

that disease to destroy your health, and hasten you to the tomb from whence no traveller ever yet returned?

#### Silence that Dreadful Cough!

Or death must carry you to your silent grave. Why delay while there is yet hope? Consumption is caused by impure humors of the blood, being deposited in the cells of the lungs. Hence, the lungs are like a spring of water, when roiled up by the dirt and mud, if clear water constantly flows through the springs, impurities or mud will be conveyed away by the pure water. Just so with the blood when kept in a clean or pure state: as it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be the result. From two to four Pills taken every night, or every other night, or enough to keep the bowels regular, will in a reasonable time cure consumption. The reason these pills are used more than all others, is because they are made of purifying vegetables, and cleanse the body from all corrupt matter, and drives out disease of every description, quicker and in a milder way than any other Pills.

#### Influenza, and Common Cold,

Like thieves in the silence of the night, have carried many to the silent grave.— They are caused by a sudden check of perspiration, by which the stomach is rendered inactive, and the lungs become loaded with corrupted matter, which enters the blood, and disease is the result. For all colds, coughs, and chills, succeeded by heat, and for all fevers of every form, hoarseness and rawness of the throat, lungs and stomach, and for all weakness and sickness of every kind, from three to five of these Pills on going to bed, for a few days, will be all that you require to restore you to perfect health. It has been admitted and claimed all over Europe, that there never "was a medicine, that will extirpate all manner of disease from the system, equal to Dr. Morse's Indian Root Pills," that the more you take of them, the stronger you grow. They are founded upon the principle that the human body is subject to but one disease; namely: corrupt humors. These Pills not only cleanse the bowels, but also follow the blood through every vein and artery, and so purifies it from all morbid and corrupt humors, that disease of every name is driven from the body.

#### Great Female Medicine.

Females who value health, should never be without these Pills. It has been admitted by a number of physicians, that females cannot too highly value them.— They have given health and spirits to hundreds of females, who without them, would have been in their graves. They purify the blood, remove obstructions, and give the skin a beautiful, clear, healthy, and interesting appearance. A box of these Pills is a great medical companion at certain periods. From one to three should be taken every day until relief is obtained. A few doses occasionally, when well, will keep the system in a healthy condition.

#### The Bowels and their Functions.

As perfect health is the greatest blessing that we can enjoy, without which all other blessings are of little consequence, we deem it of great importance to point out the way for you to enjoy it. The bowels must be kept in a state by which they are enabled to carry off the useless matter; they are the main channel which nature has appointed to carry everything that is unnecessary. And it is impossible to tell what a large amount of sickness has been caused by constipation, or costiveness; in other words, by not keeping the bowels regular: it is the main road to all diseases: it is the cause of unnatural irritation to the mucous, or lining membranes of the bowels. Having lost their natural strength, they cannot object to what is required of them. Hence, the bowels become inflamed, and unless you find a speedy relief, a thousand other complaints are ever ready to drag you through a miserable and wretched life. Such medicines must be given as will cleanse the stomach and bowels, and restore their natural strength. To accomplish this, there is no compound so valuable as these Pills; all other medicines sink to utter insignificance when compared to them; it seems as though the Author of nature had designed them for this, as well as other complaints. From two to five Pills a day will increase strength and appetite, and cleanse the stomach and intestines from whatever is injurious.

#### Inflammation of the Eyes,

Like all other inflammation is caused by impurity of the blood, which causes all eruptive diseases; as Salt Rheum, Scurvey, Biles, Sores, Ulcers, &c. The blood being unhealthy, and of an impure nature, also occasions Dropsies. The blood becoming obstructed in the veins, the watery part of the blood in consequence is thrown out from their extremities, and dropsy is the result. Many times it is occasioned by improper treatment of some former disease, and the vessels being filled by serious humor instead of blood. Free evacuations by these pills, open the passage into the bladder and carry off the corrupted humors, and renew them with pure and healthy blood, which will drive out of the body all inflammation, together with eruptions of the skin, and all dropsical complaints. They will be a shield to every form of disease to guard and keep you from the cold grasping hand of death, and cause life and strength to remain, and the countenance to brighten with the bloom of beauty and health.

#### Disease of the Stomach.

The stomach is the most liable to get out of order. Hence now important that no diseased matter clog its operation, which would cause nausea and distress by our food. It also weakens the brain, destroys the memory, creates pains and dizziness, and various afflictions in the head. It produces great difficulty in breathing and swallowing. Sometimes fainting and fits will ensue; also bad breath, restlessness and great loss of strength. If not immediately attended to, the blood will carry the disease through the whole system, and death will end the work. From 2 to 5 of these pills a day will keep the digestive organs in a healthy condition, and unclog or carry away all impure matter, and thoroughly restore and cleanse the stomach, at the same time the Pills will so purify the blood, as to drive all manner of disease from the system.

#### Worms.

In a quantity of corrupted matter, there is always to be found a nest of worms. They cannot, neither will they stay anywhere else. Weak stomach and bowels are subject to them, as they have not sufficient power to digest their food. Hence a large heap of matter is lodged, and worms must be the result. A few doses of these pills will disturb them in their nest, and drive them out of the system.

It should be remembered, that an occasional dose when in health, especially after taking cold, will prevent the disease from forming in the body.

#### Disease of the Liver.

By this disease, we understand an inflammation either in the membranes or substance of the liver, known by dull pains in the right side, the stomach always disordered, the yellow tinge of the skin, dry cough, tongue coated, costiveness, high-colored urine, and of a thick nature: severe weakness and severe pains in the head.

The quantity of corrupted humors in the region of the liver, causes a defective secretion of the bile. The liver, when healthy, serves as a filterer to the blood, to separate all impurity from it, or to refine it. When diseased, it cannot purify the blood, which, when sent to the lungs, brains, and other parts in a morbid condition, may cause Jaundice, Consumption, Insanity, &c., and withholding the natural stimulus to the intestines, causes Dyspepsia, Piles, and other complaints, as you perceive the direct way to untravel and tear the whole system to pieces.

A patient, suffering from this complaint, should resort to speedy relief. Yet there are very few medicines worth a cent in curing diseases. What then shall be done? We say use Dr. Morse's Indian Root Pills, as they are composed of plants and roots; they will be found a sure cure for this painful disease, because they purge from the body those corrupt and stagnant humors, and so cleanse and renew the blood, which is the cause not only of the disease of the liver, and the inflammation of the kidney and the bladder, but of every description of disease. From 5 to 4 of the above pills, taken every night on going to bed, will, in a few days, entirely relieve the body of every thing that is opposed to health.

#### Fevers.

Fevers, like every other form of disease to which the human system is liable, is caused by impure humors. This being caused by a more rapid action of the blood struggling with nature, in endeavoring to cast out of the body the corrupt matter which is steadily opposed to health. Hence the good and bad humors are at war with each other, and the commotion which follows causes fever or heat. The symptoms of fever are various; causing heaviness, languor, difficult breathing, eyes dull and heavy, anxiety, sighing and yawning, alternate fits of heat and cold. After which, the patient complains of pains in the head and back, great thirst, nausea and sickness, a fullness about the stomach, and sometimes vomiting bilious matter. Dr. Morse's Indian Root Pills are acknowledged to be a strengthening and delightful medicine for all kinds of fevers. They not only cleanse the stomach and bowels from all bilious matter, but they open the excretory vessels, causing them to pour copious effusions from the blood into the bowels, after which the corrupted mass is thrown out by the natural passage of the body. All that is required, in urgent cases of fever, will be to take large doses. In order to have them operate thoroughly by the bowels, take from three to five, night and morning, until the fever entirely disappears. After which, from two to four every evening, until well, and you will be convinced that this is the best way to check fever, because they drive out all inflammation, and restore the body to a state of sound health. And the blood and other fluids will be so thoroughly purified that disease in any form will be utterly impossible.

#### Gravel and Stone.

By this we understand a collection of sand-like substance having been lodged in the passage of the urin. When the system is in a healthy state, this substance is carried off by the natural passage of the body; but when there is a weakness of any organ, especially the kidneys, they become incapable of expelling such sandy concretions, and consequently they are lodged in the kidneys, urethra, or the bladder, causing great inflammation to those organs, and great pains and swelling, and great difficulty in voiding urine.— It has been admitted by many physicians, that these Pills are made out of some particular plants which have a wonderful charming influence in dissolving the substance which has clogged the passage, and by their cooling properties they expel all inflammation, and leave the water passage in an active and healthy state. From three to four of these Pills night and morning, from one to two weeks, will decide how this dreadful disease is to be treated, and as they remove the cause of every kind of disease, it is utterly impossible for them to fail in curing the gravel, as they unclog the passage, and leave the parts in a healthy and lively condition.

#### Giddiness, Headache, &c.

These pains and disagreeable feelings are generally symptoms of some other complaint; such as dyspepsia, apoplexy, and various others, all of which are caused by corrupt, noxious matter, clogging the various circulations; hence, a stream, or rush of blood to the head, and by the excitement, a great pressure on the brain. Giddiness, headache, loss of memory, dimness of sight, and various other complaints are the result. Thus it will be seen, that all the above painful and distressing maladies, owe their origin to the blood. Dr. Morse's Indian Root Pills, are acknowledged to be the only medicine that will thoroughly purify the blood. They enter the stomach and unite with the blood, and follow the stream of life on its journey through the system. They root out all foulness and impurity, and drive out every unhealthy obstruction. They should be taken every night in sufficient quantities to operate briskly, by commencing with two pills on going to bed, three the next night, four the next; if the symptoms are not removed, commence again with two pills and go up again as before. Continue in like manner until the blood is thoroughly purified, and all pain and distress is entirely removed.

#### Pregnancy.

During this critical period the Pills will be required, because they cleanse the body from those morbid humors, and thoroughly drive away all pains, and give ease and comfort to the mother. From one to three of these Pills, taken two or three times a week during pregnancy, will cause the mother a safe and easy delivery and will be sure to give a stout and healthy constitution to the child. Mr. Wm. Baker, merchant, of Hudson, N. Y., says:

Dr. Morse, Sir:—The Pills prepared by you are an excellent article. I never sold a medicine which gave better satisfaction: they are used here with astonishing success. Mr. Joseph Johnson has been very sick. Dr. White, a physician of high standing in this place, has been attending him for some time. Last week the doctor gave him up, saying, that he could do nothing for him, as it was impossible for him to recover. On hearing this, I instantly put a box of the Indian Root Pills in my pocket, carried them to him, and told him I had no doubt they would be the means of saving his life. Finding so much relief from the Pills which I gave him, he sent for more. They had the most charming effect, and now he is in a fair way of recovery. Please send me a large supply of the Pills as I am nearly out.

#### Directions.

As Dr. Morse's Indian Root Pills are founded upon the principle that every kind of sickness, pain or distress, to which the human family are subject, is caused by corrupt, stagnant matter having been lodged in various parts of the body, therefore, it would be of no use to speak of the various pains, sickness, or distress, or in what part of the body, or how severe the various afflictions that you may undergo: because the more sickness or distress is occasioned by the more corruption or impurity within, and the only inquiry should be, is the person sick? But it should be borne in mind by those desiring to be restored to health, that they should take them in sufficient quantities to operate briskly by the bowels.

The usual dose is from two to four: but they must be taken in sufficient quantities to operate two or three times on the bowels. Very delicate persons should begin with but two, and increase as the nature of the case may require. Those more robust, or of very costive habits, may begin with three and increase to six, or even more, if it should be found necessary, and they will effect a sufficiently happy change to guide the patient in their future use. But in case of violent pains in any part of the body, the medicine must be taken in large doses every night and morning, and oftener if the sufferings are great. There is not an ache or pain that the body is subject to, but will yield to their powerful influence, and they show that it is by drawing off the ill humors, and constant purging, that will cleanse and purify the blood, and in a mild and gentle way, drive out disease of every kind, and restore the system to a state of sound and perfect health.

USUAL DOSE FOR CHILDREN.—These Pills, should be taken by children, from one day to four months old, from a half to a whole pill, dissolved in a little water, and sweetened, to be taken every night, and if the sufferings of the child are severe, every night and morning, until all distress of the little sufferer is removed. From four months to four years, from one to two pills. It should be borne in mind that the Pills must be taken in such quantities as will operate two or three times on the bowels; otherwise you will receive but little benefit. As they are made from plants and roots, they may be taken not only without danger, but with perfect safety, and great benefit realized in every case.
