Grants To Municipalities Discussed At Geo'town

The main item of discussion at the monthly meeting of the Georgetown Town Council on Tuesday evening was the question of per capita grant to municipalities.

Mayor Raymond W. Soloman told the Council about the two meetings that he and Councillor N.W. Hansen attended in Charlottetown, at which the cities of Charlottetown and Summerside and all the incorporated towns of the Province were represented. Regarding the presentation of the Municipalities' brief to the provincial Government, asking that the per capita grants be increased to \$11.25, out of the Provincial Government grant from the Dominion Government. His Worship stated that the municipal representation went away happy. Although nothing definite was promised, he felt that the municipalities would receive the increase.

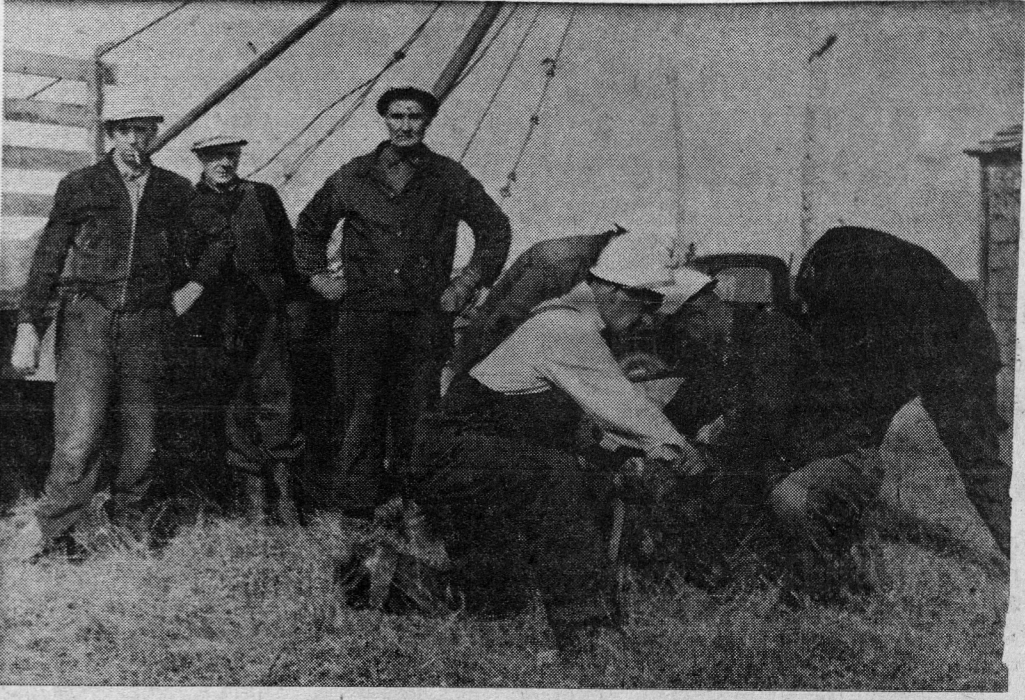

Fortunately Georgetown did not budget for increased expenditure this year. The matter of revenue is of great concern to the town and it is becoming practically impossible to finance the town's business with the present tax revenue.
Councillor N.W. Hansen said that he had definitely received the impression from listening to the speech of the Prime Minister of Canada when he spoke in Charlottetown, that a portion of the Dominion Government Grant to the Provinces, was to assist the municipalities.
Councillors James MacConnell Jr., Preston MacDonald and Charles Fraser concerned in the Council's expression of disappointment at not receiving the grant.
At the meeting, correspondence was read from the Maritime Electric Company, stating that the rate charged on each street light would be reduced from \$23.80 to \$23.00. A saving on fuel costs by the company was given as the reason why the reduction could be granted.
In a letter to the Council, the Provincial Fire Marshall stated that a film was available on fire fighting. This film has been shown in Charlottetown. The Council decided to have the film shown in the Town Hall on April 22nd.
The Council decided to purchase, for use in the town, a Toronado grass and weed cutting machine. This machine is self-propelled and will cost \$350.
Reports presented to the meeting by the various committee chairmen, including a report from the chairman of the street committee stating that side streets had been scraped three times.
Matters relating to the rink and to the Town Hall were contained in the report of the chairman of the public property committee.
