IN MEMORIAM

MABEY — In loving memory of our dear Grandfather Edison Mabey who passed away Nov. 30, 1955.
Sunshine folds and shadows fall,
But sweet remembrance outlasts all.
Ever remembered by Kay, Amos, and Marilyn.

FOLLAND — In sad and loving memory of our dear brother, Clarence Earl Folland, who passed away December 3, 1947.
His cheery smile and kindly way
Are pleasant to recall
He had a smile for everyone.
And died beloved by all.
Fondly remembered by Brother Borden and Sister-in-law Verna And Family.

Turks To Get 4 Minesweepers From Canada

SYDNEY, N.S. (CP)—Defence Minister Pearkes announced Friday that Turkey will get four modern coastal minesweepers from Canada in addition to 10 Bangor class escort vessels being turned over in the near future.

Mr. Pearkes spoke at a ceremony here at which five of the 10 escorts were formally handed over to Turkey, a NATO ally, under a mutual aid agreement. Five more are to follow soon.

"These five, and the five more of this class that are to follow, are good and versatile ships," Mr. Pearkes said in a prepared address. "They have served us well, not only as minesweepers but also on convoy escort duty and on patrol; and I have no doubt that in the hands of their new officers and men, that good service will continue."

"In due course, four more minesweepers of the bay class will join them—a further reinforcement from Canadian shipyards."

The remarks were contained in the text of an address issued before delivery.

The navy said the Bay class vessels to be turned over are all of postwar construction and have been in service since commissioning. They are the Gaspe, commissioned in 1953, and the Como, Ungava and Trinity, commissioned in 1954. They are 152 feet long.

All four are now at Halifax. They are of the same class as the six minesweepers turned over to France, under the mutual aid agreement, in 1954. Nine Bay class minesweepers are in service in the RCN and a 10th is scheduled to commission in December at Victoria, B.C.

Heiress And Sweetheart Hide In Scotland

BLACKSHIELS, Scotland (AP) A 19-year-old runaway debutante heiress and her 26-year-old sweetheart hid from their parents somewhere in Scotland Monday.

They are Tessa Kennedy, heiress to a shipping fortune and Dominion Elwes, son of Simon Elwes, a portrait painter.

Scottish law allows anyone over 16 to marry providing they have lived in Scotland for three weeks. Miss Kennedy's parents not only refused to allow Tessa to marry, but obtained a court order in London forbidding the marriage.

ANNOUNCED PLANS

Two weeks ago Tessa and Dominic announced their intentions to wed. Last Tuesday the couple vanished from London. Two days later a high court judge issued an order against their marrying. During the weekend, the couple was found in hiding near here at a hotel.

After their hideout was discovered, Tessa and Dominic fled. A local hotel keeper said he helped them get away. They are believed to have gone to a private home.

Miss Kennedy is a Protestant and Elwes a Roman Catholic.

In London Tessa's father Geoffrey Kennedy, said steps to prevent a Scottish wedding are being studied by his lawyers.

As part of their plot to escape notice, Dominic had a crewcut hair trim and his blond hair dyed black.

SINATRA'S EX-WIFE HURT

LOS ANGELES (AP) — Mrs. Nancy Sinatra, former wife of singer Frank Sinatra, suffered minor burns on her face Sunday when a candle started a small fire in the kitchen of her home in West Los Angeles. Firemen placed the damage at less than $500. They said Mrs. Sinatra did not require emergency treatment.

He was born and received his early education in Moncton.

SPAIN CRACKS DOWN

MADRID (Reuters) — Spain is adopting a stronger line with persons charged with offences against the state. Under a decree-law published Sunday bail will be refused to persons waiting for trial if they have been charged with offences against the head of state, the cabinet members or the form of government.

AIRLINER CATCHES FIRE

LONDON (Reuters) — An airliner bound for New York with 38 passengers and a crew of nine was forced down here Saturday night when one of its engines caught fire. The blaze broke out after the Trans-World Airlines Super Constellation plane took off from Paris but the crew brought it under control shortly before the airliner landed here.

OUT OUR WAY BY J. R. WILLIAMS

No Indication Of Decision On Reducing Automobile Tax

OTTAWA (CP)—Finance Minister Donald Fleming said Friday the government is considering whether to reduce the tax on automobiles but he declined to indicate what its decision might be.

The minister was questioned in the Commons about press reports that the 10-per-cent excise tax on automobiles will be reduced shortly.

Stanley Knowles (CCF — Winnipeg North Centre) said these reports are causing concern in the auto industry.

He suggested the minister consider giving immediate notice of the tax cut, if it is coming. It could be made effective when the notice was given subject to later approval by Parliament.

Mr. Fleming replied: "These matters are all under consideration and I shall be only too happy to make the recommendations of the government known to the House as soon as possible."

Mr. Knowles at another point asked whether Mr. Fleming plans to present a budget at the current session of Parliament.

CAUSING CONCERN

Was the minister aware "that his unwillingness to give direct answers to questions about the budget is not only a denial of information to members of this House, but is also causing deep concern in the country?"

Mr. Fleming replied: "I am not aware of any such thing and it is not the fact.

HUNTER KAYOS PANTHER

LONDON (Reuters)—A hunter in Soviet central Asia transporting a newly-trapped panther to a zoo in his car was obliged to knock the animal out with a series of well-placed jabs and upercuts. The panther had struggled free and began striking at the hunter with its forepaws.

Will Hold Talks On Summit Meet

BONN (Reuters)—Foreign Minister Heinrich von Brentano will hold two - day talks with British leaders this week on plans for the Atlantic Pact summit conference in Paris later this month.

Official spokesmen, making simultaneous announcements Sunday in Bonn and London, emphasized that von Brentano's trip is not a substitute for the postponed visit of ailing Chancellor Konrad Adenauer.

The 82-year-old Adenauer, bedridden with influenza, cancelled Saturday the three-day state visit he was scheduled to pay to London, this week. Reliable sources said the chancellor will be able to attend the NATO heads-of-government parley starting Dec. 16 in pairs.

Von Brentano paid a flying visit late in November to Washington for pre-NATO talks with State Secretary Dulles.

A Bonn spokesman said the foreign minister in his talks with Prime Minister Macmillan and Foreign Secretary Selwyn Lloyd would cover the same topics Adenauer had on his agenda. Von Brentano will be accompanied by State Secretary Walter Hallstein.

Informed sources in London said besides NATO matters one other big topic on the agenda will be the problem of the maintenance of British troops in West Germany. The two countries in the past have been at odds over the amount of West German support costs.

There are no plans yet for a conference between Macmillan and Adenauer before the NATO session. It is considered possible that Adenauer will make his state visit early next year.

Engineering Jobs Listed

A publication of unusual interest and of practical value to engineering students is "Engineering Careers in Canada" which has been published by the Engineering Institute of Canada.

12,500 copies of this magazine have been printed and copies have been sent to various branches and units of Canadian industry as well as to every senior and every first-year Engineering student in the country.

The publication is packed with advertising but the advertisements seem to lay more stress on furnishing information to engineering students and other interested, than on boosting the company or the product of the company concerned.

Stressed throughout the publication is the fact that there is a great demand for properly trained engineers in Canada at the present time.

There is encouragement for the engineering student and assurance that the construction industry does everything possible to provide summer employment for the student during the vacation period.

AUCTION SALE

AT CLERMONT, THURSDAY, DECEMBER 5TH
AT 1 P. M.

Parents Ordered To Pay Damages

MONTREAL (CP) — Parents of a 15-year-old boy were ordered Friday to pay $50,331 to a man injured in an accident involving a truck driven by the juvenile.

Mr. and Mrs. Paul Perras, parents of Pierre Perras, were held responsible by Superior Court for damages to be paid to David Glencross of Montreal, injured three years ago when his auto was struck by a truck owned by Mrs. Perras and driven by her son.

The action had been brought by the Quebec Work Accident Commission. The parents, from Iberville, Que., were ordered to repay $24,440 already paid to Glencross by the commission plus another $25,891. The victim's disability was set at 50 per cent.

ACTRESS HAS SURGERY

WASHINGTON (AP) — Actress Jeanette MacDonald underwent an emergency appendectomy at Georgetown University Hospital early Sunday. A spokesman said "she came through just fine."

Blame For Abuses In Politics Rests On People, Is Belief

COATICOOK, Que. (CP)—Jean Marchand, general secretary of the Canadian and Catholic Confederation of Labor, said Sunday night that if there are abuses in politics the blame rests with people in general.

"If we were not for sale, no politician could buy us," said Mr. Marchand in an address on citizenship at the annual meeting of the St. Jean Baptiste Society in this Eastern Townships community.

Mr. Marchand said "one of our weaknesses is that we do not demand that real problems be discussed in public."

INTEREST LOW

Education was an example, with 90 per cent of the people showing no interest in the problem. Statistics showed that 79 per cent of Quebec province youngsters 14 and under attended school while in other provinces the percentage was 90 or better.

"If our young French - speaking Canadians have not the learning they will sweep the streets while others will carve enviable places for themselves in Canadian industry," said Mr. Marchand.

He said that in a democracy it is important that judicial, legislative and executive institutions remain separated.

SOME ENCROACHMENTS

"There are encroachments throughout the year in this domain in Quebec province and no matter whether the parties are Liberal or Conservative, when our liberty is attacked, it is necessary to intervene or we no longer deserve to be free," he said.

Mr. Marchand said he would not ask people to always agree with the demands of unions, but he would ask them to react when the existence of union are at stake. There could be no economic liberty, no true democracy without strong labor organizations representing the workers.

Referring to communism, Mr. Marchand criticized those who opposed Canadian aid to underdeveloped countries. He said the Pope had asked for support of moves to solve problems of overpopulated countries and undernourished peoples.

All Appears Friendly Now Between Russia, Yugoslavia

By VINCENT BUIST

MOSCOW (Reuters) — Soviet newspapers Friday hailed Yugoslavia's National Day in tones indicating nothing is amiss in relatons between the two countries.

The Communist party newspaper Pravda praised Yugoslavia's industrial achievements and wished the Yugoslav people new successes "from the bottom of our hearts."

The occasion for these good wishes was the 12th anniversary of the proclamation of the Yugoslav People's Republic to replace the monarchy.

Western observers watch for press comments on such days to get an inkling of official thinking.

Many observers had surmised that there was a fresh coolness between Moscow and Belgrade as reflected in Yugoslavia's refusal to sign this month's Moscow policy declaration of Communist countries. But such coolness was not indicated in Friday's press comment.

The government newspaper Izvestia said relations with Yugoslavia are growing stronger steadily following the "abolition of abnormal conditions."

To judge the two countries' coolness, Izvestia said, it was only necessary to recall that their leaders have met four times in the last 2½ years.

PRAISE FARM PLANS

Other papers also praised Soviet-Yugoslav agricultural co-operative methods, formerly one of the main targets of harsh Soviet criticism.

Izvestia recalled that Yugoslavia signed the Moscow peace manifesto composed by more than 60 world Communist parties. They had gathered in Moscow for celebrations marking the 40th anniversary of the Bolshevik Revolution.

The government paper did not point out, however, that Yugoslavia abstained from the main warned that "national peculiarities" could not be used as an excuse to depart from the correct Marxist - Leninist line.

Whatever motives President Tito had in ordering his delegates not to sign the 12-power declaration, Moscow clearly does not wish to regard them as injuring seriously the relations between the two countries, observers said.

U. S. Defence Dept. Orders Missiles Into Production

WASHINGTON (AP) — The defence department ordered both Thor and the Jupiter, rival ballistic missiles with ranges up to 1,500 miles, into production Wednesday for operational purposes.

Defence Secretary Neil McElroy told the Senate preparedness subcommittee the weapons would be ready for firing from U.S. bases in Britain by the end of 1958.

"Good news," said Senator Lyndon Johnson (Dem. Tex.), chairman of the subcommittee investigating the U.S. missile program.

It was apparently the first good news the senators had received Wednesday.

They spent the morning being secretly brief by the Central Intelligence Agency on the U.S. position in the missile race with Russia. They reported they were given a "dismal," "drab," "sad and shocking" picture.

Until recently the administration was expected to make a choice between the army's Jupiter and the air force's Thor.

MADE CLOSE STUDY

McElroy said in the last few days his department has been making "an intensive reassessment" of its position on the rival IRBM's (intermediate range ballistic missiles).

"We have been greatly encouraged by the success that has been achieved in the recent tests of both of these missiles," the defence chief said.

"It now is clear that, while neither of the missiles can be regarded as having completed its development phase, they are both at a point at which we believe we can on the basis of judgment make a sound decision to program additional production for operational purposes."

Tried To Steal Secrets, German Fined, Jailed

ESCHWEGE, Germany (Reuters)—A German who tried to steal industrial secrets from the Canadian Massey - Harris - Ferguson agricultural machinery firm here Monday was fined and sentenced to nine months in prison.

Defendant Paul Matzek, 30, was found guilty of aggravated theft and attempted betrayal of secrets.

The court was told that Matzek planned to buy a model of the latest Massey - Harris - Ferguson combine harvester through intermediaries and sell it to a French agricultural machinery tioned in court.

Hans - Roessler was sentenced to three months in prison for aiding Matzek in stealing drawings and production secrets from the Massey - Harris - Ferguson factory. Both men were arrested before the harvester or the plans reached the French factory.

GERMANY GETS AIRFIELD

CELLE, West Germany (Reuters)—The RAF Friday returned a former German Luftwaffe air field at Celle-Wietzenbruch to the West German Air Force. Hundreds of British and German soldiers and civilian guests attended the ceremony at the airport, which had been used by the RAF since 1945.
