for Mr. Reilly, if he should really, after all, mount the hustings—which is very doubtful. However, if he is really anxious for a big dose of humiliation—bigger than the one he swallowed in the Webster case—he will get it in testing the opinion entertained of him by the intelligent electors of the St. Peter's district, amongst whom he has thrust himself without invitation. He will try to derive a little comfort from the reception he met with from fifteen or twenty people in the back woods, on whose minds the half-crazed schoolmaster has been operating for some time in Reilly's interest; but he evidently has no true conception of the great extent of the district, and the immense number of voters it contains. The evening of the 26th will open his eyes to his folly.

A NEW LOAN BILL.

A large and influential meeting of the merchants and others took place in the Temperance Hall on Friday evening last, to take into consideration the necessity of a Loan in connection with the working of the Land Purchase Bill; and from the unanimous voice in its favor, it was plainly seen that public opinion had greatly changed in Charlottetown since the Hon. G. Coles introduced and carried his Loan Bill through the Legislature, and succeeded in gaining the sanction of Her Majesty's Colonial Minister, by his introducing a Bill into the Imperial Parliament to give effect to it; but so great was the opposition to it by the Conservative party here that a numerously signed petition was got up and sent to the Queen against the measure, and it was dropped after the Bill was read a first time. The present Government having purchased the Cunard Estate, and agreeing to pay about forty thousand, or one-half the purchase within eighteen months, the first instalment has caused a drain on both Banks; and it appeared by the feeling of the meeting that the present money difficulties were caused by the Bank not discounting, which is attributed to the Government purchase of so much Land without a Loan Bill. Now, it appears that many who signed the Petition against the Loan Bill see that the merchants and others are crippled in their business for want of that as a measure to assist the Banks to meet the advance required under the purchase of so large a quantity of land as the Cunard Estate, and to assist in the accommodation of exchange so much required at this season of the year. We have been furnished with a few of the names attached to the Petition against the Loan Bill, and some of whom were present at the meeting, voting and arguing in favor of a Loan now:—

AN IMPORTANT DESPATCH.

The following very important Despatch is published in the last *Royal Gazette* for general information. We have not time for any comments at present:—

Downing Street, 19th January, 1867.

Sir,—

The negotiations respecting the proposed Confederation of the British North American Provinces have reached a point at which I think it right that you should be generally apprised of the mode in which that proposal is viewed by Her Majesty's Government. They are not unaware of the difficulties which must attend any attempt to consolidate in one body politic a variety of Provinces whose habits, laws and interests must be, in many respects, different, and in some perhaps not wholly compatible. By far the most important part of those difficulties has been removed in the present instance by the wise and loyal foresight of the public men of Lower Canada, who, in their treatment of this subject, have shown themselves able to reconcile a manly support of their hereditary customs and institutions with a generous confidence in the justice and friendly feeling of their more numerous fellow subjects of British origin. The questions which remain in controversy will be approached by Her Majesty's Government with anxious and careful attention, but, I must add, in no spirit of indifference.

That in time of war or tumult the armed force of British North America should be one, under one supreme command—that in time of peace, their commerce, their post, their great lines of communication, and, with due regard to local usage, their civil and criminal jurisprudence, should be governed by the same rules; that an extended public opinion should be brought to bear on the settlement of narrow local controversies, and that the most important affairs of British North America should be administered by a combination of the ablest men whom it can furnish—these benefits appear to me so indisputable, so prevading, and so permanent in their character, that I should be wanting to my duty if I did not express to you, and through you to the community over which you preside, my earnest hope that no trifling obstacle will be allowed to interfere with their full attainment.

As my object is not to express any opinion on the details of this measure, but to give to the principle on which it is founded that frank support which Her Majesty's Government consider to be due from them, I shall only add, that you are at full liberty to communicate this despatch to your Executive Council.

I have, &c., &c., &c.,
(Signed) CARNARVON.

Lieut. Governor Dundas, &c., &c., &c.

NOTICE TO THE ELECTORS AT GRAND RIVER, LOT 56.

The undersigned respectfully requests his friends in the Southern end of the Second District of King's County to meet him at the house of Mr. Robert Howlett, Grand River Wharf, on the evening of Nomination, 19th inst., at 7 o'clock, should the weather and the state of the roads permit, in order to consult with respect to the forthcoming election.

EDWARD WHELAN.

Charlottetown, February 12, 1867.

Our absence from Town during the greater part of last week, has prevented us from giving attention to some editorial matters. We trust our readers will make every allowance for us at the present important crisis.

OUR FISHERIES!

Our readers will observe that the Fishing Interests of the Colony will be the subject of Debate before the "Charlottetown Literary Debating Society," next Friday evening. *See advertisement.*

This meeting, though under the auspices of the Debating Society, will be open to the public, and we learn that several of the leading debaters of the City have agreed to take part in the discussion.

The performances of the Charlottetown Dramatic Club on Wednesday and Thursday evenings were very creditable to the young men engaged in them.

The line of Railway from Halifax to West River, Pictou Co., a distance of 82 miles, is now open for traffic. We believe that the line through to Pictou will be opened in the early part of next summer, as originally reported.—*St. John Telegraph.*

J. F. Maguire, M. P. for Cork, had a dinner given him at New Orleans last week, and speeches were made by Generals Buckner and Hood, late of the Confederate army.

By a telegram received to-day from Ottawa, we learn that the Hon. Mr. McGee will probably leave Boston, *en route* to England, in the steamer *Asia,* on Wednesday next.—*Halifax Express.*

A frightful accident occurred during the journey of the Queen of Spain to Lisbon. The explorator locomotive proceeding the royal train ran over the crowd assembled at the station of Daimiel, a few miles before reaching Cindad Real. About thirty people were killed or wounded.

It is stated in an English journal that the success of the Atlantic Telegraph has led to the revival of several schemes for establishing communication by other routes. Arrangements have been nearly completed for beginning the manufacture at Liverpool of the cable for the North Atlantic route by way of Iceland and Greenland, and the prospectus of the new company will be issued at once. Meanwhile the great Northwestern line is progressing slowly and surely, and the projection of other lines is sure to follow. It only needed to be clearly demonstrated that electric communication between the two continents was possible, to make cables nearly as common as steamship lines.—*Exchange.*

Notwithstanding all the conflicting accounts we have had from Mexico, it would appear that Maximilian retains the confidence of the great mass of the people. The returning popularity of the Emperor has been brought about, it is stated, by the United States Government attempting to interfere in the affairs of that country.

Throat Affections.—A Physician writing from Newtane, New York, speaking of the beneficial effects resulting from the use of "*Brown's Bronchial Troches,*" says: "For alleviating that horrid irritation only felt by those who have suffered from any *Bronchial Affection,* and for Hoarseness and Sore Throat too, I am free to confess (though I am an M. D.) they answer all you claim for them." To avoid disappointment, be sure to *obtain* the *genuine* "Brown's Bronchial Troches."

Died,

In this City, on Monday morning last, the 4th inst, Eliza, the beloved wife of Mr. Thomas Cahill, Baker, in the 37th year of her age, leaving four children, a disconsolate husband and numerous relatives and friends to mourn their irreparable loss.

At Halifax, on the 24th ult., after a short but painful illness, Patrick Mullowny, aged 37 years, a native of Kilkenny, Ireland, leaving a wife and four children to mourn the loss of a kind husband and affectionate father.

At Souris, Line Road, Lot 45, on Friday, the 25th instant, Christiana, the beloved wife of Donald A. McIsaac, in the 36th year of her age.

At China Point, Lot 50, Jan. 22, in the 72nd year of his age, Mr. Richard Grant. Deceased was a native of Co. Kilkenny, Ireland, and emigrated to this Island in 1827. He was highly esteemed for his many social and Christian virtues, and is now deeply lamented by friends and relatives.

At Savage Harbor, Jan. 25, Isabella McKie, widow of the late Robert Douglass, aged 78 years.

At Elliot River, on the 14th ult, after a lingering illness, borne with Christian patience and resignation to the Divine Will, Jemima, relict of the late William Crosby, Esq., in her 75th year.

The French Prince Imperial as a Printer.—A compositor, who has recently been employed in the correction of some of the Emperor's slips of a new work he has in progress, communicates to the *Printer's Register* some facts of interest concerning the Emperor and his son. He writes:—"The Emperor is a most particular and thoroughly practical reader in his way; he will not allow his spelling, accentuation, or pointing to be interfered with in the least. Every scrap of his copy is carefully preserved, I believe, for returning to him, and he will not allow a sheet to go to press while there is a mark to be revised on it, without having it sent to him to be carefully looked at. I am told that the little Prince is a capital compositor, and, if some forms of juvenile poetry and stories, which I have seen recently sent to be worked, are some of his compositions, they are very nicely put together. I hear he has everything of this sort to hand, with cases of the best mahogany, a small imposing surface of slate, the frame of which encloses a nest of carefully arranged drawers, containing a variety of miscellaneous office fittings for his use, and the prettiest little press in the world. The young Prince also, I am told, displays considerable skill in bringing up wood-cuts, for which he seems to have a taste. I should not wonder if his royal parent does not occasionally assist him, for he must know something of the practical department of a compsiotor's work, by the great skill and taste he displays in his alterations and corrections, which would do credit to the best type-setter in the business. The Emperor seems to be very fond of the old faced style of type in all his fanciful displays, and evinces considerable literary ability in the poetic and prose *bijous* which are occasionally printed from his pen, though the authorship is kept a secret."

The Poor Little Sufferer will be Immediately relieved by using MRS. WINSLOW'S SOOTHING SYRUP for children teething. It softens the gums, reduces inflammation, cures wind colic, allays all pain, and gives the child quiet, natural sleep, from which it awakes invigorated and refreshed. Perfectly safe in all cases, as millions of mothers can testify.

Hostetter's Stomach Bitters.—Who is there that does not desire to be always exempted from indigestion—to have a good appetite, a painless stomach, a clear heed, a regular pulse, a healthy complexion? If this meets the eye of any who are not thus blessed, let them try HOSTETTER'S STOMACH BITTERS. We guarantee that this delightful tonic will restore any stomach, however weak, to a healthy condition; that it will bring back the truant appetite and give permanent vigor to the whole system. The feeble and emaciated, suffering from dyspepsia or indigestion in any form, are advised for the sake of their own bodily and mental comfort, to try it. Ladies of the most delicate constitution testify to its harmlessness and its restorative properties. Physicians everywhere, disgusted with the adulterated liquors of commerce, prescribe it as the safest and most reliable of all stomachics, and it is certainly much more agreeable than any of the other spirituous preparations of the day. For sale by all Druggists.

W. W. LORD.

Charlottetown, Feb'y 4, 1867.

To the Electors of the First Electoral District of King's County.

GENTLEMEN:

THE House of Assembly having been dissolved by Proclamation of His Excellency the Lieutenant Governor, you will, on the 26th of the present month, be called upon to elect two Members to represent your interests in the Lower Branch of the Legislature. It is a matter of regret that the period of the year selected is one so inconvenient both for Electors and Candidates; but the Government alone are responsible for this, and also for the additional serious inconvenience which they have unnecessarily imposed upon a large number of the Electors of King's County, by appointing the General Election to be held on the day by law ordained for the sitting of the Supreme Court in Georgetown. Grand Jurors, Petit Jurors, Suitors and Witnesses must either attend at Georgetown and thus be deprived of their franchise, or they must neglect their duties, run the risk of being fined, or postpone the trial of their causes and suffer inconvenience and expense.

The recent elections of members of the Legislative Council indicate an entire absence of confidence in the Government. The strange want of cordiality which for some time past has existed and been openly evinced between the members of the Government, has been little calculated to inspire the conviction that the affairs of the country can any longer be safe in their keeping. Divided among themselves, constantly forgetful of the first principles of Responsible Government, having no confidence in each other individually, how can they expect you to have confidence in them collectively?

I thank you for the very cordial reception which you extended to me when I visited the District and held Public Meetings last week and in the month of July last. The assurances of support which I then received were most gratifying to me, and, in accordance with the invitation almost unanimously given, I again offer myself with confidence as a candidate for your suffrages. It will be my sincere desire, should I be again returned as your representative, to devote myself in, I trust, a spirit of moderation to the furtherance and support of all measures calculated to advance the general interests of the Island and supply the local wants of the District. I hope to see the Education Act altered and remodelled in many respects; I think that the Teachers should be placed in a better and more independent position with respect to the payment of their salaries, and that the mode of making assessments for building Schools and other educational purposes should be simplified, so as to render the office of a Trustee less burdensome and dangerous than it is at present. The provisions of the Land Purchase Bill should be extended as much as possible, and efforts made to induce the yet remaining Proprietors of rented Township Lands to sell to the Government. This measure of the Liberal party has been now adopted by its opponents, who have failed to produce any other one equally good. Had the Loan Bill been allowed to pass, it would have proved a very valuable adjunct to the Land Purchase Bill; particularly at the present time, and enabled the Government to pay the purchase money for the Cunard Estate without that serious inconvenience to the mercantile community which has been caused and yet will be caused by the mode adopted, and, moreover, would have enabled them to resell to the Tenantry at a lower figure than under present circumstances they can, perhaps, afford to do.

The enlargement of trade with the United States and other countries, the improvement of the system of road-making, the general extension of the benefits of Steam communication as far as possible to all parts of the Island, the encouragement of the fisheries, an increase of efficiency in all branches of the Public Service, as well as a careful economy in the expenditure of the Public Revenue, are all objects which will require and be well worthy of the serious attention of the incoming Legislature.

I am, as you know, an opponent to the proposed Confederation of this Island with the other British North American Provinces. I have always felt confident that the Imperial Government would not compel us to adopt the scheme so long as we clearly and pointedly evinced our repugnance to it. The Bill now before the Imperial Government confirms this opinion,—it leaves it optional with the inhabitants of the Island to confederate or remain out; and I hope that a sufficiently large majority of members opposed to the measure will be returned at the coming Election to prevent any danger of its consummation through local Legislation.

I have the honor to be, Gentlemen,
Your ob't. serv't,
JOSEPH HENSLEY.

Charlottetown, 2nd Feb'y, 1867.

To the Electors of the Second Electoral District of King's County.

GENTLEMEN:

Having been nominated at several influential meetings recently held in your District, as a candidate for your suffrages at the forthcoming Elections, and the House of Assembly having been now dissolved, I avail myself of the earliest opportunity to say that I accept these nominations. In politics, I need scarcely say that I am a Liberal from conviction, and to that party I will give my hearty support in the future as in the past. All measures having a tendency to ameliorate the condition of the people, and to promote the prosperity of the Colony, will receive my warmest support. Believing that self-government is one of the greatest privileges that can be enjoyed by a people, I have been, and still am, opposed to the Quebec scheme of Confederation. I am, in fact, opposed to any closer political connection with Canada than that which already exists in a common allegiance to the British throne; but if the Imperial Government should hereafter submit for our consideration another plan of Colonial Union, based upon more favourable terms than those of the Quebec scheme, I would deem it my duty to refer the same to you before taking any definite action thereon.

Should I succeed, Gentlemen, in my election, whilst I shall always be anxious to serve, to the best of my ability, the general interests of the Colony, my attention will be more especially devoted to the local wants of the District. In conclusion, I will say that, if at any time during my representation, I should be so unfortunate as to forfeit your confidence, or act contrary to your views and wishes upon any question of local or general interest, I would deem it incumbent upon me, upon being unequivocally notified of the fact, to immediately resign and place my seat at your disposal.

I am, Gentlemen,
Your obedient servant,
EDWARD REILLY.

Ch'town, Feb. 1st, 1867.

P. S. As it will be impossible for me to canvass you all personally between this and the Election, I therefore purpose holding a meeting at Mr. John Carey's, St. Andrew's, on Wednesday the 13th inst.; and at Little Pond School-house, Grand River, on Thursday, 14th, at 3 o'clock, p. m. E. R.
