**There's A Dignity And A Satisfaction** in building a good standard of living for your family . . . and paying for it through a planned programme out of income. It's good to know, for instance, that when you decide to purchase some important home equipment which will benefit everyone in the family—then everyone has a stake in paying for it month by month. The most important name in Canada for this idea is the INDUSTRIAL ACCEPTANCE CORPORATION . . . and its IAC MERIT PLAN . . . Through it you can protect and enrich your present . . . enjoy the things you want while paying for them regularly as you earn.
