SPECIAL DESPATCHES TO THE EXAMINER.

GRECO-TURKISH SITUATION.

THE WAR HAS BROKEN OUT.

Turkey Severs Diplomatic Relations With Greece.

LONDON, April 18.—The Greco-Turkish situation is understood here to be substantially as follows: War has not been officially declared between Turkey and Greece; but it has been declared officially to have "broken out." The Turkish cabinet has decided to sever diplomatic relations with Greece and has ordered Edhema Pasha, commander-in-chief of the Turkish forces to take the offensive. It is considered in London that war between Turkey and Greece has actually begun, the Turkish declaration that war has "broken out" being merely for the purpose of diplomatically shifting the onus of war upon the kingdom of Greece.

LATER.

GREECE TAKES UP THE GAUNTLET.

THE FIGHT IS ON.

ATHENS, April 19.—A late sitting of the Legislative Assembly was held yesterday. M. Delyannis, Premier, announced that the Turkish Government had notified the Government of Greece of a rupture of diplomatic relations on the ground of the aggressive attitude of the Greek Government. In a cool, but most deliberate speech, he reviewed the recent events to show, on the contrary, that Turkey had been the aggressor, that her troops had attacked the Greeks and attempted to occupy neutral positions; and that her batteries at Privosia had sunk the Greek ship Macedonia. "Turkey," said M. Delyannis, "has declared war against us. We accept it."

This statement was received with prolonged cheers from the galleries and floor of the chamber.

The Athens correspondent of the London Times says: "The failure of the first raid has deepened the general exasperation and led to much angry recrimination. The Ethniko Hetairia blames the Government, and the latter blames the brotherhood. It is quite evident that the Hetairia expected to be supported by the regular troops on the outbreak of a war, thus precipitated. Several of the newspapers indulge in similar bitter recriminations, and all authorities declare that there is a want of confidence between the Court and the Government. The Greek nation knows what it wants, but its rulers are wavering and undecided. The nation is asking how it was possible that Greeks were surrounded and compelled to retreat without being assisted by the Greek army. A pessimistic tone is becoming more and more noticeable; but the clamor for war does not diminish. As yet there are no reliable statements made here as to the exact loss sustained by the invaders; but I learn from an excellent source that it exceeded 200. The newspaper says that only half of the main body returned, the remainder being either killed or scattered through the mountains."

A special despatch from Constantinople says that in the last encounter between the Greek irregulars and the Turkish regular troops, the latter lost 240 killed and wounded. The despatch says that Edhema Pasha, the Turkish Commander in Chief, has telegraphed to the Turkish authorities at Constantinople that unless he is ordered to cross the frontier and take up a position on the plains of Thessaly, his present position is untenable owing to the constant attacks of the Greek insurgents who have entered the Turkish lines by stealth, and also in consequence of the excitement among the troops especially the Albanians. The Turkish ministers, it is further announced, have informed the Sultan that war should be declared against Greece. The Sultan, who objects to war, has not yet replied to this recommendation of his ministers.

It is said at Vienna, on reliable authority that the Emperor Nicholas has declared that nothing now remains but to abandon Turkey and Greece to their fate and to leave them to measure strength. His Majesty is reported to have added emphatically that if Turkey now declared war it would be exclusively due to the provocation offered by Greece. Greece would be regarded in Austrian official circles as the actual assailant.

NEWS FOR OUR MILITIA.

QUEEN'S JUBILEE CONTINGENT.

The Force to be Reduced.

OTTAWA, April 19.—The 62nd, 63rd and 66th Battalions will be asked to furnish contingents for the battalion for England; also the 8th New Brunswick Hussars, Halifax Garrison Artillery and Charlottetown Engineers.

The Government proposes to reduce the militia to about 25,000 by wiping out the inefficient battalions. On the coming camps will depend the existence of several corps.

INTERESTING NEWS NOTES SELECTED FOR THE EXAMINER.

The rumor is revived that Judge Gwynne will shortly be superannuated and Hon. David Mills appointed to the Supreme Court.

Diplomatic notes are passing between London and Washington with reference to the Behring Sea fisheries, and a difficulty is threatening as serious as the Venezuelan affair.

It is probable that the Dominion Government will shortly give instructions to its agents in England to see that the children sent out to this country are not the dregs of the criminal classes or otherwise undesirable.

It is understood that Mr. Tarte has given the contract for recarpeting the Western block to Mr. Joseph Robillard, of Montreal. There is a double offence in this action. In the first place Mr. Robillard is a Conservative and in the second place, he is Mr. Tarte's uncle.

It having been intimated to the Dominion Government that several of the Australian premiers who will go to England for the Diamond Jubilee may do so via Canada. It is most probable that a formal invitation to do so will be cabled to them. They will be accompanied by their military escorts and will make quite an imposing show.

Notwithstanding the political troubles which interfered with mining operations in the Transvaal last year, the production of gold there amounted to 2,497,946 ounces worth £8,597,813, or nearly \$43,000,000, as against 1,470,205 in 1895. Of this quantity 2,289,892 ounces last year, and 2,277,635 ounces in 1895, came from the Rand.

Military life in Germany furnishes an abundance of tragedies. But a record was established on March 19 last, when three soldiers committed suicide in the same barracks, and for the same reason, namely, ill-treatment by their officers. The soldiers belonged to the 3rd Infantry Regiment, quartered at the Bonn. An inquiry has been ordered, but it is doubtful if it will ever come to anything.

Liberal Mr. Lister in Parliament objected to Mr. Moore's proposition to reduce the duty on coal oil to three cents a gallon. Mr. Lister is a nominal free trader who shows what his real sentiments are by adhering to protection where the interests of his own constituents are concerned. Where he has personal knowledge of protection's working he lets his free trade theories go by the board and sticks by the market facts.

A powerful syndicate which was formed in Quebec a year ago to conduct the maple sugar business, by buying it up every year, has now in its hands over 500,000 pounds of sugar from last season. This year the sugar crop promises to be unusually large in all sections of the Province, and several farmers in Beauce have already made over 6,000 pound apiece. On the other hand, the American tariff is calculated to close the market in the United States to Canadian sugar, so that the syndicate, which comprises among its members several Quebec merchants, is likely to lose heavily on its operations.
