Why have all those loads of clay been carted to Queen's Square. They certainly neither add to the attractiveness of the Square, nor do they tend to make the footpath safer after night. We hope something will be done to remove them right away.

We are offering a large quantity of fresh turnip seed. Some of these varieties we have been selling for the past eight years, and it has given good satisfaction. All in want of good seed would do well to give us a call, W. P. Colwill. [June 6 eod 3w wkly]

MILITIA APPOINTMENTS.—Joseph John Tucker has been appointed Major of the 62nd Battalion, St. John, N. B., Fusiliers. A short course engineering certificate has been granted to Lieut. Ewen McDougall, of Charlottetown.

The Champion Creamer, sold by R. K. Brace, is the best.

MR. J. H. FLETCHER has arrived in Gothic City, and has already begun his series of lectures. Professor Fletcher will, doubtless, delight the inhabitants of Colorado with his eloquence and wit, as he did our own country people during last winter.

Harris, Esq., President of the Moncton Sugar Refining and Cotton Manufacturing Companies, returned home by Sunday's mail steamer from England, where he had been on an extended business trip. Mr. Harris' visit to England had particular connection with the cotton mill enterprise, and there is no doubt his powers of observation have been used to good advantage, and the knowledge he has acquired while visiting the principal cotton centre of the world will have a good effect on the prospects of the Moncton industry with which he is connected.—Moncton Times.

On Monday the bridge across Copper Creek shook and groaned under the ponderous weight of 215 pounds avoirdupois of a Prince Edward Island lecturer. He came on foot for the reason that no one in Crested Butte had a horse that would carry double.—Gothic Record.

This means that the large-bodied, large-brained and large-souled editor of the Record, Mr. J. H. Fletcher, has arrived from his New Foundland home.—Colorado Springs Weekly Republic.

THE Governor-General and the Princess Louise arrived in Toronto on Monday last, and were received with marked demonstrations of loyalty and affection. During the afternoon visits were paid to the University and the Meteorological Department, where the process of "making the weather" was explained. The vice-regal party afterwards proceeded to the wharf of the Royal Canadian Yacht Club, whence they were transported in the steam launch to the club-house on the Island. A visit was afterwards paid to the Wiman baths, and an examination made of the improvements at the eastern end of the Island. In the evening a brilliant assembly was held in the Normal School. Addresses were presented to their Excellencies by the Royal Canadian Academy and the Ontario Society of Artists, to which the Governor-General responded. A tour through the art galleries afterwards took place.

THE ADMIRATION OF THE WORLD.

Mrs. S. A. Allen's WORLD'S Hair Restorer

IS PERFECTION!

Public Benefactress. Mrs. S. A. ALLEN has justly earned this title, and thousands are this day rejoicing over a fine head of hair produced by her unequalled preparation for restoring, invigorating, and beautifying the Hair. Her World's Hair Restorer quickly cleanses the scalp, removing Dandruff, and arrests the fall; the hair, if gray, is changed to its natural color, giving it the same vitality and luxuriant quantity as in youth.

COMPLIMENTARY. "My hair is now restored to its youthful color; I have not a gray hair left. I am satisfied that the preparation is not a dye, but acts on the secretions. My hair ceases to fall, which is certainly an advantage to me, who was in danger of becoming bald." This is the testimony of all who use Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER.

"One Bottle did it." That is the expression of many who have had their gray hair restored to its natural color, and their bald spot covered with hair, after using one bottle of Mrs. S. A. ALLEN'S WORLD'S HAIR RESTORER. It is not a dye.

GAS COOKING STOVES.

WE have made arrangements with the best makers of Gas Stoves in the United States, which we will be able to supply the public, at the lowest possible price.

We have also agreed with the Gas Company (for the purpose of introducing these stoves), to sell the first fifteen (15) for which we may receive orders.

At their Net Cost, LANDED HERE.

TESTIMONIALS.

The following are a few testimonials from a list of several hundred:—

The capacity of the Stove is surprising. With a No. 8 Stove we cooked for a party of seven, giving them broiled oysters, steak, lamb chops, and baked biscuit, in 45 minutes, at a cost for gas of 4 1/2 cents. On another occasion we gave a dinner in courses of twenty men, the bill of fare as follows: Broiled shad, beef steak, roast quarter of lamb, baked biscuit and coffee; heating the water for washing the dishes four times, re-setting the table three times. All were enthusiastic over the manner in which the oysters, fish and meats were cooked; none had experienced any so tender, juicy, and of such full flavor before. We consider the stove a great success, and most complete in all its parts and arrangements.

A. C. WOOD, Supt.

I bought one of your No. 12 Gas Cooking Stoves last September, for use in my restaurant, and have used it ever since for baking, broiling and stewing.

I can say for it that it is always ready and does its work rapidly; that there is no dust, no dirt, no surplus heat, as we are using only that portion that we need, and as soon as the article is cooked the gas is extinguished and there is no waste. I think it will do the same amount of work at less cost than coal, even at the high price of gas. It takes much less room than a coal range that would do the same work. I am perfectly satisfied with it and would not be without one for double the price.

J. T. HARKER.

The Gas Stove you sent me, I am glad to say has proved an entire success.

If my testimony is of any value to you, you are at liberty to use it. The decrease in the coal bill more than offsets the increase in the gas ditto. The cooking is excellent and uniform in its operation.

No dirt or dust irritates the careful housewife, and Mrs. S. describes it as a "real treasure."

In my humble opinion, any man who really wants to add to the number of allotted days of his better-half, had better invest in a Gas Stove and save her worry, and himself expense.

W. H. SEYMOUR.

We are perfectly delighted with our Gas Stove. It gives entire satisfaction in every respect.

MRS. M. PENNINGTON, 2103 Vine St.

Your favor of the 1st inst. was duly received asking my opinion of the Gas Cooking Stove bought last May, and in reply, would state that the satisfaction rendered by the stove was far beyond my expectations, and the work it will accomplish is marvelous, together with the small expense and comfort attending the same.

EDWIN A. GARETT.

Having used one of your No. 7 Gas Cooking Stoves for a considerable time past, it is with pleasure that I bear testimony to its genuine merits.

It boils, bakes, broils, roasts, and in fact, does everything that a first class stove or range can do, and with a saving of time and labor, that can only be appreciated by those who use them.

It has given us the most entire satisfaction, and to use my wife's words, "I would not be without it for ten times the cost."

From statements of our gas meter taken, we find it more economical than coal.
