Catarrh in the Head

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following: "My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it." W. H. FURNACE, Newmarket, Ontario.

Hood's Sarsaparilla

What you come for is, as a rule, either gambling or health. The Riviera is a retreat for invalids and for gamblers. The Riviera is a spot—it is rather a strip—of which the attraction may well be said to be its climate. It is a strip of coast, second-hand Italy, with a sea view, and it has the advantage of accessibility, which is often denied with a busy man or with the man who has been busy and wants to rest. Japan has offered to release all claim on Corea, but insists that Corea shall be allowed to have independent government. The Japanese tiger has done some really wonderful things. The Mikado and the people, working together, changed the antique monarchy to a liberal government without a revolution. Then the young Japanese tiger has done some really wonderful things. Grateful—Comforting. EPPS'S COCOA

BREAKFAST—SUPPER. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for breakfast and supper a substantially flavoured and invigorating beverage which is a weak point. It may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Statements that MOTHERS Should Consider.

The mortality statistics furnished by health boards of cities and towns in Canada, clearly disclose the fact that, during the hot summer months, the great majority of infants die from cholera infantum, dysentery and diarrhoea.

It is now generally acknowledged that these deadly infantile troubles result from imperfect feeding and poor food. Unhealthy and nauseating forms of food are administered to babes with weak organs of digestion, that would soon sicken the strong stomach of an adult.

The perfect substitute for healthy mother's milk is Lactated Food, and for the excessively hot weather this food is especially adapted. Lactated Food keeps the bowels and organs of digestion in a natural and perfectly healthy condition, and wards off those diseases so much dreaded in summer by all mothers.

Lactated Food is the only infant food that truly "saves babies' lives."
