New Safe For Post Office

GEORGETOWN — A new modern safe was installed in the Georgetown Post Office, on Monday by the Dominion Government Department of Public Works.

The larger old type safe has been serving the requirements of the Post Office for more years than anyone cares to remember.

It was large and cumbersome and weighed approximately five tons. The new safe weighs in the vicinity of 1,800 pounds. It is painted grey and is an impressive piece of furniture.

Some difficulty was experienced in removing the old safe from the building, due to its size and the standing finish of the rear door to the office had to be removed to permit passage.

The moving was done by Murphy's service station in Charlottetown, who utilized their tow truck to lift the safe.
