FIRST ESKIMO ON COUNCIL

Abraham Okpik, (left) the first Eskimo to be named to the Northwest Territories Council, shakes hands with Territorial Commissioner B.C. Sivertz, in Ottawa Monday. Mr. Okpik told his new colleagues that he intends to put no punches in his new job.

Ottawa Treatment Of Cape Breton Sharply Rapped By Tommy Douglas

By DON ANGUS
SYDNEY (CP)—New Democratic Party Leader T. C. Douglas arrived in this steel and mining centre Monday and immediately rapped the Liberal government for giving Cape Breton coal mines \$25,000,000 with one hand and taking back three or four times as much with the other.

There to address a party rally Monday night, Mr. Douglas told a press conference he agreed in principle with financial aid for Nova Scotia's ailing coal industry but expressed concern over "loose strings attached to the assistance."

He said an article in the Financial Post indicated tariffs protecting Cape Breton coal would be lowered and subsidies reduced by as much as \$1,000,000 annually. He was also critical of central Canadian power producers for continuing to purchase United States coal.

Labor Minister MacEachen recently announced the federal government would "invest" \$25-

Mexico Plans Spot At Fair

MONTREAL (CP)—Mexico announced Monday that it will participate in the 1967 world's fair in Montreal.

Mexico is the 62nd country to announce participation in the fair.

The Mexican pavilion will be located on Ile Notre-Dame, part of the fair's St. Lawrence River site.

Soviet Fear Of Germany Expressed By UN Delegate

UNITED NATIONS (AP)—Soviet delegate Nikolai T. Fedorenko charged Monday that a U.S.-proposed treaty to halt the spread of nuclear weapons contained loopholes that would permit West Germany to emerge as a nuclear power.

William C. Foster, chief U.S. arms negotiator, denied the charge and challenged the Soviet Union to resume negotiations in Geneva "as soon as possible" on a treaty "we can all support."

The clash occurred in the United Nations assembly's main 17-country political committee as it opened disarmament debate.

Rhodesia Flouts Move To Lead Off Collision

Gov't Seizes Former Premier

by ADAM KELLETT-LONG
SALISBURY (Reuters)—The Rhodesian government seized former prime minister Garfield Todd Monday as he was about to leave for Britain and ordered him confined to his farm for 12 months.

The restriction order followed by only a few hours Prime Minister Ian Smith's rejection of British Prime Minister Wilson's latest offer to continue talks on Rhodesia's demand for independence.

Todd, a champion of Negro-majority rule, was served with the restriction order at a Salisbury house just as he was preparing to fly to Britain to address a televised Rhodesia teach-in at Edinburgh University.

In London, Wilson sent a cable to Smith in an 11th-hour effort to persuade Rhodesia not to seize independence from Britain unilaterally.

Todd was scheduled to share the platform at the teach-in with Britain's former Conservative prime minister, Sir Alec Douglas-Home, and Cledwyn Hughes, the British Labor government's minister of state for Commonwealth relations.

But, he said, just when the

MONTAGUE MEETING HELD

Frozen Food Producers To Seek Aid From Gov't

MONTAGUE — Producers who supply farm products for Langley Frozen Foods people at Montague last night named a five-man committee with a view to seeking aid from the government because of a seriously depressed financial return.

The committee of Glen MacLaren and James Cain, New Perth; Sumner MacKinnon, Port Prim; Maurice Mermuis, Brudenell and Morley Annear, Lower Montague will join other committees which are expected to be named at meetings in Kensington tonight and Charlottetown Wednesday night. The joint committee will probably meet in Charlottetown on Thursday evening.

Stories of sharply curtailed income from peas, beans, broccoli, cauliflower, etc., indicated that it was the lack of rainfall that caused the sharp cutback in production, but there was also sharp criticism at times of the plant at Montague.

Presiding was Smith MacFarlane, past president of the P.E.I. Federation of Agriculture who told the meeting he had tried unsuccessfully several years ago to organize a growers' association which would have bargaining powers with the processing plants on behalf of their fellow producers.

Miller West, Heatherdale, said he received a cheque for \$59.39 this year from peas produced on this ground which netted him \$400.00 a year ago. He averaged 5,000 pounds per acre last year, but only 1,900 pounds this year.

L.W. Roper, Brudenell, charged the plant with sloppy management practices. This listed 1,465 pounds of culls on my first load of 8,310 pounds, said Mr. Roper who explained that there were only 365 pounds culls out of the next load of 8,240, and only 520 pounds culls on the third load of close to 8,000 pounds.

The trouble was, Mr. Roper charged, that on his first load the plant had cleaned out the machine which had been clogged.

Reds Banned In Jakarta

SINGAPORE (AP)—Indonesia's army imposed a military ban on the Communist party in Jakarta Monday, said a broadcast from the Indonesian capital. But President Sukarno was reported resisting military pressure to dissolve the party.

A Jakarta broadcast heard here said a number of parties and organizations linked to the Communist party also were placed under the ban and the powerful Communist-dominated trade union federation, Sobel, was outlawed, presumably throughout Indonesia.

The Indonesian army continued its crackdown on Communists believed involved in the Sept. 30-Oct. 1 coup attempt against Sukarno despite the president's appeal to the military to desist.

Chief Boy Scout To Visit Canada

OTTAWA (CP)—Sir Charles Maclean, Chief Scout of Britain and the Commonwealth, will visit Canada in 1967, at the invitation of the national council of the Boy Scouts of Canada, it was announced Monday.

His visit will be just before or after the 12th World Jamboree at Farragut Park, Idaho, in 1967. This will be Sir Charles' first visit to Canada as chief scout.

NEW SERVICE IS SUPPLIED

This edition of The Guardian has a first for the paper and for Prince Edward Island. On an inside page is carried a Hi-Fi insert produced by the Gravure Corporation of Detroit, Mich., for Toronto Carpet Manufacturing Co., Ltd., allowing local advertisers to take advantage of full color rotogravure advertising. Prior to this only metropolitan newspapers have been able to offer this service.

This new color material is shipped to The Guardian as pre-printed newspaper rolls and is fed into the press in the usual way.

Marcoux Story Called Hogwash

TORONTO (CP)—The Telegram quotes multi-millionaire promoter John C. Doyle as saying that allegations by Dr. Guy Marcoux of bribery attempts in "the affair of the six" are "hogwash without a grain of truth."

Mr. Doyle is quoted in a Montreal interview as saying that Dr. Marcoux published the allegations in a pamphlet last week "because he is trying to get himself elected."

Dr. Marcoux, Social Credit member of the last two Parliaments and independent candidate in the Nov. 8 election, alleged bribe offers and Liberal intrigue were involved in a plot to back the Liberals signed after the 1963 election by six Social Credit MPs, thus helping the Liberals oust the Diefenbaker government.

Dr. Marcoux's pamphlet said Hubert Ducharme, described as Mr. Doyle's lawyer, went to Montreal's Dorval airport with the pledge of allegiance and joined Premier Smallwood of Newfoundland, J. W. Pickersgill, now federal transport minister, Mr. Doyle and others who were waiting in Mr. Doyle's private plane. Mr. Ducharme then went on to Quebec City.

DENIES ALLEGATION
The Telegram quotes Mr. Doyle as denying that either Mr. Smallwood or Mr. Pickersgill was aboard his private plane. Mr. Pickersgill had never been aboard his DC-8 "in the air or on the ground."

Mr. Doyle is quoted as hinting that he had conducted his own investigation of the Marcoux claims and as saying: "You would be surprised at

Rice Bowl Hit Hard

SAIGON (AP)—Viet Cong guerrillas, operating in battalion strength and attacking with mortars, appeared Monday to be stepping up their campaign to seize effective control of South Viet Nam's rice bowl—the sweltering Mekong River delta.

Attacks on 10 South Vietnamese government military posts and watchtowers in the last few days indicated the Viet Cong strategy may be switching from seeking to expand Viet Cong influence in the central highlands to a drive for further control in the south.

BELGIAN ROYALTY STOP IN MONTREAL

The King and Queen of Belgium spent one hour and 20 minutes at Montreal International Airport Monday while en route from Brussels to Quebec to begin a four-week tour of Latin-America. Shown here from left to right are Queen Fabiola, King Baudouin, Mrs. Jean Lesage, wife of Quebec Premier Jean Lesage and Mr. Lesage.

Scrawled Message Reveals Last Moments Of 7 Miners

SARDIS, W. Va. (AP)—A message scrawled over a door in desperation graphically told the last moments of seven men who died in dense, choking smoke more than two miles underground in a northern West Virginia coal mine.

The message discovered Monday also wrote the end to heroic rescue efforts of more than 100 men who had labored since late Saturday night to save the stricken miners.

The message said: "Couldn't get across."
The tragedy in the Mars mine of Clingfield Coal Company here left behind seven widows and 28 fatherless children. One of the victims, Carl Banish, was the father of 10 children.

SIGNED BY FOUR

The note was signed by Cliff Leedy, 53, of Bluefield; Robert Savage, 37, of Rosemont; Isaac Meats, 39, of Mostaville, and Andy Kurusz, 44, of Galloway.

Earlier, the bodies of Kenneth Kerr, 53, of Belington, and Bani, 45, of Los Creek, had been found in another section of the mine.

Charles Lantz, 26, of Buchhannon, was the first victim located. He died Sunday night en route to hospital after he was carried unconscious from the mine.

Johnson, Senators Concerned

WASHINGTON (AP)—President Johnson, federal officials and a dozen senators expressed concern Monday that anti-war and anti-draft demonstrations across the United States may undermine peace efforts in Southeast Asia.

At the Capitol, Senator Thomas H. Kuchel, assistant Republican leader from California, declared that protesters who burn draft cards and feign illness to escape military service are "sowing the seeds of treason."

President Johnson, recuperating at Bethesda Naval Hospital, expressed concern that weekend demonstrations in a score of American cities may cause Peeking and Hanoi "to miscalculate American unity and determination."

State Undersecretary George Ball said Communists may misinterpret the American public's support of U.S. policies in Viet Nam and this may lead "to a prolongation of the war."

PAN MARCH
Even as the criticism poured forth with virtually no dissent, plans were announced here and in New York for another mass protest march in the federal capital, and the FBI made its first arrest under a new law prohibiting the destruction of draft cards.

The White House press secretary, Bill Moyers, told reporters at Bethesda hospital the president endorsed a justice department investigation of whether Communists are involved in the parades and picket processions.

Maj.-Gen. Spry Retires From Scout Position

OTTAWA (CP)—Retirement of Maj.-Gen. D. C. Spry of Windsor, Ont., as director of the Boy Scouts world bureau, effective Oct. 31, was announced Monday.

R. T. Lund, deputy director of the world bureau with headquarters in Ottawa, will act as interim successor until a new appointment is made by the Boy Scouts world committee.

Gen. Spry, who is leaving to become president of Glenland Ltd. of Montreal, a property investment and development company, has been director for the last 12 years.

The 52-year-old director was an infantry commandant in the Italian and northwest Europe theatres during the Second World War, becoming the youngest major-general in the Allied forces at the age of 31.

After the war, he was vice-chief of the general staff and then chief executive commissioner of the Boy Scouts of Canada for seven years before going to the world bureau.
