Toronto Stocks

TORONTO, (CP) — The stock market turned upward Monday after last week's declines, base metals and western oils leading.

The oils and metals each added more than a point on the exchange indexes, closing at their highest points of the day. Golds dropped a small amount.

Interest in low-prices mining issues boosted volume to 3,947,000 shares.

Saskatchewan uranium prospects drew firm support. Gunnar, Nesbitt-Labine and Chima rose while Beverlodge slipped. Leading New Brunswick base metals turned lower at the close as New Larder U. Brunswick and Conwest weakened.

Falconbridge led base metals with a gain of $1.75 in a turnover of 25,000 shares and most other higher-priced issues gained.

GRAIN

WINNIPEG, (CP) — Most prices took on a lower trend on the Winnipeg Grain Exchange Monday in sympathy with declines on United States markets brought about by reports of rains overnight in the American winter wheat belt.

Barley and flax uncovered the best demand, with seaboard interests picking up the deferred months of barley. Trade reports indicated some business may have developed with the Orient. Flax was firmer, with seaboard interests also on the buying side here.

Offerings were more liberal in oats and barley. American houses were sellers.

Export loadings of Canadian wheat during the week-end included 280,000 to United Kingdom, 350,000 to Egypt and 130,000 to Peru.

Prices for class two wheat, top grades, dropped one cent from Friday. IWA prices were unchanged.

Closing prices:

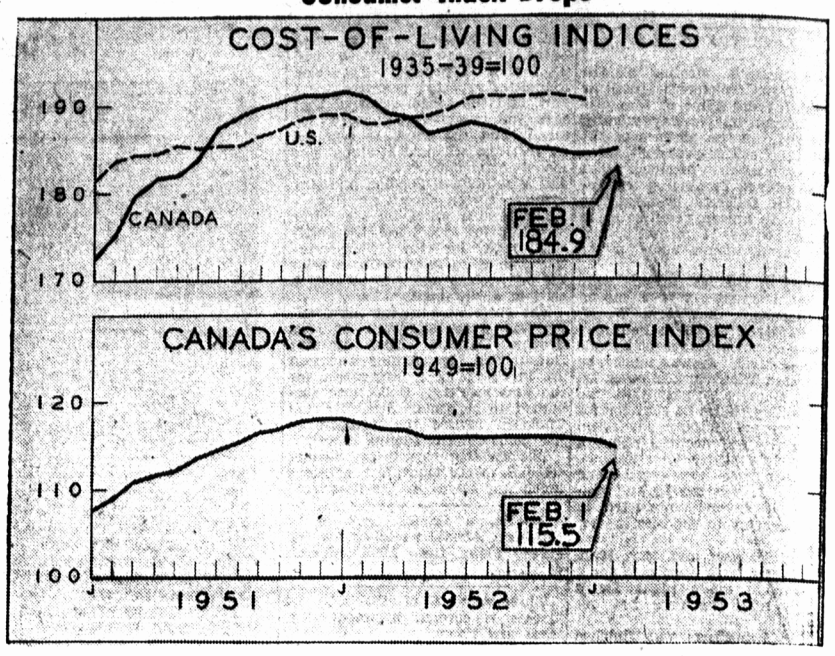
Consumer Index Drops



Living costs in Canada as reflected by the new consumer price index dropped one-fifth of a point during January to 115.5 from 115.7. It was the third successive monthly decline. The peak of 118.2 was reached in December, 1961, based on 1949 prices equalling 100. However, the old cost-of-living index, based on 1935-39 prices equalling 100, increased by one-half of a point to 184.9 from 184.4. It was the second consecutive monthly increase in this index. The bureau said the divergence was because the new yardstick shows seasonal changes in food-buying habits while the old index does not. Its peak was 191.5, December 1951. The dotted lines shows the United States' consumer price index which stood at 190.7 at Dec. 15, 1952. These indices measure percentage changes in prices in each country but should not be used to compare actual levels of prices between the two countries. (CP PHOTO)

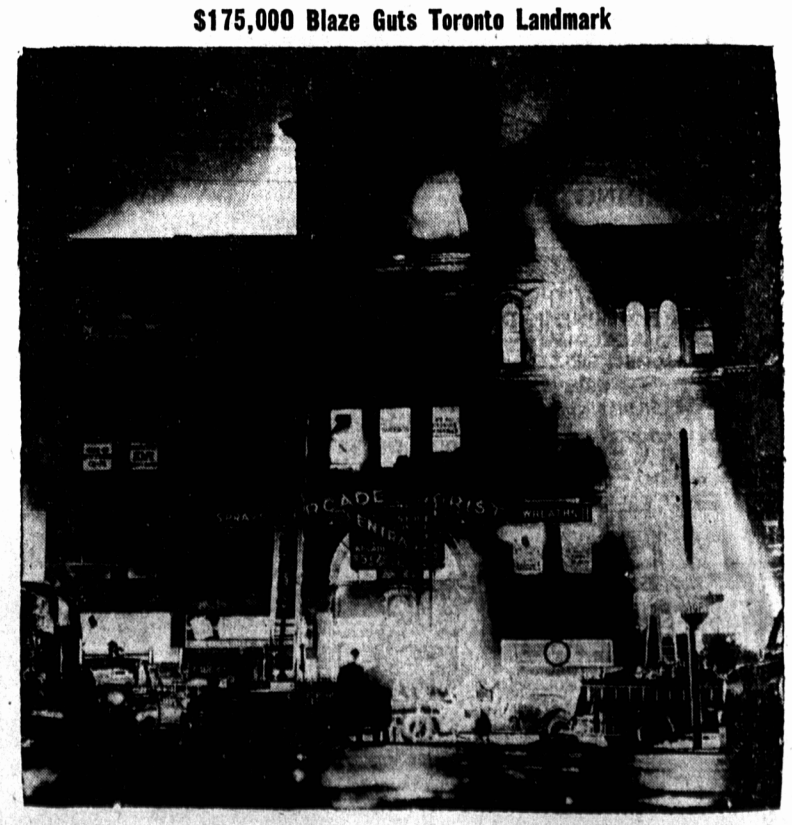
$175,000 Blaze Guts Toronto Landmark



One of the most famous landmarks in downtown Toronto, the old Yonge St. Arcade, was badly gutted when fire broke out on the fourth floor. Three aerial trucks among 12 fire-fighting units helped firemen hold the two-alarm blaze to the top floor and tower on the west side, but tons of water sluiced through four storeys to the ground, causing damage of $175,000. At least 50 of the Arcade's 100 shops were gutted. The Arcade was to have been torn down later this year to make room for a modern office building.
