AROUSE, MY FRIENDS.

Arouse, my friends! and happy be:—
Though troubles now perplex you,
A brighter day we yet shall see;
Then let no trifles vex you,
If every hour were fraught with joy
Which knew no bounds or measure,
We should be glad of grief's alloy
To mingle with our pleasure
Do what we will, there's something still
Arises to annoy us;
If not for this, the very bliss
Of life would soon destroy us!

If, sailing on the ocean's breast.
Our bark should ne'er be lifted
From wave to wave, but still at rest
Be onwards daily drifted,
League after league in endless calm,
With nothing foul to check us,—
Why, we should wish to have a storm,
Though it perchance might wreck us!
Do what we will there's something still
Arises to annoy us;
If not for this, the very bliss
Of life would soon destroy us?

"There's bliss in tears," Tom Moore hath said,
And who, when crosses grieve them—
When friends prove false—are lost—or dead,
Feel not their tears relieve them?
Whate'er may be our troubles here,
They're only sent to prove us;
We breathe no sigh—we shed no tear,
Unmark'd by Heaven above us!
Do what we will there's something still
Arises to annoy us;
If not for this, the very bliss
Of life would soon destroy us!

VARIETIES.

HAIR.—A writer in a late number of the London Quarterly Review furnishes the following information on this subject: "London imports about five tons of human hair annually. Black hair comes mainly from Brittany and the south of France, where it is collected principally by one hair merchant, who travels from fair to fair, and buys up, and shears the crop of the neigbouring damsels. A traveller in Brittany describes the peasant girls as attending at the fairs with their beautiful treasures, perfectly willing to sell them. He saw several girls sheared, one after another, like sheep, and as many more standing ready for the shears, with their caps in their hands, and their long hair combed out and hanging to their waists. By the side of the dealer was placed a large besket, into which the successive crops of hair were thrown; each tied up in a wisp by itself. For a head of hair apout twenty sous in money is given, or a gaudy handkerchief. The hair is the finest and most silken that can be produced. Light hair comes from Germany, where it is collected by a company of Dutch farmers, who go over to England for orders once a year. And, who knows from what comes those pendant tresses, gleaming in the gaslight, with which our blooming Eves, aptly entangling their snaky coil with their own, tempt our eligible Adams."

IMPORTANCE OF THE ONION.—The onion is worthy of notice as an extensive article of consumption in this country. It is largely cultivated at home, and is imported, to the extent of seven or eight hundred tons a year, from Spain to Portugal. But it rises in importance when we consider these latter countries it forms one of the common and universal supports of life. It is interesting, therefore, to know that, in addition to the peculiar flavour which first recommends it, the onion is remarkably nutritious. According to my analyses, the dried union root contains from twenty-five fo thirty per cent. of gluten. It ranks in this respect with the nutritious pea and the grain of the east. It is not merely as a relish; therfore, that that the wayfaring Spaniard eats his oniou with his humble crust of bread, as he sits by the refreshing spring; it is because experience has proved that, like the cheese of the English labourer, it helps to sustain his strength also, and adds, beyond what its bulk would suggest, to the amount of nourishment which his simple meal supplies.

Somebody says the Missisipi "has raised one foot." When it raises the other, it will probably run.

Somebody advertises to "sit up" with the sick for $1, 50 per night, delirium tremens double price.

Whole years glide unperceived away, while sorrow counts the Minutes as they pass.

Good resolutions are like fainting ladies, they want to be carried out.

R. R. R.
What do the Sick Require?

To these who think.—If sick, if suffering the tor tures of pain, or afflicted with long illness, the invaild's constant hope and most frevent desire is to be relieved and cured of the distressing ailment, that time. On this principle the R.R.R, REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is predicated.

The R.R.R. REMIDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S RENOVATING RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the sufferer from pain, and to check and arrest the progress of diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Pneumonia, Ship Fever, Fever and Ague, &c. Likewise for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, (hence its usefulness in Neuralgic cases;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarting is over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there are many chances to one that the pain will continue, and an inflamation be set up, and instead of a simple incised wound we have inflamation —disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and convenient "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatning inflamation or disease, as Sore Throat, Lumbago, or pains in the loins, Pleuratic congestion &c. the Relief will be found the most invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any one who may doubt this but make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the most valuable remedy for Diarrhœa; and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhœa or Cholera in a short time.

DISINFECTANT.

RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of

FEVER AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA.

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATOR, the patent will soon be out of danger, and speedily restored to health. If the R.R.R. Remedies are given, the will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R·R.R. Remedies. It is for the cnre of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideraion of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronic Diseases, of inflammation that is kept alight on fire by some sustaining cause: for the Chemists tell us that inflammiation is a slow concealed combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous issue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the chin and along the neck; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs; if Bronchitis, it takes place in the Bronchial tubes: if Syphilis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these Chronic inflammations, (for it is this in every case.) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified. We therefore want a medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure Chronic diseases: to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action; of the RESOLVENT is directed first to the absorbents, stimulating them into action, and second to the blood which it depurates by its action over the glands, the liver, pancreas, kidneys &c., which are the sewers that nature has established for purifying the blood. You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT, It resolves away diseased deposits; it purifies the blood and renovates the system. Tumors are removed and discussed by its operation: Chronic Swellings are dissipated; Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action; Scrofulous constitutions are soon amended, and the disease checked when ever it has attacted the system. Syphilis, with all its horrible train of concomitants, here finds a certain and infalible cure; and Consumption too, oftimes finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and almost helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race. creeping over our vitals with an insidious yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofula deposit, an inflamation of the lung structure, and could be as readily cured as any other Scrofulous disease—such as Rickets, Hip Complaint, or White Swelling—if it was not for the peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drawn, until the last guttural sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is continualy kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is oftentimes incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we posess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT What the Relief is to Acute diseases the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit; it purifies the blood and it renovates the system

NO. 3

We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills," will find RADWAY'S REGULATORS the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use

We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately proceeding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But how is nervous irritation the cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands; and when the glands refuse to do their work, the foreign matter which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to eat you can easily understand that the blood will becorrupted by it, and diseased action will follow; and it will be just as surely corrupted if the glands do not abstract the worn out materials from it

Again if the kidneys be interfered with in their action, from any irritation whatsoever, why then we have the salts of the urine, the poisonous urea, circulating in the blood, producing headaches, coma, drowsiness. &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, behold the disastrous effects! The bile, instead of passing into the intestines to aid them in their movements, (for the bile is Nature's purgative) is left to circulate in the blood: the bowels, therefore become inactive and the carbuniferous bile (for carbon or charcoal is the chief component of bile) circulating in the blood is the cause of the fevers of the system. The superabundance of the carbon in the blood meeting with the oxygen as it passes through the lungs is slowly consumed, and gives out a superabundance of heat, and this is fever.

RADWAY'S REGULATORS induce a healthy regularity of glandlular action No. Costiveness or Dyspepsia or Indigestion, or Pains in the Side, or Liver, Complaint or Pains in the Kidneys will trouble you if RADWAY'S REGULATORS are taken: and we positively assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will cure them

R.R.R. REMEDIES are suited to the treatment and unaided will cure most of "the ills that flesh is heir to." The sanguinary practice of the lance, the cupping glass, and leeches, they entirely dispense with,,and banish forever the pernicious use of that baneful drug, calomel

If you be sick, we advise you to resort at once to the R.R.R. REMEDIES, as the most prompt in their action, the most sure and effectual of remedies

Instance of diseases prevented, of rapid cures, and almost miraculous recoveries we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as with it, and, without knowing the circumstance prove nothing to your mind.

The R.R.R. Remedies are for sale by druggists everywhere. Persons desirous of learning more of our REMEDIES, are referred to our FAMILY FRIEND a Monthly paper. A copy will be sent free of charge, to all who will send in their names and address.

RADWAY & Co.,

May 4, 1854. 162 Fulton street, (up stairs) N.Y.

NEW PERFUMES, &c.

LUBIN'S EXTRACTS Bailey's Ess. Bouquet, Ede's Hedyosmia, Delcroix's Fashionable Perfumes, Lowe's Fragrant Perfume, and Genuine Eade Cologne.

HENDRIE'S MOELINE,

For preserving the Beauty and Luxuriance of the Hair, an extract of Vegetable and Animal Oleaginous Substances, most beneficial for promoting the beauty and luxuriance of the Hair, and of a very grateful perfume.

ROWLANDS KALYDOR,

For improving and beautifying the Complexion, and eradicating all cutaneous eruptions.

EMOLIENT CAMPHOR CREAM

Has been long approved of, as a certain and agreeable remedy for chopped hands, and the injurious effects of cold and piercing winds on the skin, which, however rough or red, is rendered soft and delicate in a few days. This Cream contains no soap or alkaline matter whatever.

PEARL DENTIFRICE

Is a most innocent and effectual preparation for beautifying the Teeth. By its tonic and astringent properties, it braces and strengthens the Gums and Sockets, preserving them in a sound and healthy condition.

ALL THE FAVOUITE TOILET SOAPS, Prepared in the useful form of a Tablet without angular corners.

Tooth, Nail, Hair and Cloth BRUSHES in great variety, all from LONDON.

Wm. R. WATSON,

Nov. 21st, 1853. Adv. & Isl.

The Laws of Prince Edward Island

FROM 1773 to 1851, both years inclusive—2 vol- Royal 8 vo., with a copious Index; published under an Act of the Colonial Legislature, and carefully revised and consolidated, by Commissioners appointed for the purpose, may be had at the Bookstore of G. T. HASZARD.

LAW BOOKS.

CHITTY on Pleading, Chitty on Contracts; Blunt's Commercial Digest and Shipmaster's Assistan English CommonLaw Reports, for sale at GEO. T. HASZARD's Book Store.

PAPIER MACHIE GODDS.

JUST RECEIVED at George T. Haszards Bookstore, a handsome variety of Fancy Goods consisting of—

Papier Machie Writing Desks
" Work Boxes
" Portfolios

Tortoise Shell Card Cases, Parian Statuettes, Wax Baskets, Bronze Figures, Mantel Stands, do and Papier Machie Watch Stands, with a variety of useful articles.

Twelvetrees Brothers' Soap Powder
(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE. For Sale by
GEO. T. HASZARD, QueenSquare.

APOTHECARIE'S HALL.

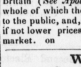
The Old Established
HOUSE, 1810.

CHARLOTTETOWN, JANUARY, 1853.

T. DESBRISAY & Co

HAVE just received, per late arrivals from London, Dublin, United States and Halifax, their Supplies for the Season, comprising, in the whole, an *Extensive and Varied Assortment of* DRUGS & CHEMICALS, PERFUMERY, Brushes, Combs, Soaps, and other Toilet requisites; Paints, Oils, Colours, and Dye Stuffs; Fruits, Spices, Confectionary, Medicated and other Lozenges; with all the Patent Medicines in repute, and every other article usually kept at similar Establishments in Great Britain (*See Apothecaries' Hall Aavertiser.*) The whole of which they can with confidence recommend to the public, and, if quality be considered, at as low, if not lower prices, than they can be procored in the market. on

WAXWORK.



THIS celebrated Horse "WAXWORK," imported from England, by the Royal Agricultural Society in 1853, will serve for the Season at the following places, commencing on the 1st April:—He will stand in Charlottetown every Saturday, and every second Wednesday, at Mr. Jakeman's; and will travel as far as Crapaud, at Mr. James Bulpets, and remain there from Tuesday evening, until Thursday morning, once a fortnight for the Season; thence return home; and the remainder of the time at the Subscriber's Stables, Old North River Road, 4½ miles from Charlottetown.

This Horse stands 16½ hands high, is very powerful, and of a handsome grey color. Terms, 15s. for the season; the money to be paid the first time of serving.

JOHN STOCKMAN.

Old North River Road, May 3.

Mountaineer.

THE BEAUTIFUL thorough-bred STALLION *Mountaineer*, by Muley Moloch out of Champagne, (the Carpenter and Lightning's dam) By Blucher (winner of the Derby in 1814,) by Waxey out of Pantina by Buzzaard, grand-dam by Trentham out of Cytherea. Muley Moloch by Muley out of Longwaist's dam, by Dick Andrews out of Spitfire.

He is a Dark Bay with Black Legs, very powerful has fine action, and a good temper. His pedigree is excellent, combining the most fashionable and racing blood on the turf. Muley Moloch being sire of the celebrated Alice Hawthorne, and many other superior Racers. Mountaineer's stock, now four years old, are very powerful and promising, and selling at high prices. The performances and racing capabilities of Muley Moloeh, Longwaist, and Alice Hawthorne, are too strongly impressed on the minds of the racing public to require repetition, especially the latter, she having won about 35 Queen's Plates and Gold and other Cups, besides many of the most valuable Stakes and Prizes in her day.

He will stand in Town, at the Subscriber's stables. Fees Twenty Shillings, paid in advance.

NEIL M'INNIS.

April 8th, 1854.

The New London Horse "FEARNOT,"

WILL stand for the Season, commencing on the 1st May at Malpeque, Barrett's Cross Roads, through Freetown, and South West Bedeque; at Neil Leforgy's, Bedeque Road; Barny Trowsdale, Crapaud; down the South Shore to Long Creek, at Michael McRae, on the West River, and at the North River, up Anderson's Road, at Mrs. Todd's; at Richard Bagnal's on the Malpeque Road, round by New Glasgow, Grand River, New London; and station at Duncan McIntyre's, South West River.

The Horse will visit each Station once a fortnight, making six rounds in the Season.

JAMES HELM.

PRINCE EDWARD ISLAND ALMANACK FOR 1854.

FOR SALE by
GEO. T. HASZARD.

THE LIQUOR TRAFFIC:
Ought it to be protected, or to be prohibited by Law?

THE ADDRESS, recently delivered at the Temperance Hall, Charlottetown, before *the Members of both Houses of Legislature*, and others, by the Rev. J. R. NARRAWAY, just Published and for sale by Mr. G. T. Haszard and Mr. Stamper. Price sixpence; considerable reduction if sold by the dozen.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

PROF. VALENTINE MOTT, the distinguished Surgeon of New York City.

DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. SOUTHWICK, Esq., one of the first merchants in New York City.

C. A. DAVIS, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
