Sherwood Cemetery.—Special attention is directed to the advt. of the annual meeting to be held next Wednesday afternoon at 4 o'clock in the Y. M. C. A. parlour.

St. Dunstan's Cathedral.—Last evening Dr. Morrison concluded his series of sermons on "Religion." The sermons were well delivered, and were most instructive throughout.

Good Friday Love Feast.—The congregation of the Upper Methodist Church intend celebrating Good Friday with a love feast commencing at 7.30 p. m. Collection in behalf of contingent fund of the Conference.

An Office in Boston.—Mr. W. L. Strickland, attorney-at-law, has opened an office in Boston for the practice of his profession, and will give special attention to business from this province. His card appears elsewhere in today's issue.

Special Music.—The choir of the Upper Methodist Church rendered some beautiful music at both services yesterday in an artistic and highly appreciated manner. They are preparing extra music for Easter Sunday—appropriate to the day.

Goose Shooting.—On Monday last says the Agriculturist, Mr. Havelock Mill, of Clermont, shot a number of wild geese, which were in fine condition, on an old shooting ground in North Bay (Richmond Bay). This is his first shooting for this season, and the first reported.

The Odd Fellows are busy making arrangements for the observance of their Natal Day. We understand it is intended to go to Summerside on Monday, April 27th, and assist the members of Prince Edward Lodge in celebrating the day.

The Odd Fellows are busy making arrangements for the observance of their Natal Day. We understand it is intended to go to Summerside on Monday, April 27th, and assist the members of Prince Edward Lodge in celebrating the day.

Canada's Cheese Export.—It is stated that in the export of cheese (Canada leads the world, its output being \$29,000,000 worth each year. The export of cheese from the United States has been only about one-half this. Holland exports about one quarter as much as we do.

Signs of Progress.—The Prince Edward Island Agriculturist has been enlarged to eight pages and is now the same size as the Journal. The change has been made to give subscribers more reading matter and to provide greater accommodation for advertisers. The EXAMINER wishes the Agriculturist continued success.

Police Court.—This forenoon the Scott Act summons against Albert P. Allen was dismissed. George Bell, 15 years old, was charged with stealing a hand saw from John McKenna. He pleaded guilty, and after receiving some sound advice from the court was dismissed on his own recognizance to appear for sentence when required.

Journalistic.—We have received the first number of the Free Lance, the weekly paper established at Westville, N. S., by the Free Lance Publishing Company. The Free Lance claims to be independent in politics and to be published in the interests of Pictou County in general and the towns of Westville and Stellarton in particular. The number before us is very interesting. The Free Lance has our best wishes.

Skating Record.—Mr. John Mills, of this city, informs THE EXAMINER that Messrs. Duncan and Egan, who skated from Mount Stewart to Charlottetown last Thursday, did not make the fastest time on record for that course. Mr. Mills says that three winters ago he skated from the ferry wharf to the station at Mount Stewart in 50 minutes. He says he would like to skate either of the two claimants for the record.

The Stanley got within five or six miles of Point Prima on Saturday, but was the nearest she could to Charlottetown, on account of the large quantity of ice met with. Yesterday she put into Georgetown, and the passengers by her were brought to Charlottetown by special train in the afternoon. There does not seem to be much chance of the Stanley being able to get into Charlottetown for a week or so. She is moving between Georgetown and Pictou to-day.

Attempted Jail Breaking.—Two prisoners confined in Queen's County Jail, John Cummings and Michael Malder, made a daring attempt to escape on Saturday. It seems that they had in some way secured two pieces of iron which they heated in the fire and bent in the shape of hooks. Then they took two of their quilts, cut them in strips and plaited them into ropes, which they fastened to the hooks. On Saturday, while in the yard, they threw their lines and made an attempt to attain their liberty, but the plot was frustrated by assistant jailer McNeill before it had time to materialize.

Encourage Home Industry.—We are pleased to know that the Charlottetown Soap Works, of which Messrs. J. D. Laplante & Co. are the proprietors, are kept very busy making up and filling orders for the celebrated Royal Oak and other brands of soap. We believe this soap unequalled as a detergent. It is made here. The labor employed is local. The tallow and other ingredients used are the products of the country. It is pleasing to know that all dealers prefer selling soap made by the local factory. This is as it should be. If the Charlottetown Soap Works gave employment to a hundred men, as it easily might with good local support, the wages paid weekly would be of considerable benefit to the city grocers and other traders. The building up of a local industry must be a help to the trade of the place. So that all are concerned in the prosperity of Royal Oak Soap.

A SUGGESTION Sir.—The letter of "One who is Interested" in your issue of the 23rd inst., might have appeared under the signature of "One who has been interested" in church building, but if it is from the pen of "One who expects to be interested" I would suggest that in connection with the construction of the new cathedral he would leave the matter in the hands of those who are really interested.
