
AND NOW JONAH SWALLOWS THE WHALE

ATLANTA, — Here's a scene that reverses the biblical story of the whale swallowing Jonah. Jonah E. Smith eats tenderloin of whale in an Aaltnta restaurant that offers a free whale dinner to anyone named Jonah. Up to now, Smith is the only taker. (AP Wirephoto.)

DAILY MARKET QUOTATIONS

SUMMARY

By THE CANADIAN PRESS

Toronto—Market mixed in sluggish trading.

New York—Market mixed; late profit taking.

Montreal — Market mixed to higher in moderate trading.

CURRENCIES

MONTREAL (CP) — The U.S. dollar closed Thursday at a discount of 2 1-16 per cent in terms of Canadian funds, down 3-16. Pound sterling $2.75 15-16, down 9-16.

TORONTO

TORONTO (CP) — The stock market rambled through a session of indecision Thursday amid the quietest trading in four weeks

At the close golds were a few decimal points easier on index. Western oils were up less than one-quarter of a point and base metals showed little change from their previous close.

Trading was cautious throughout the day and brokers attributed this to a lack of any type of business news and the forthcoming election. They said it will take something unforeseen to shake the investors of their cautious frame of mind before the general election March 31.

Northspan lost 40 cents at $3.85 among uraniums but other issues in this section showed little change. Senior base metals were a shade higher although gains were nearly balanced by losses. Other mining groups showed little trend.

Western oils were mixed to higher, led by Bailey Selburn, Central Del Rio and Home Oil. Changes were generally narrow and trading light.

Index changes: golds off .09 to 77.71; base metals up .06 to 147.56; western oils up .18 to 129.98.

Credit Crosses Boundaries To Produce More Goods

By FORBES RHUDE
Canadian Press Business Editor

Reports of the International Bank for Reconstruction and Development (World Bank) make interesting reading.

The interest is not so much in the loans but in the picture they give of a constructive force operating despite international tensions.

It is a picture of vast power and irrigation systems coming into being; of railroads and highways laid through wildernesses.

In its latest statement, for the six months ending Dec. 31, the bank records 19 loans totalling $372,200,000 in Austria, Belgian Congo, Belgium, Chile (two), Ecuador (three), India (five), Japan, Pakistan (two), Philippines, Thailand and the Union of Souafrica.

This brought total loans since 1947 to 189 in 46 countries and to a total of $3,480,100,000 which, after various reductions, including repayments of principal, stands at $2,606,015,164.

The World Bank loans is not a "give-away" institution and when it makes a loan it regards it as sound. Yet the loans represent money which would not be available through normal channels.

Thus, vast works throughout the world might still be in the dream stage if it were not for the bank.

The bank has 64 member countries — including Canada; its funds come from the governments or from bond issues which any investor can guy; its headquarters are in Washington.

It lends to governments or to companies, but loans must be guaranteed by the government of the country concerned.
