

Yawning a Remedy.

A simple treatment for sore throat and buzzing in the ears, with deafness, has been recommended by M. Naegeli, of Ermenington. It consists of a series of successive yawning, repeated several times a day. It is reported quite remarkable results are obtained.

The painful symptoms are relieved almost at once, and the pharyngitis itself may be stopped short if the treatment is begun early enough. This is therefore a case to say that it does not do to be astonished at anything, as the physiology of yawning explains perfectly the recoveries that have been reported.

It is well known that yawning was first readily produced by auto-suggestion, suggestion or imitation; there is, therefore, nothing to prevent our making use of its therapeutic action, the mechanism of which it is easy to understand. During the act of yawning there is considerable stretching of the muscles of the pharynx and soft palate, which in this way put through a sort of passage; besides this the hartiuginous portions of the eustachian tubes is made to contract and drives into the pharynx the mucus that has accumulated. Dr. Naegeli claims that yawning is more efficacious in freeing the tube from accumulated secretions than any of the other processes in which the mucus is often driven towards the middle ear instead of towards the pharynx as is the case in the act of yawning.

The process is within the reach of everybody, so that each person can give it a trial and form an individual opinion of its value.

In No Hurry.

The boy was sitting lazily in the stern of a boat dangling his feet in the water, when a man from the dock called sharply to him.

"What are you doing there?" he said. "Nothing," responded the boy. "Do you get any pay for it?" "Nope," and he drew one foot out of the water ready to run if need be. "Why don't you go to work?" "Will you give me a job?" "Yes."

"Pay anything?" "Well, no," hesitated the man, "not the first week."

"How about the second?"

"Then I will."

"All right; I'll come around the second week. That is good enough for me now," and the boy stuck the foot back in the water and winked at the man on the dock.

Back-Ache.

Back-ache is caused by sick kidneys. Dodd's Kidney Pills will remove it. By their peculiar action on the kidneys they impart activity and benefit the system by purifying the blood. You cannot have pure blood with disordered kidneys; health's existence depends upon their natural condition; they are the governors of the system; continual disorder results in kidney consumption, which is Bright's disease.

As skirt-grabbing and the display of petticoats is in vogue, why can't a fellow take a yank at his trousers to show his embroidered socks? It would save that awful fringe at the heels, too.—Truth.

The most curious and unique clock in the United States, or in the world for that matter, was constructed by Amos Lane of Amherst during the past summer. Lane's curious clock, which, by the way, is all steel, hands and lever, is attached to a geyser which shoots upward an immense column of hot water every thirty-eight seconds exactly.

The unexpected happened when a poor Yorkshire collier's wife received intelligence the other day that a brother had died in Hartford, Conn., and left her a fortune of \$60,000. When it is considered that the rich uncle in England, or occasionally on the continent, usually is the one who dies and leaves a legacy to his wandering heir on this side of the Atlantic, the exception has a special interest to the curious.

Our Girls as Successful Women.

A wealthy woman recently gave \$200,000 to establish a summer resort for poor mothers and their children. God bless her, this is only one instance among thousands of women who have conceived and executed grand ideas. Women are rapidly entering every branch of the useful arts, and aspiring to every money-making employment. "What shall we do with our girls?" is no longer a mighty problem for mothers and fathers to solve. Some one has said "It takes a woman to set a hen," and so it does. The most successful poultry raisers are women. We have in mind a woman who has for years raised finer poultry and got more eggs from her hens at less expense, than her male neighbors.—practical men, too. Let your girls engage in the poultry industry, as many are doing. Give them a fair share of the profits, and they will soon convince their fathers that girls are mighty handy persons to have about the old house. With the aid now offered any person can make hens lay even in cold weather. Out of twenty-four gold coins premiums offered last winter for best results, one third were won by the women who used Sheridan's Condition Powder to make hens lay. For example Mrs. Henry Baker, Holliston, Mass., won \$10 and got from 13 hens during the three months' trial 1309 eggs; Mrs. L. J. Wilson, Northboro, Mass., got 3745 eggs from 100 hens; Mrs. Edwin Brown, East Greenwich, R. I., from 35 hens got 2454 eggs; Mrs. E. Bartley, Freeport, Pa., got 2029 eggs from 32 hens; Miss Ada L. Ross, of Mt. Sterling, Ill., from 15 hens got 886 eggs; and Miss Maggie Croushorn, of Ottobine, Va., got 2060 eggs from 30 hens; each of the last five ladies also won a \$5.00 premium from I. S. Johnson & Co., 22 Custom House St., Boston, Mass. Every person who sends this firm now \$1.20 for a can of Powder, and desires it, can have his name entered as a competitor, if the premiums are again offered. For 50 cents they will send two 25 cent packs of Powder; for \$1.00, express paid, a large can of Powder, also one year's subscription to Farm-Poultry, monthly, both sent postpaid for \$1.50. Sample copy of paper 3 cents. Send stamps or cash. Testimonials sent free. no22 d'yi wyl

It is a singular fact that the cheapness of an article should even temporarily retard its sale, and yet that was the experience of Messrs. Tuckett & Son in the introduction of their now famous "Myrtle Navy" tobacco. People who had been in the habit of smoking the finest Virginia tobacco, could not for a time be made to believe that they were offered the same article at about one half the old price, and it was only by slow degrees that they were induced to put the question to the test of an actual trial. When they did adopt that test, however, it never failed to satisfy them.
