The Dead Rose

A dainty rose in a garden graw,
And opened its petals wide
To the kiss of the wind that softly blew
In the glow of the eventide;
And the rose was happy, and softly sigh'd
A song to the wind in the eventide.

A youth and a maiden chanc'd to walk
At eve, in the garden fair;
He plucked the rose from its thorny stalk
And twined it in her hair;
And the rose was sad, and softly sigh'd
Farewell to the wind in the eventide.

The youth and the maiden went their way,
So lovingly side by side;
The wind sprang up at the close of the day,
And kissed the rose as it died.
The stars in heaven their night-watch keep,
And the wind has sobbed itself to sleep.

Lord Byron as Man.

[The Hon. Mr. Stanhope.]

The mind of Lord Byron was like a volcano, full of fire and wealth, sometimes calm, often dazzling and playful, but ever threatening. It ran swift as lightning from one subject to another, and occasionally burst forth in passionate throes of intellect, nearly allied to madness. A striking instance of this sort of eruption I will mention. Lord Byron's apartments were immediately over mine at Meselonghi, Greece. In the dead of the night I was frequently startled from my sleep by the thunders of his lordship's voice, either raging with anger or roaring with laughter. He was, however, superstitious and dreadfully alarmed at the idea of going mad, which he predicted would be his sad destiny.

As a companion no one could be more amusing; he had neither pedantry nor affectation about him, but was natural and playful as a boy. His conversation was a mixture of philosophy and slang,—of everything, like his "Don Juan." He was a patient, and, in general, very attentive listener. He professed a deep-rooted antipathy to the English, though he was always surrounded by Englishmen, and in reality preferred them to all others. He was chivalrous even to Quixotism. He said Lady Byron had committed no fault but that of having married him. The truth is, he was not formed for marriage. His riotous genius could not bear restraint. His character was poetic, like his works. He was original and eccentric in all things.

Phospholeine

(Pronounced FOS-FO-LEEN),

to have voluntarily written as follows :

WEYMOUTH, N. S.

Dear Sir,—I have used your PHOSPHOLEINE in many cases for which it is recommended, and am well pleased with the way in which it acts. In a case of the most obstinate Chronic Bronchitis (the disease had baffled the usual treatment in such cases) your PHOSPHOLEINE acted like a charm, and I ascribe the recovery entirely to the use of it. From my experience of it I feel justified in saying that it is an important remedial agent in all cases of Wasting Diseases, and I can heartily recommend it to the notice of the profession and public as a remedy of real merit.
