The Professor claims that his prediction that the present autumn would be remarkably cold and stormy is already fulfilled, since October, according to the Toronto Bureau reports, was the coldest for the last twelve years.

ONE OF THE REASONS why Scott's Emulsion has such a large sale, is because it is the best. Dr. W. H. Cameron, Halifax, N. S., says:—"I have prescribed Scott's Emulsion of Cod Liver Oil, with Hypophosphites for the past two years, and found it more agreeable to the stomach and have better results from its use than any other preparation of the kind I have ever used." Sold by all druggists; 50c and \$1.00.

CHAPPELLE'S ALMANAC.—This valuable Annual for 1889 is to hand. In addition to the usual store of information, Mr. Chappelle has this year inserted a few pages of facts worth knowing, such as new interest tables, business laws, telegraph alphabet, information to farmers, etc. Altogether, the work is equal, if not superior, to any previous issue. No cue should be without a copy. Sold at the small sum of 15 cents.

A BUSY WEEK.—The Halifax coroners were kept busy last week. First, a man was choked to death; next, Capt. Brise shot himself. On Friday an infant was found in a churchyard—a clear case of infanticide, a wound being found behind the ear, made with some blunt instrument. The fourth case is that of one Wm. Callow, who fell from a staging on Roache's Wharf while engaged, wheeling coal. In his fall his head struck the rail of a schooner, fracturing the skull, from the effects of which he died. He was a native of Newfoundland, and single.

DOUBLE ANNIVERSARY.—Sunday last was a double anniversary in the Moncton Baptist Church, the third of Rev. W. B. Hinson's pastorate, and the first of the re-opening of the enlarged church. In the evening the pastor reviewed the three years' work to a large congregation. Five converts were baptized on Sabbath afternoon, and these, with five others, received the right hand of fellowship that night, making thirty-three additions to the Moncton church since the conference, and two hundred and seventy-five in three years. Last year was the most prosperous in the history of the church.

FIVE MASTED SCHOONER.—A five-masted centre-board schooner, called the Governor Ames, was successfully launched at W. H. Libero, Me., last week. Her dimensions are: length of keel, 233 feet; length over all, 285 feet; breadth of beam, 59 feet; depth of hold, 21 feet; gross tonnage, 1778; net tonnage, 1689. In her construction 150 cubic tons of white oak timber, 150 tons of iron, and 800,000 feet of yellow pine have been used. She has one of the largest windlasses ever built, and an engine of 350 horse power. The schooner is designed to run between Baltimore and Providence in the coal business. She cost about \$80,000.

A FALSE CHARGE.—At the meeting of the Board of Underwriters held yesterday, the statement was made that on the night of the last fire the drivers of both engines were drunk, and that one of them (McCourt) was trying to drive his horse without fastening the traces. Chief Engineer Large desires us to say that there is not a word of truth in either of the charges. In the first place, he says, neither of the drivers showed the sign of having been drinking, and in the second, he fastened the traces himself on the night in question. It is to be had that charges of this kind should be made against men who are well known to be faithful and capable in the discharge of their duties.
