RAND at the Roller Rink to-night. FRESH BUCKWHEAT FLOUR at Beer & Goff's. SEVERAL cases of small-pox have appeared in Toronto. ONE drug at the Stipendiary Magistrate's Court this forenoon. THE small-pox has been carried to Fall River from Montreal. EVERYTHING in Gentlemen's Furnishings, extra good value, at D. A. Bruce's, sep8. CALL at R. K. Brace's and get some splendid fresh Butter at 18 cents per pound, sep8. MR. E. W. TAYLOR, Watchmaker and Jeweller, advertizes a good thing in ship's chronometers. D. A. BRUCE is now showing his fall and winter suitings. Special bargains offered to cash buyers. HON. ROBERT ROBERTSON, a member of the Legislative Council of New Brunswick, died on Saturday last. REV. JAMES CARRUTHERS, pastor of St. James' Church left for Boston in the steamer Ulunda yesterday evening. JOHN R. DAVIES, Esq., of the firm of Noonan & Davies, Pictou, is visiting the city. He is staying at the Rankin. MR. OTTO R. CHAMBER, of the P. O. Department and Mr. W. S. McKie, returned from the New England Fair last evening. By telegram to Peake Bros. & Co., the brigantine Zevilde arrived at Liverpool on the 7th inst., 21 days passage. This vessel will immediately go on the berth for Charlottetown as advertised. JUST OPENED.—A magnificent lot of silver-ware, consisting in part of Cake Baskets, Cruets, Butter Dishes, Pickle Dishes, Breakfast Castors, &c., E. W. Taylor, Watchmaker and Jeweller, south side Post Office. J. J. DAVIES, Esq., of the Rankin and Geo. E. Hughes, Esq., of the Apothecaries Hall, returned from the New England Fair last evening. Mr. Hughes disposed of his handsome team of matched driving horses for a handsome sum. We learn that W. J. Fraser, Esq., is about erecting a large Carriage Repository on the old site known as the "Royal Oak." This, with the new Government Building, will add to the beauty of Queen Square. Messrs. Taylor Bros. are the contractors. I. O. O. F.—St. Lawrence Lodge, No. 8, propose paying a fraternal visit to Wildrye Lodge on next Friday evening. The members of St. Lawrence Lodge will assemble in the Reception Room in Oddfellows' Hall, at 8 o'clock, where preliminaries will be arranged. MR. D. McNEILL, of this city, has received advice from Boston which state that the celebrated trotter Bijou, bred by his father, Malcolm McNeill, Esq., of West River, has lately lowered his record and can now trot a mile in 2:22. It is expected that Bijou will, ere long, trot the mile in 2:20. His owner says that he would have done so long ago but for an accident in which he cut his knee. THE steamer Ulunda, Captain Hill, sailed for Boston yesterday evening with freight and the following passengers.—Mrs. Trainor, Miss Semple, Mrs. McIntyre, Mrs. Wright, Mrs. Roach, Mrs. Vaughan, Mrs. Reigh, Miss McLean, Rev. Mr. Carruthers, Mr. Stanting, Mrs. Stanting, Jas. Stanting, Archd. Kennedy, Miss Kelly, John Kelly, S. J. Holland, Miss McPhee, Miss Quinn, Miss McLean, Mrs. E. A. Kent. THE cricket match between the Wanderers, of Halifax, and Park Cricket Club, of this city, resulted in a victory for the former in one inning. The Charlottetown Club went to the wicket first and scored 10, and the Wanderers following scored 112. In the second innings the Charlottetown Club only scored 12. A scratch match was afterwards played, and a return match is going on to-day. The Wanderers leave for St. John to-morrow, well pleased with their visit to Charlottetown, notwithstanding the fact that the matches were disinteresting. THE Skating Match, at the Roller Rink to-night, promises to be a lively affair. The following entries have already been made, viz: James Jenkins, M. B. Trainor, E. Becker, F. H. Heartz, A. D. Taylor, F. McDonald, A. Newson, J. H. Burns, John Murphy. Referee—R. B. Norton. Judges—Frank Carter, T. J. Farquharson, J. Henderson. Timers—G. Doull, A. Bryanton, A. J. Quirk, T. Moore. THE Band will be in attendance with a first-class programme and there will be skating before and after the race. WITH reference to the Patriot's item regarding the Quarantine Office, we may state that the Quarantine Office is not informed by the boatmen of the arrival of vessels subject to quarantine. On the contrary, the boatman is only at the command of the officer. The acting Quarantine Officer has sent the following circular to all agents of steamers arriving at this port: CHARLOTTETOWN, Sept. 8th, 1885. I have to inform you that no person will be allowed to board or land from any steamer or vessel coming from a foreign or infected port before the steamer or vessel is inspected. JAMES WARBURTON, M. D., Acting Quarantine Officer. Dr. Warburton has so far done his best to reach all vessels coming from foreign and domestic ports. Most people suppose that the manufacture of tobacco consists merely of taking the leaf and pressing it into plugs. The fact is, however, that the process is a very delicate one, and the least false step will injure the flavor. The leaf must be carefully attended to for months after it leaves the planter's hands. It must neither be dried too quick nor too slowly. Even after it has reached the factory the utmost delicacy of manipulation is required. The weather must be carefully studied, for if there is too much moisture in the air when it is pressed it will mould, and the same will happen if too much moisture is sprinkled upon it for the purpose of opening the leaf. Again, if it is over-dried in the oven it will turn crisp, and will nip the tongue in smoking. It is by careful attention to all these points that the "Myrtle Navy" has been brought to such perfection. The firm who manufactures it have their own storehouse in Virginia, and from the time the leaf leaves the planter's hands until it is turned out of the factory, months afterwards, in plug, it is under the care of their skilled and trusted employes.

TELEGRAPHIC NEWS.

(SPECIAL DISPATCHES TO THE EXAMINER.) The Caroline Affair. HAVANA, Sept. 8. Five thousand people attended a meeting to take action in connection with the seizure of the Caroline Islands by Germany. The lives and property of the Cubans were pledged in support of Spain in case of war with Germany. MADRID, Sept. 8. Prince Bismarck has offered to withdraw the German forces from Yap, the island recently seized, provided Spain will not occupy it pending diplomatic solution of Spain's claims. London Scandals. LONDON, Sept. 8. Mr. Shead, editor of the Pall Mall Gazette, Mrs. Jarrett, General Booth of the Salvation Army, and Mme. Maury, defendants in the Armstrong abduction case, were arraigned in Court to-day. The excitement was intense during the examination. Miss Armstrong is quite a child. She identified Mrs. Jarrett as the woman who secured her from her mother on the plea to do house work. Stead, of the Gazette, and Mrs. Jarrett, were hissed by the crowd. The Puritan and Genesta. NEW YORK, Sept. 8. The race for the America Cup, between the yachts Puritan and Genesta, will be run over again to-day. The race yesterday was not concluded, as neither yacht finished within the required time, which is seven hours. The result of the contest yesterday is thought by experienced yachtsmen to be convincing proof that the Puritan can beat the Genesta under any circumstances or conditions. The Car. NEW YORK, Sept. 8. The three mile race between Hanlan, Ross and Lee, at Saugatuck Bay yesterday, proved a regular farce. Ross and Lee fouled, but no claim was allowed, and Hanlan finished in 22 minutes and 21 seconds. Lee finished in 23 minutes, and Ross three lengths behind him. Medals for Volunteers. OTTAWA, Sept. 8. The Government has notified that Her Majesty, Queen Victoria, approves of the proposal to confer medals on the volunteers who assisted in quelling the Northwest rebellion. Precautions Against Smallpox. NEW BEDFORD, Mass., Sept. 8. The Board of Health of this city have passed a regulation placing all vessels from the British provinces in quarantine, on account of the smallpox in Montreal. Gored to Death by a Bull. PICTOU, Sept. 8. A horrible accident occurred at River John yesterday. A farmer named Richard Gannon, while leading a bull to water, was gored by the vicious animal, and instantly killed. Osman Digma Shot. CAIRO, Sept. 8. Osman Digma was shot by an Arab while trying to coerce four shikhs during the attack on Kassala. Weather Bulletin. Probabilities for the next 24 hours for the Maritime Provinces. TORONTO, Sept. 8.—10 a. m. Moderate winds, mostly southwest and south, fine weather, stationary or slightly higher temperature. METEOROLOGICAL OFFICE Charlottetown, Sept. 8, 1885. Highest Temperature yesterday, (read at midnight).....64.0 Lowest Temperature yesterday, (read at midnight).....46.7 Lowest Temperature this morning.....49.1 Temperature this morning, at 8 o'clock.....57.1 Temperature this afternoon at 1 o'clock.....64.3 Gen. Grant's Tomb. General Grant's tomb on the Hudson, is nightly guarded by a squad of soldiers to prevent its being rifled. It is not known that any crime has been planned, but the theft of A. T. Stewart's body and the attempt on Lincoln's tomb on this continent, and the carrying away of the remains of Lord Crawford in Scotland, have shown the existence of a phase of villainy that renders it necessary to protect against robbery the resting place of any prominent man whose friends a thief might think would be willing to pay largely for the return of the body. The grave of President Garfield, now dead nearly four years, is still watched, and that of Gen. Grant will probably need guarding for as long a time. Wheat Shipment. The first shipment for England of this year's wheat was made from the North-West Territories on the 3rd inst. It was raised on the Canadian Pacific's experimental farms in the vicinity of Maple Creek, 600 miles west of Winnipeg. The Ogilvie Milling Company also sent its first direct shipment of flour to Great Britain on the same date from Winnipeg. It is rather late in the day to raise a boom about summer frosts in the North-West when we find that the harvest is over and the wheat of this year's crop on its way to market. Whether the flour was manufactured from wheat grown this year or not we cannot say. SENATOR POWER, of Halifax, has written a letter to the Halifax Chronicle in which he defends Sir Alexander Campbell from the unjust aspersions of that paper.

Wanderers' Amateur Minstrels.

THE Wanderers' Amateur Minstrels' entertainment at Academy of Music last evening, was a pleasing and amusing affair. First-class arrangements were made by the management, and the minstrels were put on the stage in good style. The audience was large, select, and appreciative, and went away well pleased with the performance. The choruses were sung in good taste, while the drama, "The Virginian Mummy" was well acted. Tom Way (Mr. Esson) who appeared to be the star of the company, held his respective parts admirably. Plum Jones (Mr. Fuller), Tools Aitken (Mr. Henry), and Mr. Gardiner (Mr. Seeton), gave him worthy support, and the other performers sustained their parts splendidly. The orchestra, though small, was good, and played some choice selections during the evening. The management deserve credit for producing so fine an amateur performance.

Chignecto Marine Transport Railway.

OPINION OF THE BOARD OF TRADE, ST. JOHN, N. B. The opinion of the Board of Trade, respecting this great national work is expressed as follows:— WHEREAS, means of communication between the waters of the Bay of Fundy and the Gulf of St. Lawrence, whereby products of the several Provinces bordering thereon may be interchanged without encountering the dangerous navigation of the Atlantic coast of Nova Scotia, whereby steamers and sailing vessels, adapted as well for inland as for ocean navigation, may be safely conveyed across the Isthmus of Chignecto, without the cost and delay of transshipment or breaking bulk, and whereby the sailing distance between this port and all ports north and west of said Isthmus may be reduced about 600 miles—would materially increase the volume of trade and benefit the shipping interests of this port and other ports in the Bay of Fundy and Gulf of St. Lawrence; and WHEREAS, by means of a ship-railway across said Isthmus, the objects aforesaid may be accomplished and thus stimulate the development of the agricultural, mining, lumbering and fishing resources of the district contiguous to the aforesaid parts; and WHEREAS, a company has been formed for the construction and operation of a ship railway, with commodious docks and hydraulic lifts for raising and transporting over its line laden vessels of 1,000 tons displacement; therefore RESOLVED, that the Board is of opinion that the undertaking of said company would greatly facilitate trade and commerce between the eastern and western provinces; and further RESOLVED, that the Board cordially approves the project for building the said ship railway, believing that this is a movement which will commend itself to all classes, and prove to be of great convenience and benefit to our trade and commerce generally.
