GASTE IS ENTERTAINED—An event of unusual interest took place Thursday evening, July 13th at the hospitable home of Mr. and Mrs. Albert Moase, New Annapolis, when the members of the well-known play "Antics and Antics" were entertained to a sumptuous banquet. Mrs. Moase with her sister-in-law, Miss Louise provided charming hostesses and the evening was whiled away very pleasantly with social intercourse and a continued old-fashioned singing of pieces of which recalled many happy memories interspersed with violin music by Weston Campbell who is second to none with this favorite instrument accompanied by Mrs. George Ramsey on the piano. A pleasing feature of the evening was a presentation of symbols of gratitude to out of the district helpers who so generously helped to make the play a success. This was followed by a vote of thanks to Mr. and Mrs. Moase for giving their home for the joyous occasion and for their kind and generous hospitality which each player was bound and made amusing entertaining speeches which revealed the unity existing among the good people in New Annapolis. For they "Are Jolly Good Fellows" and National Anthem were then sung, bringing the very pleasant gathering to a close.

that this country would not and could not so act in regard to its foreign policy, and that it is another power, nor has His Majesty's Government received any such demand from the Japanese Government. Anthony Eden, former Foreign Secretary, asked whether the Japanese had not asked for the Tokyo conversations to be extended beyond the local Tientsin issue. "I did not say quite that," Mr. Chamberlain replied. "The observations of the British Ambassador to the Japanese Foreign Minister ranged over the general background against which the Japanese Government considered that the Tientsin question should be considered but they have not suggested that discussion or settlement of this general question should be a condition of negotiations."

Reason For Delay Given TOKYO, July 18 (Tuesday)—A request that Great Britain recognize "the necessity" of the Japanese army's operations in China was advanced today as a major reason for temporary postponement of Japanese-British talks here on the Tientsin dispute. This reason was given by observers after the second meeting between Foreign Minister Hiroto Ariga and the British Ambassador, Sir Robert Craigie was postponed yesterday until tomorrow with the official explanation that Sir Robert "has not received the views of his home government."

A reliable source said the most important point laid before the Ambassador at their first meeting Saturday was the question: "Is Britain willing to concede the necessity of the Japanese military operations in China?" Sir Robert was reported to have declined to reply pending consultation with the Foreign Office in London. Some Tokyo quarters expressed the opinion that British agreement on this point would be tantamount to recognizing belligerent rights for Japan. Such an agreement, it was said, would permit the Japanese army to exercise much more stringent control not only over British concessions but also her nationals and their privileges throughout China.

A high government official frankly stated meanwhile that Japan was not offering Britain anything but was "raising our position and asking the British to meet it."

WILL NOT (Continued from page 1) Britain to "regard Chinese-Japanese hostilities with more understanding of Japan's difficulties and the Japanese side of the case." Permanent Art Collection For Province

COMPLETE HISTORY OF ART IN REPRODUCTIONS ON EXHIBITION IN HARRIS MEMORIAL ART GALLERY

One of the finest cultural acquisitions of the province is at present on display in the Harris Art Gallery above the Public Library. The new permanent art collection of more than nine hundred reproductions and over one hundred books range through the entire history of art, from earliest efforts to create in stone or wood or graphic materials the varied life he saw around him to the latest triumphs of the painter's brush or the architect's blueprint.

The present exhibit, which covers all the available space in the Gallery, and is but a small selection of the material in the collection, attempts to give the visitor some idea of the wealth of art reproductions now available for the first time to all the people of the Province. The exhibit features paintings, largely of the modern schools, with one section for sculpture and prints. On the south wall hang seventeen large color reproductions, principally of French moderns, such as Gauguin's White Christ, Ogeanne's Boy with Red Vest, and Marc may also be seen. The variety of remarkable.

The west wall runs more to earlier masterpieces. The German section for example has several un-famous Durers, all in colour. The Italian section has almost entirely Renaissance works those of Titian, Michelangelo, Botticelli and Da Vinci. The Flemish masters have an excellent selection several de-lightful Bruegels forming the main group. The north wall carries the Dutch masters, Rembrandt, Vermeer, and the modern Van Gogh. The Spanish section has several Velasquez, and the best known works of Goya whose biography has been recently published. Completing this wall are modern French paintings and a section on Oriental paintings. One of the latest contains original prints and many reproductions of sculpture from early Greek to Korben's The Bomb Thrower.

The selection and arrangement of the material for this first exhibit was made by Mr. Aram Schenfeld of New York whose knowledge of the background of the collection has made the display an extremely attractive one. The art books represent the best available on their various subjects and are themselves a great acquisition. Books such as Boeser's Peasant Art in Europe, Schmidt's Encyclopedia of Furniture, the series Classics of Art, are beyond the means of most students, and the inclusion of these and many others on every phase of art will make the library's equipment in this field practically complete.

The Prince Edward Island Libraries, which have received the whole collection, will make it available to the people of the Province by circulating travelling exhibits to the branch libraries, to schools, women's institutes, study clubs and other groups interested in the arts and crafts.

There is also on exhibit the original preliminary studies of the noted picture "Fathers of Confederation" by Robert Harris, which is of special interest at this time.

Regimental Mess Dinner P.E.I.L.H. May Establish Summer And Winter Centre. OTTAWA, July 17 (CP)—Plans to establish a summer and winter sports centre in the Laurentian Mountains, northwest of Montreal, are under way, it was learned here today.

The immigration department said a small number of key men from Austria, now part of Germany, have been granted permission to enter Canada. The project will be financed by European capital. The centre, patterned along the lines of Swiss and Austrian Mountain resorts, will provide employment for Canadian workers, it was stated. Exact location in the Laurentians for the centre could not be learned.

Sensationalism Is Scored By Prime Minister. LONDON, July 17 (CP)—A tendency by certain British newspapers unduly to sensationalize reports on the international situation was scored by Prime Minister Chamberlain in the House of Commons today.

Replying to questions from Sir Percy Hurd and Sir Frank Sanderson regarding a possible check on such practices Mr. Chamberlain replied: "I am glad to take the opportunity of deprecating the display of posters which contain sensational, exaggerated or misleading captions which are calculated to give rise to unnecessary anxiety at home and undesirable reactions abroad. The same observations are not infrequently applicable to headlines in a section of the press. Lord Halifax (foreign secretary), through the news department of the foreign office, insistently draws the attention of the representatives of the press to these dangers and I am glad to think that the proprietors and editors of the newspapers of this country are aware of them and with some exceptions are heedful of the advice offered."
