OUT OF THE FRYING PAN

Has come not a little knowledge as to cooking—what to do, as well as what not to do. Thus we have learned to use COTTOLENE, the most pure and perfect and popular cooking material for all frying and shortening purposes. PROGRESSIVE COOKING is the natural outcome of the age, and it teaches us not to be hard, but rather the new shortening, COTTOLENE, which is far cleaner, and more digestible than any lard can be. The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it. Made only by W. K. FAIRBANK & CO., MONTRÉAL, QUEBEC and Arn Ste., COTTOLÉNE.

Unlike the Dutch Process No Alkalies or Other Chemicals are used in the preparation of W. BAKER & CO.'S Breakfast Cocoa. which is absolutely pure and soluble. It has more than three times the strength of Cocoa mixed with Starch. At present it is sold in 1 lb. tins, and is far more economical, costing less than one cent a cup. It is delicious, nourishing, and EASILY DIGESTIBLE. Sold by Grocers everywhere. W. BAKER & CO., Dorchester, Mass.

THE FARM DWELLING.

HINTS FOR THE FARMER WHO CONTEMPLATES BUILDING. Care should be Observed in Selecting the Site for a Permanent Dwelling and in the Construction of the Details—Stone and Brick v. Wood in House Building. Building a house in the expectation of its being a home for one's family during coming generations, is a very important undertaking, and one which may well be provided with much thought and carried out with due deliberation. For want of careful study and preparatory exertions of a careful and judicious nature, mistakes are made that detract much from the comfort of home life in after years. A very common blunder is that of taking a site which is not adapted to making one to suit oneself. There are many matters of convenience and taste in regard to where one's home can be taken as a guide or an example. It is those who are to occupy and use a house who are best fitted to judge what will please them in the plan and construction of it. There are a few general hints which may be given without presuming to dictate to one's neighbor. Equally, and at some time after the land has been cleared, can the wisest choice be made for a house site. Health, convenience and beauty are all important considerations which must be taken into consideration. Of these health comes first. This demands a high and dry location. It is a great mistake to choose a spot where there is not and cannot be natural drainage. For the sake of avoiding disease, which may even be fatal, it is better to choose a spot where there is not and cannot be natural drainage. FAIR WOMAN'S WORLD.

BOSSIP AND NEWS ABOUT THE GOINGS OF WOMANKIND. A Selection of Interesting Paragraphs From the Ladies Home Journal—The Society Woman of Today—Literary Men as Husbands. It would be easy to name women, prominent in society by virtue of their beauty, talent, moral purity and force of character, who have been powers for good in their time, incentives to virtuous and noble living, respected by men and acceptable to God, writes the Rev. Morgan Dix in a vigorous article on "The Society Woman of Today" in the November Ladies Home Journal. It would be equally easy to mention others who, notwithstanding their gifts, have done more harm than good in their time. But the latter are not the subject of this article. We are concerned with the former, and we are glad to see that the Society Woman of Today is not the same as the Society Woman of Yesterday. The latter was a woman of a certain type, and she was a woman of a certain type. The former is a woman of a different type, and she is a woman of a different type. The former was a woman of a certain type, and she was a woman of a certain type. The former is a woman of a different type, and she is a woman of a different type.
