

THE DAILY EXAMINER.

MARCH 11, 1896. A GRIEVANCE

A FEW days ago the Guardian requested THE EXAMINER to publish that part of the judgment of the Lords of the Privy Council which referred to the grievance of the minority in Manitoba. We comply with this request and ask in return that the Guardian publish the petition of the Catholics setting forth their grievance and forming the ground of the appeal which the Privy Council declared to be "well founded." If the Guardian had complied with this request its readers would have seen on the other side of the case, and been able to judge for themselves whether or not the Roman Catholics of Manitoba have a grievance. It is a contemporary has apparently decided not to do so. We think this hardly fair and quite courteous in view of THE EXAMINER'S ready response to its request. The public will, we think, admit that we have some cause to complain—that we have, in fact, a grievance, and that we shall in future be justified in declining to comply with the requests of the Guardian.

CIVIC MATTERS.

It is pleasing to note that the Mayor and City Council, while determined to hold fast to the good old policy of economy, are looking forward to the continued improvement of our city. While keeping well within our means, and out of trouble, we are in duty, as in interest, bound to do our best to bring Charlotte-town up to the level of the cities which we have to contend with. It is our duty to see that the property, the value of our real estate to be maintained. The figures submitted in the opening address delivered to the new Council by the Mayor seem to indicate that there will be a decrease of an eighth per cent. in the rate of taxation. At the same time, the cleanliness and sanitation of the town is to be more carefully attended to under the direction of one who is fully alive to the importance thereof. The remark of His Worship concerning the grading and levels of streets, is particularly important in view of the contemplated permanent works on our street and sidewalks. A surveyor ought to precede the street laborer in this work, and a definite plan of operation ought to be adopted. As to the increasing cost of education in this city, His Worship forgot to state the fact that it was necessitated, for the most part, by the withdrawal of the Government supplements to our teachers. We are paying an additional levy on the part of the Provincial Government in an indirect way—that is all. The cost of City Government is coming home to us. But, withal, the Councilors look confidently to the future. They are prepared to deal in a practical way with the Park roadway matter and to welcome the Electric Railway Company, safeguarding carefully, of course, the rights of the corporation and the interests of citizens. Upon the whole we think the policy of the new City Council, as made evident at the first meeting, a good one. Let us hope that all the consultations and discussions of our City Fathers will be gentlemanly as well as wise, and that the acts of the Council will benefit the town.

NOTES AND COMMENTS.

—Rev. Principal Grant objects to the Remedial Bill, among other things, because it does not do enough for the Manitoba Catholics. Mr. Laurier takes the same ground. But it is difficult to see why, on that account, the Bill should get the six months' hoist. Better suggest some improvements!

—Israel Tarte's paper, Le Citoyen, reported Mr. Laurier in Charlotte-town as having "amidst indescribable enthusiasm, reiterated his solemn engagement to re-establish the Catholic schools on his arrival in power." Tarte and Laurier are evidently trying to fool the electors of Canada.

—The revenue for the past month shows a gratifying increase of \$300,000, compared with February, 1895. A quarter of a million of this is due to customs and \$50,000 to excise. The total revenue for the eight months of the year is exactly \$2,000,000 ahead of the same period last year, while the expenditure is \$1,000,000 less—a net increase of \$1,000,000 in the eight months.

—Educational Journal: The bitter cry of suffering Armenia reaches, we cannot doubt, the very heavens. It should reach the heart of every man and woman in every Christian land, and meet with such response that the fear of starvation should no longer be added to all the other un-speakable woes which Turkish misrule and Moslem fanaticism are exacting from the poor and unhappy people.

—Even should we all be beaten, swept away and cut down at the next election, says La Patrie, "we must do our duty as our duty." This utterance, says the Mail and Empire, is published evidently after a careful survey of the disorder and confusion into which Mr. Laurier and his followers have drifted. It is an appeal which seems to indicate that a feeling of hopelessness prevails, and that Mr. Laurier's leadership during the past few months has resulted in nothing but disintegration and disaffection. To be beaten, swept away and cut down is not a pleasant prospect, but it does not seem to be beyond the bounds of possibility.

—An Ottawa correspondent reports, March 6: "Yesterday the reasons upon which the French Liberals are willing to support Mr. Laurier were laid bare. As Mr. Craig put it to-day, the Liberals are waiting until Mr. Laurier will have an opportunity to bring down his bill. What the character of that measure will be Mr. Gouffion and Mr. Lavigne, the latter of whom is Mr. Laurier's partner, have been good enough to state. That it will apply the thumb-screw to Manitoba is a foregone conclusion, and that Mr. Laurier's leadership during the past few months has resulted in nothing but disintegration and disaffection. To be beaten, swept away and cut down is not a pleasant prospect, but it does not seem to be beyond the bounds of possibility."

—Sir Oliver Mowat has declared himself against Federal interference with Manitoba in a series of resolutions which set out that the Manitoba Catholics have a grievance, that it is in the power of Parliament to relieve them, that Parliament should relieve them, but

only as a last resort, and when there is no hope of action by the provincial authorities. The Gazette expresses the opinion that Sir Oliver has straddled the issue even better than Mr. Laurier. The one weak point is likely to be in answering the question: How long should the minority wait to warrant Parliament in assuming that Manitoba does not intend to do anything? Is six years not enough?

—Keep your mouth shut. The Family Doctor says this is the secret of a cure for colic. The man or woman who comes out of an over-heated room, especially late at night, and breathes through the mouth, will either catch a bad cold or irritate the lungs sufficiently to cause an epidemic and unpleasantness. If people would just keep their mouths shut and breathe through their nose, this difficulty and danger would be avoided. Chills are often the result of people talking; feet, while out of doors, just after leaving a room full of hot air, and theatre-goers who discuss and laugh over the play on their way home are inviting illness. It is, therefore, during youth that the greater of mankind contracts habits or indulgences which make their whole life a tissue of disorders.

—Let us see. Was it the Hon. David Laird or the Hon. Alexander McKenzie who in the session of 1875 submitted and carried through the House of Commons the following resolution:

"When and so soon as any system of taxation shall be adopted in any district or portion of the Northwest Territories the Lieutenant-Governor and Council or Assembly, as the case may be, shall pass all necessary orders and resolutions, and it shall therein be always provided that a majority of rate-payers in any district may establish such schools therein as they may think fit and make the necessary arrangements for their maintenance, and further that the minority of rate-payers therein, whether Protestants or Roman Catholics, may establish separate schools therein." (See Hansard for 1875, page 1014.)

Well, it doesn't matter much. Messrs. Laird and McKenzie were then both in the same boat, Mr. Laird as Minister of the Interior, having special charge of matters relating to the Northwest.

SOCRATES.

The course of lectures for 1895-96, delivered in James' Hall, was brilliantly ended last evening by Dr. Anderson. Regard for the lecturer and interest in the subject combined to attract one of the best audiences of the season. It is needless to say that the wise and great teacher of the men of Athens received appreciative treatment from the learned doctor, who held the close attention of his hearers for an hour and a half. The subject was, "Socrates in his life, and after he became a sacrifice to the enmity and fickleness of those whom he served, as well as to his excellence as a philosopher, a statesman, and a man of letters." Dr. Anderson directed attention (1) to the conditions in which he lived; (2) to the man himself, and (3) to the lesson he taught, pointing out in the practical philosophy, a likeness to that of our own Lord Bacon. The discourse was throughout exceedingly interesting, and conveyed several important lessons to the discriminating hearers. A loud and unanimous vote of thanks moved by the Rev. Mr. Fullerton, and seconded by Charles Palmer, Esq., and supported by Mr. A. B. Warburton, M.L.A., was conveyed to the lecturer by the chairman, Mr. D. Stewart.

DEMOCRAT MEDAL CONTEST.

ITALY'S TROUBLES.

The Plans of the King Preval—The Troops in Africa.

Rome, March 9. There is much difficulty being found in the task of forming a ministry. Signor Saracco has declined the responsibility, while the attempt to form a Saracco-Rodini combination equally failed.

It was announced last night, however, that the Marquis Di Rudini had succeeded in forming a cabinet, with himself as premier and minister of the interior; General Ricotti, minister of war; Signor Brin, minister of foreign affairs; Signor Peruzzi, minister of the treasury, and Admiral Raoche, minister of marine.

It developed later that the formation of the cabinet had been undertaken by Gen. Ricotti.

King Humbert conferred with General Ricotti at 7 o'clock in the evening and charged him with the formation of a cabinet. The result was a cabinet made up as already stated. Gen. Ricotti yielding to the Marquis Di Rudini, the premier, upon his assuming the portfolio of war as indicated. Other members of the cabinet decided are: Signor Guicciardini, minister of finance, and Signor Granturo, minister of justice.

Gen. Baldissera has been authorized to withdraw the Cassala garrison should their position become endangered. The report that the Cassala is surrounded by Derivishes has not been confirmed.

London, March 9.—The Daily News correspondent at Rome telegraphs as follows: "The choice of Gen. Ricotti (as minister of war) shows that the king's ideas have prevailed in favor of re-opening an offensive campaign next autumn after the rainy season."

"Gen. Baldissera has ordered the Cassala garrison to withdraw."

PRINCESS BEATRICE'S HYMN.

At the funeral of Prince Henry of Batlenburg, before the benediction came a hymn of unknown authorship, chosen by Princess Beatrice from her private hymn-book. The following were the words:—

Sleep thy last sleep,
Free from care and sorrow;
Rest where none weep,
Till the eternal morn!

Though dark waters roll,
O'er the silent river,
Thy fainting soul
Jesus can deliver.

Lit's dream is past—
All its sin, its sadness,
Brightly at last
Dawns a day of gladness.

Under the sod,
Earth receive our treasure—
To rest in God,
Waiting All His pleasure.

Though we may mourn
Those in life the dearest,
They are I return
First, when Thou appearest.

Soon shall Thy voice
Comfort these now weeping,
Bidding us rest,
As in Jesus sleeping.

SONS OF TEMPERANCE.

Last evening a merry contingent from Victoria Division drove out and visited Excelsior Division at Cornwall, where a very social and entertaining time was spent, and an excellent programme consisting of address, readings, and recitations, rendered. The members of Victoria, although long famous for their tact and ability on occasions like this, without doubt, eclipsed anything in their previous history. After Mr. Hood, the W. P. of Excelsior, had in a very pleasing manner welcomed the visiting brethren, a beautiful chorus was sung by the whole Division, and then Brother A. W. Tanton took the floor and delivered a rousing and impressive speech much enjoyed by some spicy quotations from Burns. Brother E. S. Weeks then gave a stirring recitation, followed by a song from Brother Buchanan, which was enthusiastically received. Brother W. Gough then gave an impressive reading, accompanied by some appropriate remarks. Sister M. Crossman then came to the front, and in her usual pleasing manner, gave the stirring recitation, "The Bridal Wine Cup." Sister L. Hodgson then gave a lively reading which was well received, and heartily applauded. At this point, Brother G. B. Jury made some interesting remarks, after which Brother Buchanan again was called to the floor, and gave a comic recitation, and was again encored. Brother John Gaskin then gave "The Bumper Degree," which called forth more than the usual amount of merriment. Miss Leah Mann followed with a spirited and excellently-rendered recitation, which was without doubt one of the most pleasing and a hearty vote of thanks, after the applause which followed had died away. Mr. Jury was again to the front with some spirited readings on the subject of temperance, and a disturbance in a church. At this point the entertainers changed lands, and it was then the privilege of the Victorians to enjoy a neat programme prepared by the young ladies of Cornwall. Both programmes having been advanced and a hearty vote of thanks, which was moved by Bro. Howard, and seconded by Bro. Crosby, had been tendered to the city brethren, the assemblage dispersed to the residence of Mr. Frieze, where they were entertained, leaving for home at a late hour, feeling satisfied that Victoria is still, as ever, the "Glorious of the field."

TELEGRAPHIC. SPECIAL DESPATCHES TO THE EXAMINER. PARLIAMENT OF CANADA. The Remedial Bill—A Last Chance to Greenway—Settlement Anticipated.

OTTAWA, March 11. Mr. Laurier yesterday to elicit further information regarding the proposed negotiations with the Manitoba Government on the school question. But Sir Charles Tupper said that there was nothing new to convey to the House.

It is stated, however, that it is as good as decided not to ask Mr. Greenway to co-operate to Ottawa, but that Hon. Mr. Dickey will proceed to Winnipeg and confer with the Manitoba Government. It is not unlikely that Sir Donald Smith will be asked to accompany the Minister of Justice to Winnipeg. That something tangible will result from the conference everybody believes.

Hon. Mr. Daly resumed the debate on the Remedial Bill yesterday. He concluded by saying that, speaking for the people of Manitoba whom he represented, they regretted that the question was kept open so long and that the sooner it was settled the better for them and for the Dominion at large.

Mr. Rinfret spoke in favor of the six months hoist.

Mr. Jones (Gape) followed in favor of the Bill. He scored the French Liberals for the stand they had taken.
