VARIETIES.

YANKEE ENTERPRISE IN VALPARAISO—The result of the general introduction of Americans into the cities on the shores of the South Pacific has been to infuse a spirit of enterprise among the people and lend activity to every branch of trade. The breakwater at Valparaiso is progressing rapidly under Yankee superintendence, and the bonded warehouses are rapidly rising into grandeur under the auspices of that indefatigable American, John Brown. Another great enterprise, attributed to Americans, has been the procurement of ice for the citizens, under an exclusive contract with the Government. The appearance of a Yankee two-wheeled cab in thestreet of Valparaiso has created quite an excitment among the moustached hidalgos, and made them open their eyes with wonder. Sewing-machines, too, are about being introduced there. There seems to be one thing more wanting, and that is, a little wholesome Yankee competition with the sluggish British mail line, which plies on the coast.

WHO IS THE MISCREANT THAT SENT US THE FOLLOWING?—As we know that the Russians require oleaginous food is it not possible that, after devouring Turkey, the Czar may take a fancy to "Greece?" Should he do so, is it not probable that "Genuine Russian Bear's Greese" will no longer be a fiction?

SALT YOUR CABBAGE.—We printed some time ago recommendation, and do so again, that it may not be forgotten that, in boiling a cabbage whole, if some common salt be put into the water, when washing cabbages or greens, preparatory to cooking them, the snails, bugs, &c., will come out and sink to the bottom, so that they need not be boiled with the vegetables. It is impossible to wash out with water alone, except the cabbage be taken to pieces.—*Germantown Telegraph.*

HOME-MADE VINEGAR.—Mix with three gallons of soft (rain) water, one quart of molasses, and one pint of yeast. It will ferment and turn to vinegar in four weeks.

BAKED APPLES.—The person who has eaten baked sweet apples with milk, needs no commendation of the article.—But those who have tart apples only, may secure a delicious dish by the following process.—Pare them, if thick skinned, cut out the largest portain of the core from one end, and place the fruit on well-glazed earthen dishes or pans, with the cored end upwards, and the cavity filled with refined, powdered sugar.—Then bake them.

VIRGIN SIMPLICITY.—An anecdote is told of a young lady of Harrisburg, who was recently on a riding excursion. The horse commenced kicking, when she, in the most simple manner requested her companion to get out and hold the horse's leg' or he might injure the vehicle.

ANTIQUITY.—A lawyer and a doctor were discussing the antiquity of their respective professions, and each cited authority to prove his the most ancient. Mine," said the disciple of Lycurgus, "command almost with the world's era. Cain slew his brother Abel, and his was a *criminal case* in law." "True," rejoined Esculapius, "but my professiou is coeval with the creation itself. Old Mother Eve was made out of a rib taken from Adam's body, and that was a *surgical operation.*" The lawyer dropped his green bag.

THE POOR AUTHOR IN ALL AGES.—If the flowers strewed before me had but a little gold leaf on them, I should be the happiest dog in the world. It is strange tbat the people who value the silk so much should not feed the poor worm who wastes himself in spinning it out to them.—*Moore.*

HONESTY IN BUSINESS.—Two brethren were riding in a wagon one day—the conversation turned on the manner of doing busiuess.

'Brother,' said one, 'if we would succeed in store-keeping we eannot be strictly upright in every little thing. It is impossible. We could not live.,

'It is contrary to religion not to be upright, replied the other. 'Honesty is as much a part of religion as prayer or reading the Bible, and yet if he be not strictly an honest man, he cannot be a religious one.'

'I don't know about that; we must live; that is my doctrine.'

'But you pretend to be a religious man, don't you? You are a professor as well as I am.'

'And you will be more likely to break down if you do. I tell you, my brother, honesty is not only a part of religion, but it is the best policy too; and I will venture to say, the man who is honest will succeed better in his store than he who is unjust, either in little thiugs, or in great things, is a dishonest man, and an irreligious man: and the day of judgment will convince him of it fearfully.'

The above conversation, in substance, took place in one of the counties of the State of New York. The storekeeper did business in a village near which they were riding. Since that time he has failed in his business, and has been obliged to leave the village.

I wish every merchant, every shop-keeper would lay this truth to heart: "A man who is not strictly an honest man, cannot be a religious man."

Idleness never can secure tranquility.

ARCHIBALD SCOTT, Esq.

SIR,—As the Agent of various *Fire Insurance Companies*, I beg to bring under your notice my *PATENT ARTIFICIAL SLATE.* This composition has been upwards of, three years extensively used in New Brunswick, Newfoundland and Prince Edward Island, the Canadas and Nova Scotia, principally for covering shingled roofs, as you will perceive by the accompanying circulars of certificates. It has been severely tested, and proved most successfully its fire proof qualities under most extraordinary circumstances; so much so, that I am of opinion that Fire Insurance Companies should encourage its general application to all kinds of wood building (where the color would be no objection to its being used, such as he back walls of dwellings in the city, out houses, ware-houses, &c., as well as the roofs) by lowering the premium of insurance on such buildings as are covered.

I have the honor to be, sir,,
Your obedient servant,

J. W. ROSS.
Patentee and Manufacturer

Halifax 14th July, 1853.

SIR,—In answer to your note of the 12th inst. I consider the use of your "Artificial Slate Paint" on shingled Roofs, as greatly diminishing the risk against Fire—I have frequently reduced the premiums on Buildings in the Country, upon its application,

I am, sir, your ob't servant.,

ARCH'D. SCOTT.
Insurance Agent.

VETERINARY PRACTICE,

Under the Patronage of His Excellancy Sir ALEXANDER BANNERMAN, *Knight.*

GEORGE LORD, begs leave respectfully to intimate to his friends and the public in general, that he has resumed his practice in the VETERINARY LINE, under the patronage of His Excellency Sir ALEXANDE BRANNERMAN, Knight.

After a successful practice of 27 years—14 in England and 13 in America—in the course of which he has been directly instrumental, through his skill, in saving, for their owners, the lives of many valuable HORSES and COWS; he hopes that, in now soliciting a renewal of PUBLIC PATRONAGE, he may be permitted to say that he considers himself to be as well qualified to prescribe MEDICINES and preform OPERATIONS, in the capacity of a HORSE and COW DOCTOR, as any individual who has ever practised in that line in this Colony; and he, therefore, presumes that he may confidently look forward to a renewal of that patronage which he formerly enjoyed in this Island.

RESIDENCE—Next door to the Victoria Hotel, Water Street, Charlottetown.

The Wonder of the World!

Devines' Compound Pitch Lozenge.

THE Great Remedy is at last discovered, and COUGHS, COLDS, ASTHMA. COSTIVENESS AND CONSUMPTION have lost their terror, and vanish as as if by magic before this Sovereign remedy. Was it ever before known that, *Hopeless cases of Consumption were crred for less than $5?*

Truly, if any individual is to be pitied, and needs sympathy, it is the consumptive,—always expecting to get well, and yet the painful evidence of decay almost "makes the inner soul shrink with the outer flesh."

"Some bloom as roses bloom,
And live as roses live,
A single morning space!"

While others, in more mature life,—by some imprudence and a slight cold neglected,—in the hectic flush, the painful cough,

"The prints of their parting steps appear."

All we ask is this one question:—If you have got mucous membranes, or any other members of the body that are "heirs to ills."—are you not interested n this *great remedy*, DEVINES' COMPOUND PITCH LOZENGE

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine.
