established, the claims of the Crown for non compliance with the conditions of their leases or grants, as the proprietors choose to call them were brought up before that court, and two Townships were escheated. There was no appeal from the court,—no exception taken to the decision which was given. They knew, and knew it well, that what had been done was right. They knew, Sir, that Lieut. Governor Smith had but done his duty. But what did they next do? Why the *old clique*, that has ever been a bane to this Colony, united together, and raised a question about the quit rents, and, by deceptive influences, led the people to believe that, if escheat were allowed to be continued, the exactions for quit rent on the tenant in arrears, which had to be enforced before the Township could be arraigned before that court, would be yearly exacted. Under this impression, the people got exasperated against Lieut. Governor Smith, and signed the petitions the land agents got up against him, praying for his removal from the Colony, which accordingly followed, for, in all their efforts in this direction, I am sorry to say that the proprietary party were but too successful. Thus, by their deceptive influences, they induced the people to petition for his removal, and in that petition laid grevious charges against him. But on his arrival in England he demanded an investigation of his conduct before the Privy Council, and what was the result? Why, he was honorably acquitted, and his conduct as an able officer remunerated with a pension of £500 sterling a year. Is not this a precedent, Mr. Chairman? and if this is not satisfactory, look at the settlement of the lands in Nova Scotia. They were escheated. The question of Responsible Government was brought forward in Sir Donald Campbell's time. It was offered to us then, but the proprietary faction saw that it was a system of government that would work against them. The terms offered were, that a few officers of the Crown, who came here more for their own good than of this Colony, were to be pensioned off, and provision was to be made for the officers who were to take their place under the new system of government. These were thought to be hard terms,—more than the Colony could bear; and a committee were appointed by the Assembly to remonstrate, on behalf of the Colony, with the Crown. This was done. Mr. Rae, the Chairman of that Committee, ably put forward the state of the Colony, and plainly laid down the grievances which we lay under. This can be seen in the Journals of 1850 or 1851. In the meantime Sir Donald Campbell died, and Sir A. Bannerman succeeded him as Lieutenant Governor of this Colony. He repeated the conditions offered by his predecessor. They were the same. But, said Sir Alexander Bannerman, when you are prepared to accept this burthen (meaning the pensions for the officers of the retiring Government, and providing means for the pay of their successors), I am prepared on the part of the Crown, to hand over to you for recovery, for the benefit of the Colony, the *arrears of quit rents*, the *Fishery Reserves*, and *all lands liable to forfeiture*. These stipulations were ratified, and embodied in the *Civil List Bill*, which is the *writing of our Constitution*. Yes, Mr. Chairman, it was a bargain. These quit Rents, these Fishery Reserves, and all lands liable to forfeiture, were sold, yes, Sir, sold, I repeat the word, sold to the Legislature of this Colony, for the consideration of paying the Civil List Bill, as I have mentioned. And, Sir, I would add, I think it was discreditable to the Colonial minister to withhold from us the right to recover the same in a court of escheat. In private transactions such dealings would not be allowed; and the only apology I can offer for the gentlemen who have filled this high office, is that the administrations which have followed the introduction of Responsible Government in this Colony have neglected to put these facts fully and truthfully before the Colonial Minister. These are facts which every hon. member in this House is as well acquainted with as I am. The party thought they were making a good bargain,—that we had an advantage we never had before. Now, allowing that the titles were not good, these lands would have all fallen to the Government, and the country would have had the benefit of them. It has been said that the escheators promised the people free land, if a court of escheat was established, and that the small freeholders would lose their lands. Now, I deny that the escheat party ever propounded the idea that the settlers would get their lands free of cost, or that the small freeholders would forfeit their estates. It was the proprietary faction who said that, if a Court of escheat were established, the quit rents would be annually exacted from the tenants, and that the small freeholders would lose their estates. These, Sir, were the doctrines they preached, and they knew, Mr. Chairman, when they were preaching them, that they were preaching false doctrine, for they knew that when a court of escheat was established in Nova Scotia, the first act of that court was to establish every man in his possessions. I had no reason in the world, Sir, to prejudice me against the proprietors, further than that I knew they were continually making annual raids upon the people, and taking money and property from them that they had no right to. Why, we were oppressed by them, like as the people of England were, about the year 700, when the Danes and Normans made annual raids, sweeping off all the poor man had! I thought that, when we would get Responsible Government, the first act of that Government would be to enquire what their titles were, and if they were bad, that they would have been forfeited. I knew, and so does every hon. member know, that the grants were nothing but *leases*, with conditions attached which have never been fulfilled, and therefore, under Responsible Government, it became a question between the public and the proprietor. I thought that that system of government would have given us a court; that then, if the proprietors had a title, they would be compelled to go to court and prove it; if they were good, their land would have been confirmed to them, if not they would lose it; and thus the question would have forever been set at rest. But there were a great many difficulties thrown in the way, and brought in against it, and I think the many despatches sent here from different Colonial Ministers increased that difficulty.

NEW TRIUMPHS

OF

ROGERS' MEDICINES.

Run your eye over them and tell your affected neighbour about it.

AMHERST, October 1st, 1865.

Messrs Rogers & Co.:

Gentlemen—I have been a good deal troubled with those merciless and most distressing things called Felons or Whitlows. Last year I was laid up near three months with one and I could not tell what I suffered. A few weeks ago another began with all its usual vigor and earnestness. I suffered for several days. My hand swelled very much, and I looked forward to three months more of misery and suffering; but happily I tried your Ointment. In two days I went to work. It seemed to kill it at once. In three or four days a hard, black lump came out at the end of my thumb, about the size of a small pea. Wonderful medicine! Ye suffering try it.

WILLIAM ELLIOTT.

The Widow Bird, of Maccan Mountain, in this County, has been for ten years sadly afflicted with a complication of internal diseases incident to women and has been during a greater part of the time confined to her room, and has for six years without intermission taken medicine from the doctors. Last fall she was taken very ill. Her Doctor prescribed for a while, but told her soon that there was no use giving her any more medicine, as she could not live. The son accordingly went home without any. Shortly after her neighbors were called in to see her during her last struggles with the king of Terrors. She lived through that day, when Mr. Elderkin, who had proved our medicine, recommended them to try it. The result is that she has gradually improved, and two weeks ago she came thirty miles to see us; and she says she has not been so well for ten years. We want others similarly afflicted to get this medicine. It cheered our very soul to grasp this lady by the hand. We felt new determination to devote our energy and life to this business.

R. & Co.

SACKVILLE, N. B., July 17, 1865.

Messrs Rogers & Co.:

Gentlemen—I am happy to say that your medicine has cured me of a most distressing disease, the history of which is as follows viz: About seven years ago a lump appeared on my groin; the doctors called it a rupture; they advised me to wear a truss I did so, which I wore for three years; it then disappeared. Last year while at Richibucto, it reappeared as before. When my ship arrived at Bristol, England, the doctors there called it rupture and recommended me to wear a truss; I did so. When I got to Bermuda, W. I., it grew so bad that I was compelled to leave my ship and come home The lump by this time had grown very large. I consulted the best doctors in this country; some of them could not say what it was; others called it rupture, and said it could not be cured—the best I could do was to wear a truss. In a short time, however, the rupture broke and discharged full one quart and continued to discharge for twelve weeks The doctors were attending me all this time but could not cure me. I grew weaker continually and became quite discouraged. I was induced to send for you and obtain your medicine. The result is as above; thanks be to God for his goodness. Surely no one afflicted as I have been will hesitate to get your medicine.

Yours, with much gratitude,
SAMUEL COOKE.

Messrs. Rogers & Co.

Gentlemen—According to promise I write to inform you that your Syrup and Ointment has entirely cured my child after using it for six or seven weeks. She is five years old and has been afflicted four and one half years with a sore head. When we began with your medicine her head was sore all over. It was a loathsome sight to look at, and it had also a bad smell. We tried almost everything until we became quite discouraged. The doctors could not cure it. Rev E Clay, M. D., of Pugwash, advised us to try your medicine. We did so and are happy to testify to the inestimable value of your medicine in such cases. Yours, with much gratitude,

WILLIAM MILLS.

CHILDREN TEETHING

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers her

Soothing Syrup,

FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay **all pain** and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over thirty years, and **can say, in confidence and truth** of it, what we have never been able to say of any other medicine—**never has it failed in a single instance, to effect a cure,** when timely used. Never did we know an instance of dissatisfaction by any one who used it; on the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter **"what we do know,"** after thirty years' experience, **and pledge our reputation for the fulfilment of what we here declare** In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most **experienced** and **skilful nurses** in New England, and has been used with **never-failing success** in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC,

and overcomes convulsions, which, if not speedily remedied, end in death. We believe it the **best and surest remedy in the world,** in all cases of **Dysentery and Diarrhœa in Children,** whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—**do not let your prejudices, nor the prejudices of others,** stand between your suffering child and the relief that will be **sure—yes, absolutely sure**—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the facsimile of **CURTIS & PERKINS,** New York, is on the outside wrapper.

Judson's Pills.

THE ROAD TO HEATH AND LONG LIFE

SECURED BY

HOLLOWAY'S PILLS.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements for sustaining and repairing the frame.

Weakness and Debility.

How many persons suffer from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are, therefore, confidently recommended as a never failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

Disease of the Head and Heart.

These formidable diseases are, unfortunately, of frequent occurrence; for the most part they creep on gradually, but may be prevented by proper precautions. Holloway's Pills are the surest preservatives against all derangements of the brain, and are the speediest correctors of irregular circulation. If they be taken without delay, when tingling in the limbs, drowsiness, or giddiness comes on, the effect will be marvellous.

Females of all Ages & Classes.

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the peeress, universal favor is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhood or approaching the turn of life—the most critical period—may be radically removed by a recourse to these Pills.

All Disorders affecting the Liver, Stomach and Bowels.

Whenever the stomach, liver or bowels are disordered by high living, climate, or self-indulgence undue exertion or other causes, these fine regulating Pills will soon rectify the evil, and speedily bring back energy, strength and cheerfulness to the frame where previously all was lassitude, gloom and dejection.

Despondency, Low Spirits.

The misery occasioned by a disordered digestion is, unfortunately, felt by most. These famous Pills should be taken in appropriate doses to adjust the disturbed functions. They dispel headache, biliousness, nausea, lowness of spirits, and all similar ailments. A course of these invaluable purifying Pills never fails in removing the cause of such morbid affections, without subjecting the sufferer to any inconvenience

Influenza, Diptheria, Bronchitis, Coughs and Colds.

In our changeable climate few persons escape without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all impurities from the body generally, Holloway's Ointment should be well rubbed upon the chest and throat; it will penetrate the skin, reduce inflammation, and restore lasting soundness.

Holloway's Pills are the best Remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula, or King's Evil
Asthma	Fevers of all kinds	Sore Throat
Bilious Complaints	Fits	Stone & Gravel
Blotches on the Skin	Gout	Second'ry Symptoms
Bowel Complaints	Headaches	Tic-Douloureux
Colics	Indigestion	Tumours
Constipation of the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Compl'nts	Worms of all kinds
Dropsy	Lumbago	Weakness from whatever cause &c &c.
Dysentery	Piles	
Erysipelas	Rheumatism	
	Retention of Urine

SELF-PRESERVATION: A popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth, or excesses in maturity, which, by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence, by DR. LA'MERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigour upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner whose name stands on the 'Medical Register,' (the sole test of medical qualification) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety to any address.
