The whole forming a most extensive stock, and from the variety in the different articles, and moderate charges, is well worthy of attention.  
AMERICAN HOUSE, Grafton Street,  
W. B. DAWSON.  
Dec. 13.

THE Subscriber, thankful for the liberal patronage he has hitherto received, begs leave to inform the public, that, having recently returned the latest improvements in HORSE SHOEING and having put himself under the instruction of one of the most scientific Surgeons of the Royal College of Veterinary Surgeons, London, he considers himself competent to Shoe Horses upon the most improved principles. Horses having their hoofs injured by bad shoeing, or other causes, may be restored to perfect soundness by being shod without the use of Nails. The subscriber has on hand a full supply of SHOES adapted to Horses on the Road or Farm. Also, can furnish all kinds of AGRICULTURAL IMPLEMENTS at the shortest notice.

All persons to whom the subscriber is indebted, will please forward their Accounts for adjustment, and all persons indebted to him will oblige by making immediate payment.  
WILLIAM JAKEMAN.  
Charlottetown, Nov. 25, 1855.

**GENEALITY:**  
I hereby certify, that Mr. Wm. Jakeman has been carefully examined by me, and I find him fully competent to administer Medicines and attend Horses. As I have had every means of testing his abilities during his year on London.  
Youths, Gentlemen,  
WM. EVERARD,  
Veterinary Surgeon,  
Member of R. V. Col.

SAMUEL M-MURRAY,  
Charlottetown, Nov. 1, 1855

**FARM FOR SALE.**

THE FARM now in the occupation of Mr. R. W. EDWARDS, is offered for Sale, containing 192 acres—110 acres being cleared from stumps and in good state of cultivation, being well manured, and no part of it has been over cropped. There is an excellent spring of water close to the House; and the buildings being recently built, are in good condition and commodious. There is a fine grove of soft wood growing up near to the buildings, 112 acres freehold.  
New Withshire Settlement, 31, Dec. 31, 1855.

**CHEAP AND SAFE LIGHT!**

NEWELL'S PATENT Safety Lamp & Lamp Feeder  
Warranted to prevent all accidents from the use of BURNING FLUID, PATENT OIL, ROBIN OIL, and CAMPHENE.  
And all other explosive compounds used for production of light.  
This INVENTION is applied to common Fluid, Safety and Camphene Lamps, Lamp Feeders, Fluid-holders, Lanterns, &c., &c.  
We respectfully invite the attention of the public to NEWELL'S IMPROVED SOLID FLUID LAMP which gives a steady, brilliant flame, nearest to Gas that has ever been produced. The cost of burning being only one cent an hour it is these Lamps are particularly adapted for Churches, Hotels, Factories, Stores and parlours. Oil Salar can be altered, using the same shade. Common Fluid Lamps can be changed to Safety Fluid Lamps.

**PORTER'S Patent Burning Fluid and Camphene.**

As cheap and good as can be bought in the market. Also, Shades, Globes, Lamp Wicking, Entry Hall Lanterns, Fluid Chandeliers, &c.  
For Sale, Wholesale & Retail, by  
Newell, Willard & Co.,  
No. 29 Brimfield Street, Boston.  
N. B.—A large deduction will be made from the former prices of NEWELL'S SAFETY LAMPS, &c. The following certificates are a sufficient guarantee of the entire safety and efficiency of the Safety Lamp and Feeder.  
We have had an opportunity to test the Patent Safety Lamp and Lamp Feeder of Mr. John Newell, of this city, in regard to the measure of protection, their construction affords. In the trials to which we subjected them, we were not disappointed, without effect, to produce explosions of the vapor of the fluid mixed with air, and to burst them by the pressure of the vapor alone. The principle adopted by Mr. Newell is that of the well known Davy Lamp. He has so combined the parts, that we are satisfied that all risk of explosive action is removed.  
CHARLES T. JACKSON, M. D.,  
AUG. A. HAYES, M. D.,  
Assayers to the State of Massachusetts.

BOSTON, Aug. 30, 1852.  
Mr. John Newell, of Boston, has exhibited to me a Lamp, and also containing vessels, furnished with wire gauze protectors, upon the principle of Davy's Safety Lamp for miners. He has used both these instruments before me with inflammable fluids, and in both, when set on fire, the flame was arrested by the wire gauze, without injury to the instruments. I am satisfied that the protection will prove effectual against explosion. Nothing short of this conviction would induce me to certify, when I have seen the instruments by ignorance and carelessness, and the gas lamps should be given up; and those of metal substituted, on account of the danger of fracture.  
B. SILLMAN, senr.

NEW HAVEN, Oct. 16, 1853.  
I have examined Newell's Patent Safety Lamp and Lamp Feeder. I have been instructed upon strictly philosophical principles, having a tube of silver wire gauze, with a small perforation in the cap. If well made, it will prevent all explosion, I have no doubt, would prevent many distressing and fatal accidents.  
E. S. CARR, M. D.,  
Professor of Chemistry, Albany Medical College, and of Applied Chemistry in the University of Albany.  
DEAR S. & C. OWEN,  
W. B. DAWSON are our authorized Agents for the sale of the above in P. E. Island.
