Local and Other Items.

EARLY PLOUGHING.—Mr. Allan McPhee, of North River, has begun early. He ploughed quite a bit on Thursday last—a week ago.

TO CORRESPONDENTS.—We are compelled to hold over some correspondence. Correspondents will do well to make their esteemed favors as short as possible.

A NEW STORY.—Readers of THE WEEKLY EXAMINER may expect next week the commencement of a very interesting story, even surpassing in interest The Exiles to Siberia which is just finished.

KING'S COLLEGE.—Mr. Walter Cotton, of King's College, was among those who successfully passed the Responsions examination, obtaining a first-class and winning the Binney Exhibition.

CATTLE FOR SHIPMENT.—Two carloads of prime cattle were brought to the city last evening for shipment to Newfoundland. They were purchased in New London and vicinity by Messrs Blake Bros.

—The Duke of Wellington is quoted as having a small opinion of the Spaniards as soldiers. "I never could get them to stand their ground," he says, and he certainly spoke from experience.

Weed seeds grow, indeed we often think they grow without the seeding. We notice that some seed-men are stating "their seeds grow." We go farther. Our long experience in the planting of seeds, experimenting with and testing so many varieties, enables us to know almost to a certainty what to plant, and to discard all varieties that in our judgement are unworthy of cultivation; moral—buy Gay's Seeds and have the varieties best suited to our climate the same as they plant themselves; see advertised price list in this paper.

Carter's seeds grow, and are the best that grow. Ask your merchant to supply you with "Carter's Seeds."

Tetricus, the barbarian, was the first man to wear trousers, the two part garment having been forced upon him by his captor, Aurelian, with the intention of making Tetricus appear ridiculous. The costume, however, seems, after several centuries of usage, to have made a hit.

A state lunch in China contains 146 fishes.

PURE BLOOD is the foundation of health. Hood's Sarsaparilla makes the blood pure, rich and nourishing and gives and maintains good HEALTH.

Murray Harbor South Notes.

Some of our farmers are starting in early and have already sown wheat.

Rev. E. Gillis, who was taken ill somewhat suddenly about two weeks ago, is still keeping poorly with little, if any, noticeable change for better. We hope he will speedily recover from the attack and be able to resume his official duties.

The almost total absence of wild geese and brant this season has been rather an unpleasant surprise to parties concerned, especially to those who prepared and were well equipped to deal fatally with the feathered tribe. Mr. J. Winsloe, who invariably secures the highest number of victims every year, succeeded only in killing two, the only two, it is said that were shot here this season. Knowing ones say that more could have been shot had they not been fired at by a few unskilled and inexperienced mark-men whose volleys make no victim among the feathered tribe, but serve only to make them take their departure unharm.

The Schr. Laura E Franklin, W. Chipman, master arrived in this port Saturday last, and is now loading with potatoes and oats for the Halifax market, also Schr Sir John A McDonald, H Hyde maser, laden with hay and oats for the Maritime markets will leave the earliest favorable opportunity.

The lobster fishermen have put out their lines etc., unusually early this season. Considerable anxiety has been caused from fear of destruction of their gear by ice which at times is very close. After yesterday's storm it is feared that there is a big smash-up of traps and loss of lines.

The S S Electra made her first call here this season on Saturday last.

THE EXAMINER is heartily welcomed here.

A woman never really knows the meaning of happiness and content until she is the mother of a healthy, happy child. The health of the child depends on the health of the mother, both before and after birth. Most all of woman's weakness, and particularly the weakness that most strongly influences the health of children, comes from some derangement or disease of the distinctly feminine organs. Dr. Pierce's Favorite Prescription will cure troubles of this nature. It should be taken regularly by every woman during the entire period of gestation. It gives strength to all the organs involved, lessens the pains of childbirth and insures the health of both mother and child.

Send 31 one cent stamps to cover cost of mailing only, and receive free a copy of Dr. Pierce's Medical Adviser. Address: World's Dispensary Medical Association, Buffalo, N. Y.
