

# Panthers Provide First Class Athletics — Support Them

When one thinks of an intercollegiate program the average follower thinks of highly skilled athletes, coaches, managers, trainers etc. True enough they are certainly an essential part of the program. What that same follower doesn't realize is that he is just as important as those athletes. Perhaps it is a generalization to say that all players are in need of fans but I truly believe that this is the case. When one talks of the advantage of playing at home there are many things which come into consideration. Obviously the participants feel much more at ease in that they are playing in familiar surroundings but more importantly is that they are playing where they have the support of their friends.. This is the factor that makes playing at home such a distinct advantage.

As far as the University of Prince Edward Island is concerned we are very fortunate in that we

see some of the best athletics of anywhere in the country. Our Panthers are continually playing against top competition and are providing top competition. I guess the point that I am getting at is that we should be wholeheartedly supporting our Panthers regardless of whether they are winning or not and as the case is here, we usually win much more often than we lose. The importance of our fan support is crucial to the program now and the eventual development of the program in the future.

The cost of going to an U.P.E.I. athletic event is

nil so there really is no excuse for not supporting the teams. We have fellow students who devote much of their spare time in order to compete in the name of the school. If you don't think they are representing this university I would ask you to answer this question. When someone asks you if you know anything about St. Mary's University most of us would answer that they have a very strong athletic program. Their athletic program is the single most dominant advertising product that they possess. This is true of several universities. U.P.E.I.

is a young university and it needs all the recognition it can get and a very strong public relations tool are our athletic teams. The support of those teams can only lead to the strengthening of our program and as a result benefit all the students here at U.P.E.I.

We are now entering our winter program and from the looks of it we are going to be very strong contenders in all sports. We appreciate what they are doing for the school and for us. Let's pull together and let everyone know we care about our sports teams. LET'S SUPPORT THE PANTHERS-NOW\*

## Fun and Games

Picture yourself lying back at ease on the brown speckled flats of Daytona Beach, U.S.A, admiring the magnificent sight of the cars, vans, motorcycles and beautiful girls, all parading in an endless spectacle of color and sound. Mmm! It's warmer already. The sun is beating out a nice 80° and even the water seems inviting today.

Wait! What in hell is this coming down the beach? A faded blue '66 GMC pickup truck with a homemade plywood box on back. Is it coming towards us? There are three freakies in the cab and four more seated on the box. No telling what's inside! On the back door is written "Bud the Spud". Wow! I've never seen anything like that around here before. "You can bet your boots on that 'caouse this ain't yer average truckload", cried a voice from the blue...There doesn't seem to be any place to park. Geez. An awful lot of cars on this beach; it sure isn't Stanhope. Hey!

There's a place next to that yellow volks.

The driver swerved in, just in the nick of space, almost running over two Siberian huskies and a dark Georgian lady in a yellow and black bikini, obviously colored so as to match her car and dogs. It was an impressive sight to six sex-oriented delinquents from P.E.I., especially at 4:00 in the afternoon

"Boy, those days must get some hot lying on this sand", observed someone. The reply was appreciated to say the least.

"I've been here on this beach all day, looking for somewhere cool to go. The days are hot and so am I."

Let the bells and banners fly to hell, we've got a live one. "How'd you like to come back to our house and feed your dogs some cool water? What's Your Name?" came the questions not necessarily in that order.

She smiled sweetly as she affirmed and the great loving adventure was under way. It was like a sign from the gods as Sally G began to play from the radio. What could happen next? Would

this Sally fall in love for the persuasive Bob? Could bomber stand the pressure of still another finger? How could two Siberian huskies be involved in this story? Where will it all lead to? Be sure to tune in next week when tension climbs to a peak and explodes into laughter, touching the hearts of thousands of love-lost souls everywhere.

Love and Kisses  
Sidney T.

## Fat Freddy's Con't

Spring Meeting

1. The Past President's Report shall include a thorough report of what he accomplished during his term of office.

N.B. The last month's salary of the past Executive members shall not be paid until their reports have been delivered and passed.
