### MR. MELLISH'S LECTURE.

The lecture of Mr. Arthur Mellish, delivered last evening in St Peter's schoolroom, under the auspices of the Women's Missionary Auxiliary, was not largely attended. Those who were present, by their attention and hearty applause showed that they appreciated greatly the efforts of Mr. Mellish. The lecture dealt mainly with the work of the abolitionists in the United States, and the efforts of the Canadians and incidents of the marches and the one who had been not a participant in the strife, but taken a marked interest in the varied features of the campaign. Mr. Mellish also spoke of the general and field hospitals, and pointed out some decidedly weak points in the management of the latter. A vote of thanks was moved by Rev. T. H. Hunt and seconded by Mr. W. L. Cotton and tendered Mr. Mellish by Mr. Fred. St. C. Brecken, who occupied the chair in his happy manner.

The girl is the mother of the woman just as "the boy is the father of the man." The period when the womanly functions begin is to be carefully watched and considered. Irregularity or derangement at this time may be promptly met and cured by the use of Dr. Pierce's Favorite Prescription. But neglect at this critical period may entail years of future suffering. "Favorite Prescription" acts directly upon the womanly organs giving them perfect vigor and abundant vitality. It removes the obstructions to health and happiness, and delivers womanhood from the cruel bondage of "female weakness."

### MANITOBA WHEAT MOVEMENT

The wheat movement continues to increase in volume, inspection returns for the Winnipeg division (which includes all the wheat moving east by either Emerson or Winnipeg) being 980 cars for the week ended Nov. 21, compared with 707 cars for the previous weeks and 707 cars for two weeks ago. There has been a gradual increase in the movement each week for some time back, and this increase has been more marked since wintry weather set in. A great deal of the moving, as shown by the inspection returns, has gone to the big milling companies, which accounts to a fact that receipts of Manitoba wheat at Fort William and Duluth have been considerably less than inspection returns accounts for. Wheat coming to Winnipeg for the Ogilvie Co., or going to Keewatin for the Lake of the Woods Co., shows up in the inspection returns, but does not again appear at lake ports.

A feature of the Manitoba grain movement this year is, that practically nothing has gone to Buffalo, whereas in previous years the bulk of the crop has gone to Buffalo, for export via New York. Shipments this year east of Fort William and Duluth has gone mostly to eastern Canada points, where it is either being held for the Ontario milling trade, or is being exported via Montreal or some other port. Of course the total movement eastward to date this season has been very limited, and stocks of Manitoba wheat held in Ontario are certainly not large. They are probably less than usual at this time of the year. Ontario millers seem to want Manitoba wheat as there was an offer on Thursday for a round lot, by wire from Ontario, of 92c. for No. 1 hard, grinding in transit, Ontario rate, which is a firm price considering the market on that day.

Winnipeg grain men say there has been no money in the crop for them so far this season, as prices offered comparatively high and have held much about export values. The elevator men also complain very much. The movement has been so light that there has been no profit in operating many of the country elevators. It is expected that a number of the elevators will close down much earlier than usual, owing to the light crop. It does not pay to run an elevator for a few hundred bushels per day.—Winnipeg Commercial.
