Questions Re Fishermen's Indemnity Fund

OTTAWA, Dec. 4, (Special) - With a view to increasing the interest of Prince Edward Island lobster fishermen and those of other Maritime Provinces in the project, Neil A. Matheson, Liberal member for Queens is asking a series of questions about the fishermen's indemnity fund. Information in answer to Mr. Matheson's questions is being compiled by officials of the Department of Fisheries and will be tabled shortly by J. Watson MacNaught, Parliamentary assistant to Fisheries Minister Sinclair. Mr. Matheson asks:

- 1. How many fishermen by Provinces, have taken advantage of the fishermen's indemnity fund since it commenced operations in July 1953?
2. What is the value of the boats covered?
3. How many fishermen have made claims?
4. What total amount has been paid to such fishermen?
When the answers to these queries are brought down, fishermen of the Maritimes will have a better idea how the indemnity fund works out and what protection it gives them.

Closing Banquet Of C.T.F. Convention

MONTREAL, (CP) - Rev. Ernest M. Howe, minister of the Bloor Street United Church, Toronto, says the liquor industry is trying to minimize the incidence of alcoholism and to shrug off alcoholism as a small majority who abuse liquor.

Addressing the closing banquet of the national convention of the Canadian Temperance Federation, Mr. Howe said the World Health Organization lists alcoholism as the world's fourth most crippling disease.

Alcoholism is primarily a moral problem with a medical, social and legal aspect, he said. It is time to abandon the doctrine that an alcoholic is a helpless victim and to stress the doctrine of social responsibility.

Dr. W. H. Cruikshank, medical director of the Bell Telephone Company of Canada, praised the work of Alcoholics Anonymous and described it as an extremely effective agency in industry.

Dr. Alexander Gordon of Montreal, counselling director of the national committee for education on alcoholism, said all drinkers are potential alcoholics. Alcoholism is not a disease and "science has been unable so far to detect any way of determining whether a person will eventually become an alcoholic."

Dr. T. D. Everett, pastor of Trinity United Church, Montreal, urged ministers to learn more about dealing with alcoholism.

Important Fisheries Meeting At Moncton

A return to the legal carapace measurement of 2 1/2 inches for lobsters was vigorously supported by almost 300 Maritime packers and fishermen in what is believed to have been the largest of its kind ever held in the provinces, which took place in Moncton yesterday.

It was also agreed to "back the Federal Fisheries Department to the hilt" in asking Parliament to stiffen penalties for taking under-sized and berried lobsters, and poaching. "The subject of two seasons appears to be quite controversial, said Mr. A. Walthen Gaudet in discussing the proposals laid before the meeting".

The brief submitted by Mr. Gaudet on behalf of the P. E. Island Fisheries Federation was accepted as the basis of the discussion which took place from 10 a.m. until 1 p.m. when the conference was brought to a close.

Loading Potatoes At Railway Wharf

Loading potatoes at the railway wharf, for Canada Packers, is the motor vessel "Krageholm", from Gotenburg, Sweden. The 10,000 bag cargo is consigned to Havana, Cuba.

Captain F. Peterson of the Krageholm sailed out of Scandinavian ports all during the war. At that time only five Swedish ships were allowed away from home ports at one time. It was necessary for them to carry their identity, plainly marked so that it could be seen from the air as well as from the sea. The Captain states that his ship was not at any time molested by either the Germans or the Allies.

The "Krageholm", which has been built within the last ten years is modernly equipped with electric winches throughout. It has passenger accommodation for twelve. The crew of officers and men numbers 27.

STOCKHOLM, (Reuters) - Russia now claims invention of the ice-breaker. The first such vessel was built by a Russian engineer, Stephen Osipowitch Makarov in 1859, the Soviet paper Rodnoi Transport reports.

Jap Sees Battleship Salvage Job Easy

SINGAPORE, (Reuters) - One of Japan's leading salvage experts, Y. Kuwabara, president of the Matsukura Company, said Friday his company could "easily" raise the British battleship Prince of Wales and battle-cruiser Repulse, sunk by Japanese torpedo bombers on Dec. 10, 1941. The ships lie in 210 feet of water off the north-east coast of Malaya.
