

N.S. Maple Syrup Output Less Than Half Normal

AMHERST (CP) — Nova Scotia maple syrup is highly regarded in its own province, as is scarce this year as its substitutes are plentiful.

Winter sleet storms, chest high snow and an erratic spring combined in a stunning blow to the small but locally important industry.

In a normal year only about 4,000 gallons of syrup is produced, but many woodsmen depend on the return to keep them solvent. Their efforts this year will leave them "out a pittance," says the Nova Scotia department of agriculture. The syrup and sugar pack will be less than half of normal.

In the Cobeguid hills of Cumberland county, centre of the industry,

only about half the 18 sugar camps operated.

LUXURY ITEM

At \$8 a gallon maple syrup is a luxury item this year and housewives are turning to artificial maple flavoring substitutes selling at a quarter that price. Local syrup usually sells for \$5 or less a gallon.

Even at the top price it cannot be had. Real maple syrup sold in Halifax stores comes from Quebec.

Maple sugar or cream, a spring-time delicacy, sells for 80 cents a pound, double the usual price.

B. C. Knight, provincial agricultural representative for Cumberland county, says the hardest winter in 50 years is responsible.

Short-Cut Soviet Method In Teaching Mathematics

By GUSTAV SVENSSON

STOCKHOLM (AP)—The Russians are teaching children that mathematics are fun. That is the way they are building a mighty challenge to the West in science and technology.

Minister Tage Erlander said in an interview here.

The Swedish political leader, who returned recently from a trip to the Soviet Union, said he looked for an answer to this question while on his trip.

"Why do the Soviet Union turn out more scientists and engineers than the United States?"

Erlander, for many years a minister of education, said he was convinced he had found the answer.

PLEASANT METHOD

"I think the basic answer is an amazing short-cut Soviet method to teach mathematics with less pain. I saw it functioning in Soviet schools.

"The Russians have simply cut out most of the boring calculation exercises that make so many children unhappy. Instead, they start teaching them at an early stage

how to think in terms of abstract mathematics.

"As a result, Russian boys and girls are far more advanced in higher mathematics after 10 years in public school than most Western high school students.

"This is the way the Russians create that broad recruiting basis for their universities which may one day enable the Soviet Union to challenge the scientific and technological supremacy of the West.

"What he said during his stay in Russia caused him to conclude a mutual agreement with the Soviet government, enabling Swedish expert teams to make on-the-spot studies of Soviet methods of training scientists and engineers.

"I feel this is a problem of utmost importance to the West that must be followed closely by everybody concerned," Erlander said, adding:

"There should be no hesitation to learn from the Russians, if need be. Unless adequate measures are exercised that make so many children unhappy. Instead, they start teaching them at an early stage

Alabama Determined to Keep Whites-Negroes Segregated

MONTGOMERY, Ala. (AP)—An order to stop segregation on city buses brought angry threats of reprisal Tuesday from city and state officials who vowed to keep the races apart as long as possible.

Despite the decision from Montgomery City Lines Inc. to abandon its policy of separate seating of white and Negro passengers, there were no reports of actual mixed seating on the first day.

Neither was there any indication that the bus company's action in refusing to continue enforcing city and state segregation laws would bring an immediate end to the five-month-old boycott by Negroes who have refused to patronize the segregated buses since Dec. 5.

Rev. Martin Luther King Jr., boycott leader convicted of violating Alabama's anti-boycott law and fined \$500, issued a statement saying "there will be no change in our position immediately." He did not elaborate.

A comparatively few Negroes rode the buses Tuesday despite the announced end of segregation. R. C. Mills, assistant manager of Montgomery City Lines, said the number was about the same that continued to use the buses throughout the long boycott.

City and state officials meanwhile insisted that Alabama's segregation laws are still in effect despite the U.S. Supreme Court decision Monday which said all bus segregation is unconstitutional.

The ruling applied directly only to a South Carolina case, and Alabama officials contended segregation

laws here will remain intact until a court order is directed specifically at them.

Until city and state laws are knocked down, police commissioner Clyde Sellers and other city officials and president Jack Owen of the Alabama Public Service Commission declared that segregation will be rigidly maintained.

WILL ORDER ARREST

Sellers said he would order the arrest of any passenger or bus driver who permits or indulges in desegregation.

Owen sent a telegram to president Roy Fitzgerald of National City Lines in Chicago, the war-time company of Montgomery City Lines, demanding that the integration order be withdrawn.

Flaky COFFEE CAKES

These toothsome Flaky Coffee Cakes are a sample of the superb results you get with new Fleischmann's Active Dry Yeast! No more anxiety about yeast cakes that stale and weaken. Fleischmann's Active Dry Yeast keeps full strength, last-acting without refrigeration — get a month's supply!

Add cooled cream mixture and stir in 3 well-beaten eggs. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 1/2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Mix 3/4 c. granulated sugar and 2 tps. ground cinnamon; sprinkle half of this mixture over baking board. Divide dough into 2 equal portions and turn out one portion onto prepared board. Roll out into a 12" square; fold back to front and from one side to the other. Repeat rolling and folding 3 more times, flouring board lightly if it becomes sticky. Seal edges of folded dough and place in a greased 8" square cake pan and pat out to fit the pan; butter top lightly and press walnut halves well into the dough. Sprinkle remaining sugar and cinnamon mixture on board and treat second portion of dough same as first portion. Cover and let rise until doubled in bulk. Bake in a moderate oven, 350°, 15 mins., while preparing the following syrup; simmer together for 5 mins., 1 c. granulated sugar, 1 1/2 tps. grated orange rind, 1/4 c. butter or margarine and 1/4 c. orange juice. Quickly pour hot syrup over the 2 partially-baked cakes and bake cakes about 15 mins. longer. Stand baked cakes on cake coolers for 20 minutes, then loosen edges and gently shake from pans.

FLAKY COFFEE CAKES

Scald 2 1/2 c. cream, 2 tbs. granulated sugar, 1 tsp. salt and 3/4 c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 minutes, THEN stir well.

Add cooled cream mixture and stir in 3 well-beaten eggs. Stir in 2 c. once-sifted bread flour; beat until smooth. Work in 2 1/2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Mix 3/4 c. granulated sugar and 2 tps. ground cinnamon; sprinkle half of this mixture over baking board. Divide dough into 2 equal portions and turn out one portion onto prepared board. Roll out into a 12" square; fold back to front and from one side to the other. Repeat rolling and folding 3 more times, flouring board lightly if it becomes sticky. Seal edges of folded dough and place in a greased 8" square cake pan and pat out to fit the pan; butter top lightly and press walnut halves well into the dough. Sprinkle remaining sugar and cinnamon mixture on board and treat second portion of dough same as first portion. Cover and let rise until doubled in bulk. Bake in a moderate oven, 350°, 15 mins., while preparing the following syrup; simmer together for 5 mins., 1 c. granulated sugar, 1 1/2 tps. grated orange rind, 1/4 c. butter or margarine and 1/4 c. orange juice. AGRICULTURAL

Continued from page 3

Lower Bedeque and W.A. MacLennan, Albany.

The O'Leary and District Artificial Breeding Club will commence operation on May first. The boundaries of the club are from Alberton and the Dock Road in the west down to the West Devon area of Lot ten. The inseminator is Ted Sabine of O'Leary-Telephone number O'Leary 56. President Gerald Gamble, Unionvale. Secretary-Treasurer Keith H. Gard, Mill River East. Directors Roy Murray, Cascumpec, James L. MacWilliams, Campbellton, Kenneth MacKendrick, Campbellton, Ralph Adams, O'Leary, Robert Oulton, Coleman, Charles E. Milligan, Milo, J.W. Don Campbell, Alberton.

The Tyne Valley and District Artificial Breeding Club was organized by members of the community in the early part of May. Russell Dymond of Northam is presently under going training in New Brunswick. The members of the Board of Directors are as follows: President, Beecher Dennis, Richmond R.R. Secretary, Treasurer, Preston Grigg, Tyne Valley, Joshua MacArthur, MacNeill's Mills, Norbert MacKinnon, Richmond R.R., Sydney Enman, Northam, Cortney Maynard, Port Hill, Leo Gallant, Conway, Russell Adams, Richmond, R.R., Joseph A. d'ix, Wellington, R.R. The boundaries of this club are from the West Devon area of Lot 10, to and including Lot 14.

The Cornwall and District Artificial Breeding Club will commence operation on May the 1st. The inseminator is Charles Lank, West of the Charlottetown exchange. The club serviced by this club includes Lots 31, 32, and 65. The board of Directors is composed of Stanley Willis, Cornwall, as president, Fred Kitson, Hampshire as Secretary and Treasurer and Parker Newsome, Clyde River, Norman MacKenzie, Clyde River, Archie Johnston, Brookfield, Bruce MacKinley, North River, Jim Joy, Cornwall, Floyd Stretch, Long Creek, Eugene McQuillan, Bonshaw.

The Hillsboro and District Artificial Breeding Club which includes the area South of the Hillsboro area down to and including the Vernon Bridge and China Point areas will commence operation early in May. Gordon Sheidow of Millville is taking the course to qualify as an inseminator. The President of the Board of Directors is William MacEachern, Mermaid. Secretary, Treasurer, John Reddin, Southport, and the Directors are Wilfred Furness, Vernon Bridge, Robert Brown, Charlottetown RR 1, B.B. Jones, Bunbury, Irving Tweedy, Vernon River, Harold Dunphy, Millville, Dan O'Donnell, Avondale, J.D. Macdonald, Glenfinnan, and Frank Gleason, Cherry Valley.

The York and District Artificial Breeding Club will commence operation in the early part of May. The club will service the area from the Winsloe Road, to the Blooming Point Road. Lloyd Vessey of York is presently taking the course to qualify as an inseminator. The members of the Board of Directors are, John Thompson, Dunstaffnae, Albert Boswell, Marshfield, Smith MacFarlane, Harrington, James Cudmore, Winsloe N., Lloyd Vessey, York, Mark Johnston, Saffolk, Aneas MacInlyre, Millville, Malcolm MacCallum, Stanhope, Gregoire MacCallum, Brackley Point, John J. MacDonald, Blooming Point.

The Montague and District Artificial Breeding Club will extend service to Lots 51, 52, 53, 54, 55, 59, 61 and 66. Lloyd MacKinnon of the Brooklyn is presently taking the course to qualify as an inseminator. The President of the Board is

Don MacQuarrie, Roseneath, Secretary Treasurer Don MacLeod, Victoria Cross, and the Directors are William Hunter, Dundas, Harold Annear, Lower Montague, Don Johnston, Peters Road, Glen MacEachern, Perth, Philip MacRie, Gaspereux and George MacPherson, Kilmuir. It is hoped that this club will be in operation in the early part of May.

The Eastern Kings Artificial Breeding Club includes Lots 42 to 47 and Lot 56. The inseminator is Albert Mills. The Club will commence operation early in May. The President is Major Reid, Rollo Bay West. Secretary Treasurer, Peter MacAulay, Chepstow, the Directors are, Fred Aitken, Fortune, Howard Campbell, St. Columba, Charlie MacDonell, Souris River, Ernest Underhay, Eglinton, Ernest Morrow, Elmira, Charlie Ching, Red Point, and Bernard MacDonald, Bear River.

MEMBERSHIP

Membership in any of the Artificial Breeding Clubs is opened to any farmer living in the area engaged in Artificial Breeding. The Membership fee is \$1.00 Annually or \$5.00 for a life Membership. To become a member all the Cattle Breeder has to do is telephone the inseminator in his area and state that he has an animal to breed. The Membership fee will then be collected when the first animal is bred on the owners premises.

All business in the clubs will be conducted strictly on a cash basis. If the inseminator does not receive remuneration for the services rendered future services may be curtailed. The Service Fee of \$4.00 covers a maximum of three inseminations if necessary, provided that at no time a period of ninety days or more elapses between the first and second, or the second and third services, if this situation arises the next insemination will be considered as a new service, and the usual Service Fee shall apply.

In order to receive service in any one day it is the owners responsibility to notify the inseminator not later than ten o'clock in the morning. All telephones calls of this nature will be at the owners expense. Animals to be bred must be kept in the stable until the inseminator arrives.

Animals considered by the inseminator to be infected with a disease likely to defeat conception, may be refused service until such remedial measures have been taken as will overcome the disability.

In order to obtain the best results it requires the full cooperation of the inseminator and the owner of the cattle. The following are a few recommendations for obtaining good breeding records. 1. Keep records of freshing dates, Heat dates and breeding dates at all times. Barn breeding records may be obtained from your inseminator. 2. A cow should be fresh, at least 60 days before breeding. 3. In the winter it is wise to turn cows out at least once a day and then be collected when the first animal is bred on the owners premises.

Good feeding, good management

and disease control are the important factors in breeding efficiently.

By the middle of May eight Artificial Breeding Clubs will be in operation in the Province. It is hoped that the remaining areas will show sufficient interest to organize clubs in their districts next year. This whole setup represents one of the biggest advances in our livestock program. It affords the average breeder of both dairy and beef cattle the services of areas of outstanding breeding qualities. Over 45 bulls are kept in the stud at Fredericton. Services are offered in the Holstein, Ayrshire, Jersey, Guernsey, Dual Purpose Short-horn, Beef Short-horn and Hereford breeds. It must be remembered that it is not permissible to register Herefords that have been bred artificially. All other breeds mentioned above can be registered. Accurate breeding records are kept on all service.

Watch your local paper for announcements concerning the starting of Breeding in your club. If you have any questions get in touch with your inseminator or write in care of the Director of Veterinary Services, Box 404, Charlottetown.

CLUB NEWS

The second meeting of the Baldwin Road Poultry Club was held on April 2 at the home of Thomas Curran with sixteen members present and two visitors.

The vice-president, Billy Curran, presided due to the absence of our president, Edward Smith. It was moved and seconded that Elaine Trivedi and Josephine Campbell would supply the recreation for the next meeting which is to be held

on May 31st at St. Teresa's Hall. It was decided and moved by Brendan Dunphy and seconded by Gerard Trainor that we would donate \$5.00 for the rent of the hall. Due to the absence of our Provincial Agriculturist, Edward MacGowan, the discussion on the Care of Baby Chicks was brief; after which an enjoyable programme was presented and enjoyed by all the members.

It was moved by John Curran and seconded by George McKenna that the meeting would be adjourned.

On April 13, the members of the Gowan Brae calf club met in the Gowan Brae school for their second meeting. Eleven members answered roll call. The minutes of the re-organization meeting were read and approved. Tests were written by all members present, supervised by the Club Leader, Jeannette MacDonald. The same being forwarded to the Department of Agriculture, it was moved and seconded that the roll call be answered at next meeting by paying fees. Next meeting to be held on May 11th.

The meeting was then adjourned. The annual meeting of the St. Phillip and St. Chrysostome 4-H Calf Club was held in St. Chrysostome School on April 13th with 13 members being present. The meeting opened with the prayer followed by a brief explanation on 4-H club work.

The following officers were appointed: Adult Directors, Cyrus Gallant and Polycarpe Arsenault; President, Raymond Bernard; Vice-President, Edgar Arsenault; Secretary-Treasurer, Ita Arsenault.

IN MEMORIAM

MRS. JOSEPH DAVIS

The death occurred suddenly at 258 Fitzroy Street on Wednesday March 28th of Mrs. Joseph Davis, formerly Emily Bevan, born in Charlottetown. She will be especially missed in the home where she will be long remembered for her kindness to her family and to those who came into it.

She leaves to mourn her loss besides her husband one son John and one daughter Janet and grandson Johnny. One sister Millie and one brother Harry predeceased her a few years ago.

The funeral was held March 30th, from the MacLean Funeral Home to Trinity United Church where the service was conducted by Rev. A. Frank MacLean and Rev. G. Howard Christie. The pall bearers were Frank H. Johnson, Jack MacLure, Percy Acorn, Jack Blanchard, Roy White, Ralph Darach.

Interment was in the People's Cemetery.

"To live in the hearts of those we love is not to die."

COMBINED MEMORIAL DRUMMONDVILLE, QUE. (CP)

A large cenotaph will be erected this summer in memory of Drummondville's founders and of those who lost their lives in Europe or Korea. The city was founded 140 years ago by veterans of the war of 1812.

COUNCIL IN DARK

WAWA, Ont. (CP)—Council of Michipicoten township 100 miles northwest of Sault Ste. Marie had one instruction for the town clerk, before adjourning when a thunderstorm caused a power failure. The note: buy more candles.

Short-Cut Soviet Method In Teaching Mathematics

By GUSTAV SVENSSON

STOCKHOLM (AP)—The Russians are teaching children that mathematics are fun. That is the way they are building a mighty challenge to the West in science and technology.

Minister Tage Erlander said in an interview here.

The Swedish political leader, who returned recently from a trip to the Soviet Union, said he looked for an answer to this question while on his trip.

"Why do the Soviet Union turn out more scientists and engineers than the United States?"

Erlander, for many years a minister of education, said he was convinced he had found the answer.

PLEASANT METHOD

"I think the basic answer is an amazing short-cut Soviet method to teach mathematics with less pain. I saw it functioning in Soviet schools.

"The Russians have simply cut out most of the boring calculation exercises that make so many children unhappy. Instead, they start teaching them at an early stage

how to think in terms of abstract mathematics.

"As a result, Russian boys and girls are far more advanced in higher mathematics after 10 years in public school than most Western high school students.

"This is the way the Russians create that broad recruiting basis for their universities which may one day enable the Soviet Union to challenge the scientific and technological supremacy of the West.

"What he said during his stay in Russia caused him to conclude a mutual agreement with the Soviet government, enabling Swedish expert teams to make on-the-spot studies of Soviet methods of training scientists and engineers.

"I feel this is a problem of utmost importance to the West that must be followed closely by everybody concerned," Erlander said, adding:

"There should be no hesitation to learn from the Russians, if need be. Unless adequate measures are exercised that make so many children unhappy. Instead, they start teaching them at an early stage

Homemakers! Win exactly what you want for your home in Jewel's easy, exciting contest..

You name your prize!

PLEASE READ CAREFULLY:

- Each entry must be printed on a card from a carton of Jewel shortening (use blank, inside surface) or a reasonable facsimile. No other entry is required.
- You may send as many entries as you wish, so start now to collect Jewel cartons.
- On your entry, give your name, address, the date, the prize you would like to win for your home (be specific) and why you would like to win it, in about 20 words.
- The value of the grand prize will be \$5,000.00. Should the value of the prize nominated by the winner be less than \$5,000.00, she will receive the prize she names PLUS the difference in cash.
- The grand prize winner will be chosen at the completion of the contest from among the twenty-five weekly winners.
- All entries will be judged by an independent judging organization.
- Prizes will be awarded on the basis of originality, suitability and neatness.
- Winners will be notified by mail. A complete list of winners will be mailed upon request.
- Judges' decision is final and no correspondence will be entered into.
- The contest is open to anyone living in Canada except employees of Swift Canadian Co. Limited and its advertising agencies, or their families, or anyone directly or indirectly connected with the organization of the contest.
- The period of the contest is from midnight, April 15, to midnight, May 15, 1956. Entries postmarked later than that date are not eligible for judging.

IF YOU COULD HAVE ANYTHING YOU WANTED FOR YOUR HOME, WHAT WOULD YOU CHOOSE? New furniture for every room? An automatic washer and dryer? Or maybe you'd like the basement modernized... the house completely repainted, inside and out. Just tell us what you've been wishing for—and you may WIN IT!

SO EASY TO ENTER. Just remove the top from a carton of JEWEL shortening (or use a reasonable facsimile) and print on it: 1. Your name and address. 2. The date. 3. The prize you would like to win for your home (up to a value of \$5,000.00). 4. WHY you would like it, in about 20 words.

THE GRAND FIRST PRIZE IS THE ONE YOU CHOOSE FOR YOURSELF!

Yes, if you are the grand prize winner, the prize you name on your entry blank is the prize you WIN! So start on your entry today. The thing you've always wanted may be just a dream right now... but Jewel can make your dream come true.

Magnificent bonus prizes! FIVE ELNA SEWING MACHINES A WEEK FOR FIVE WEEKS!

From the week of April 15 to the week of May 13, 25 fully automatic Elna Supermatic Sewing Machines will be given away. That means five sewing machines a week for five weeks will be awarded to lucky Canadian homemakers — one sewing machine a week for the best entry (see rules) from each of these regions:

BRITISH COLUMBIA THE PRAIRIES ONTARIO QUEBEC THE MARITIMES

So enter each week, because each week you have a NEW chance of winning a magnificent Elna Supermatic (retail value \$319.00).

FOLLOW THIS CHART WHEN YOU MAIL YOUR ENTRIES:

Mail deadline for week of April 15.....Midnight, April 21

Mail deadline for week of April 22.....Midnight, April 28
