cattle to supply the troops. Recent reports of the surrender of the town of Jeremie were untrue. The revolutionists are still in possession of that place, having severely beaten the Government forces. It is ap parent that the tranquility in the rest of the country is not owing to loyalty on the part of the inhabitants, but there are fears of a general massacre between the negroes and mulattos.

A doctor with 40 assistants has been ordered to proceed from India to Egypt. Returns of mortality from the cholera in Egypt differ widely. A despatch to Renter's Telegram Co. states the number of deaths at Cairo and suburbs in 24 hours, ending 8 o'clock, a. m., on the 23rd, at 427; those at Ghizeh 68, and at Chibir 150.

The English government have dispatched 12 doctors who are experts in cholera to Egypt. The Khedive and ministers have gone to Cairo for the purpose of remedying the confusion in sanitary arrangements. The Marquis of Harrington an nounced in the House of Commons on the 22nd, that there had been one death from cholera among the British troops in Egypt. The London Standard's Cairo despatch says the cholera is spreading everywhere; the mortality increased hourly. Evictions at Bulak were ordered by the native min isters. The inhabitants were driven out of their homes on Friday and Saturday nights, and were huddled on board of barges; hun dreds of them evaded the police and fled to the centre of the city, taking with them their filthy bedding and bags. Eight hun dred of them were landed at Surah. Gen. Wood's troops compelled the others to re turn and since then there has been a case of cholera among General Wood's troops at Surah. Deaths at Cairo really numbered 381 between 8 a. m. and 6 p. m., Sunday, besides a fearful mortality among the Egyptian artillery. The natives of Abbasey are panic stricken. The British officers there have to bury the dead.

Mr. Gladstone announced in the British House of Commons on the 23rd, that he would not ask Parliament at this session to sanction the agreement in regard to the Suez Canal made with De Lesseps. He also said that considering that the agree ment was dropped, owing to several objec tions to the scheme, more time had been asked by some of the members. He de cided to express an opinion relative to the bold idea in favor of an international com mittee to control the canal, although he ad mitted that the canal would be made to benefit all. This utterance was received with cheers by the House. England said that Gladstone will not use her temporary exceptional position in Egypt to invade the right which had been lawfully acquired. De Lesseps had informed Sir Charles Rivers Wilson, in their negotiation, that he con sidered the Government was not in any way bound to press the agreement on Parlia ment, whatever should be done, as the second canal would be constructed as rapidly as possible. The announcement of the Prime Minister was received with cheers by members of the Opposition. In the House of Lords, Earl Granville said that the agreement would be referred to a special committee. Sir Stafford Northcote said that the canal negotiations must have been gravely mismanaged to have raised an issue causing ill-feeling against France.
