Subscribers who do not receive their DAILY EXAMINERS regularly each evening will oblige us by promptly reporting the same to us.

THE EXAMINER PUB. CO.

LOCAL AND OTHER ITEMS.

BEER BROS. white sale begins first of February.

CABOT CLUB meeting to-night.

DRILL POSTPONED.—No. 1 Battery, G. A., will meet for drill to-morrow (Wednesday) night instead of to-night.

C. M. B. A.—The regular meeting of Branch 216 will be held in their rooms, McEachern's Building, Queen Street, this (Tuesday) evening at 8 o'clock.

VISIT POSTPONED.—The fraternal visit of the Sons of Temperance to Cornwallis which was to be made this evening, has been postponed on account of the storm.

WHO WILL BE AN ARMOUR BEARER?—A popular young gentlemen and lady who left this city on Saturday afternoon in quest of a country parsonage have not since been heard from. We hope it will not be necessary to organize a search party.

THE DRAMA.—The Dramatic Club of St. Dunstan's College have now in rehearsal "The Celebrated Case," which they will put upon the boards in the near future. "The Celebrated Case" is a mingling of comedy and tragedy, and the play will be presented in good shape by the "College Boys."

SAFE IN PORT.—The SS. Stanley left Georgetown on Monday morning. When off Pictou Island she was stopped by heavy drift ice. After some hours, the steamer, under skillful management, was backed out and all steam was made for Georgetown. Fortunately the vessel reached port before the fury of the storm began.

MAILS.—There was no foreign mail last evening, and there will be none to-night. There are now two day's mail at Georgetown, viz., the mail which failed to cross yesterday, and that which was sent down last night. We are informed that the Capes route is ready, and in the event of an unfavorable report from Captain Finlayson when the storm moderates, the mails will be forwarded by that route.

APPROPRIATE MOTTOES.—Among the mottoes displayed on the walls at the public meetings held in Ontario by the Cabinet Ministers are: "Loyalty to the Empire," "Extended Colonial Trade," "Industry, Progress, Stability," "Canada for the Canadians," "The Old Policy." These are appropriate. They set forth the ideas and principles upon which the Liberal-Conservative party is founded, the principles by which a majority of the people have stood and will stand.

DEBATING CLUB RE-ORGANIZED.—The St. Thomas Literary and Debating Society of St. Dunstan's College, has been reorganized: for the year as follows; Pres. E. Gillis; Vice-Pres, Joseph Gallant; Secretary, P. R. Walsh; Treasurer, James H. Bradley; Managing Committee, P. F. Doyle, A. A. Sinnott, James A. Ready, Reporter, John A. MacDonald. Among the subjects discussed by the club since its re-organization was "Would Confederation benefit Newfoundland." A large majority appeared in favor of confederation.

THE STORM.—A severe snowstorm, accompanied by a high northeasterly wind, set in about half-past eleven last night. A large quantity of snow fell, and drifts several feet high are not unusual about town. The wind during the night rattled windows and shook houses, thus disturbing the slumbers of many. To-day the snow is falling thick and fast, but the wind is not so high. The telephone lines are down in some sections of the city, but the country lines are reported "all right." The storm is general all along the line of railway, being even worse west of Summerside than it is here. All the trains have been cancelled.

MISSIONARY WORK.—A court was held in Zion Church last evening to decide the comparative merits of the missionary work done in India by men and women. The jury consisted of the entire audience, numbering about three times as many women as men. Messrs. W. L. McLaren, John T. McKenzie and J. M. McInnis addressed the jury on behalf of the men; and Mrs Matheson, Miss Meikle and Mr. Alexander McLeod on behalf of the women. Then the chairman, Rev. D. Sutherland, "charged" the jury, after which a verdict was rendered, a poll showing 52 favorable to the women and 20 for the men. The men were not satisfied with the verdict, and on motion of Mr. D. Schurman a re-hearing was granted to take place on the first Monday in March. Mr. Schurman in moving for the new trial urged (1) that the verdict was not in accordance with the weight of evidence, (2) that undue influence was brought to bear on the jurymen.

MEETING OF PRESBYTERY TO-DAY.

Owing to the storm and consequent blockade of the roads, the attendance at the meeting of Presbytery was small. After various items of correspondence had been disposed of, the call from the congregation of West Clyde River in favor of Mr. J. G. MacIvor, B. D., was taken up. It was found to be unanimous and hearty, and was cordially sustained as a regular Gospel call. The clerk was instructed to forward the same to Mr. MacIvor for his decision. Provisional arrangements were made for the ordination and induction of Mr. McIvor in case he should accept the call.

Rev. James Murray, of Tignish and Montrose, laid upon the table his resignation of the pastoral charge of the congregation. It was agreed that the resignation lie on the table, and that the congregation be cited to appear for their interests at the next meeting. Appointments for service were made as follows:

Rev. M. Mackenzie to Mount Stewart.
Rev. J. A. Maclean to Brookfield.
Rev. J. M. Fisher to Bedeque.

These appointments for the 17th and 24th Feb. Rev. J R. Coffin to Malpeque for Feb. 17th.

Owing to the small attendance, the remits of the General Assembly, the Home Mission Appeal and temperance matters were left over for another meeting.

Presbytery adjourned to meet at the call of the Clerk.

It is estimated that a capital of $350,000,000 is invested in the linen industry in Ireland, which gives employment to an army of skilled workers at its 850,000 spindles and 28,000 power looms.

AN EVENING WITH TENNYSON.

Last evening's meeting at St. James' Hall was in no respect unworthy of the reputation which the literary societies of that congregation have acquired for the character of their entertainments. When we say that the programme contained a piano solo by Miss McDougall, a violin solo by Mr. Jas. Hyndman and vocal solos by Miss Annie Hyndman and Mr. George Dixon, the public can form an idea of the very enjoyable evening which was spent. In addition to these numbers Miss Enid McLean rendered Tennyson's May Queen in her own inimitable style, to the unbounded satisfaction of the audience. Miss Wellner gave a laughable account of the trials and tribulations of an unfortunate man who was trying to be independent of the fair sex, and Miss Winnie Collings sang Topsy's song in a way that leads us to expect much from her in the future. Miss James' essay on Tennyson was carefully written, and showed marks of a keen appreciation of the beauties of the poet, while her well chosen selections fully illustrated the estimate which she had formed of the characteristics of Tennyson. Twenty minutes were spent in listening to quotations from the poet, which were given by different members, and as each was given the audience guessed from which poem it was taken. The accuracy with which this was done showed an extensive acquaintance with the author on the part of quite a number. We trust that this will not be the last entertainment of this kind which the Helping Hand of St. James' Church will furnish, as we cannot think of anything likely to be more helpful to our young people than a thorough acquaintance with the works of such authors as the late poet laureate.

CITY SCHOOL BOARD.

The regular monthly meeting of the City School Board was held last evening. A memorial from the teachers was read asking that their salaries be placed at the same amount as before the amendment to the Education Act was passed. A petition numerously signed by the leading taxpayers of the city was presented in support of this memorial. The Board agreed to make up to the teachers for this year one-half of the loss sustained.

As it was reported that there was considerable laxity in the teaching of scientific temperance, the Supervisor was instructed to see that in future this important subject is taught in accordance with the provisions of the statute.

The teachers' reports showed the total attendance for January, 1895, to be 1,324, and the percentage of attendance 86. Queen Square School came first, with 86.7 per cent., Prince Street second, with 86, and Kent Street with 85.5. In January the number of visits made by teachers to parents was 187, an increase of 73 over December. There were 19 cases of corporal punishment reported, as against 4x in January, 1894.

The estimates for the current year were taken up, but were not completed. They will be completed at the next regular meeting.

A P. E. ISLAND SCHOLAR ABROAD.

At the weekly meeting of the Sir William Wallace society in Victoria British Columbis, the secretary read a very interesting paper—written by Mr. J. F. Smith, of New Westminster, formerly of this Province—the subject being "Celtic Literature." As was to be expected from a Celtic scholar like Mr. Smith the paper was one breathing all the fiery patriotism of the Celt. He mentioned how little non-Gaelic speaking people know of the treasure contained in the Gaelic language, and said that two hundred and more would scarcely be sufficient to represent the lyrics of the Highlands. This was inexcusable, it robbed Scotland of half her glory. After referring in a general way to these Gaelic poets, he went on to show that owing to the prejudices prevailing, and which has been ever encouraged by the English people, against the Gaelic language, much harm had been done. He referred to Culloden, Glencoe and several other historical events to show how much has been done to stamp out, if possible, all trace of these people, their language and traditions. He referred to Ossian, in the fifth century, as the Homer of antiquity, and said the of characteristics of Celtic poetry were that the language is masculine in its strength, expressive in its meaning and copious in its diction. Through the influence of Christianity the intellect of the Celts turned towards philosophy, and before the twelfth century the universities in Europe seem to have been occupied by Scottish and Irish schoolars. He referred to the revival of Celtic literature as being due to Max Muller, of Oxford, and held that more interest is taken in Celtic literature in France to-day than in any other country.

PERSONAL.

Hon. William Richards, Bideford, registered at the Hotel Davies last evening.

George Godkin, M. L. A., Summerside, is visiting relatives and friends in Charlottetown.

Mr. John H. Carter, of Summerside, was among those registered at the Hotel Davies last evening.

Hon. Donald Ferguson returned to Charlottetown last evening, having by Captain Finlayson's careful management of the Stanley escaped a terrible night in the Straits.

George Gane, Esq., of New York, who has spent several summers on the Island, arrived by the Stanley on Friday evening to experience a few weeks of our winter weather. We hope that he will not become alarmed at the sample we are now having. Such storms are rare here.

A branch of the C. M. B. A. is about to be established in Vernon River. At the invitation of Rev. Dr. Doyle, the Rev. District Deputy, Father Burke, of Alberton, visited that parish on Saturday last and made arrangements to organize the association there. Father Burke came back to town, accompanied by Dr. Doyle, on Monday.

A Cornell Experiment Station Bulletin says that the number of acres devoted to the culture of grapes in Western New York is as follows: Chautauqua Co, 26,000; Keuka Lake region, 10,000; Seneca 6,000; Canandaigua, 5,000; Cayuga, 3,500; scattering, 7,500; total, 58,000. The New York Agricultural Experiment Station at Cornell has been issuing bulletins containing some very helpful information to agriculturists. The practical value of the scientific work done by this corps of Cornell professors was exemplified in the experiments that were successfully carried out last year to find remedies for certain grape diseases in the Lake Erie region.

A Member of the Peary North Pole Expedition.

He Makes Some Interesting Statements.

Paine's Celery Compound Used in the Frozen Regions.

Mr. James W. Davidson, who went with Lieut. Peary to the Arctic regions, was recently interviewed, and made the following interesting statements:—

"Yes, indeed, I have not only heard of Paine's Celery Compound, but have used it, and have every reason to remember it. When I was selected by Lieutenant Peary to accompany him on his trip to the arctic regions to try and find the North Pole, it was partly because of my strong, healthy constitution, and his belief that I could endure the fatigue and danger incident to the trip. I had been associated with him as his business manager on his lecturing tour, and was on terms of the greatest intimacy with him,

"When the ship 'Falcon' left New York on her trip northward it had, among the stores, several cases of Paine's Celery Compound. The reputation of that medicine was so well established that it was the most natural thing in the world that the members of the party, and they comprised men from nearly every walk in life, from common sailors to men of science, should desire to use it.

"The record of our perilous trip to Camp Anniversary is too well known to need repetition. Once in camp we naturally took an inventory of our possessions, and I was exceedingly glad to find the Celery Compound. The medicine chest was open to all, and we were free to take from it what we thought was advisable. I, in company with several others, selected some of the Compound, taking a bottle of it to the cabin, knowing it would be handy when wanted. Nor was I mistaken, for the excessive cold weather soon had its effects, and I began to be troubled in a number of ways. In every case whenever I felt the slightest indisposition, I used the Compound, and of course found relief.

"One thing noticeable in the Arctic region was that the cold weather made us all exceedingly nervous. We became irritable and cross. The slightest thing would cause angry words to spring to our lips, and it required the greatest care to guard against our ill-temper getting the best of us. We had to watch one another to avoid getting into a passion. Our nerves were all unstrung, and naturally it affected our health. I talked the matter over with some of the others, and made up my mind that possibly the Celery Compound would be beneficial, for I knew that it was used for nervous disorders at home. Well, sir, we tried it, and I must say that it helped every one of us, so much so that I might say it was a peace-maker among us.

"When the long night of six months came on and we were in darkness, we found that the effects were very depressing. Imagine, if you can, living for six months in darkness, such as occurs here every night, and you can readily understand how we were situated. It is a wonder that some of us did not go mad. We had not very much to divert our attention, and the effect was something like solitary confinement in a dark cell.

"I have used Paine's Celery Compound for a dozen ills such as a person is liable to have at any time, and especially in this desolate country. It has always helped me and I should be pleased to have more of it should I go North again.

"I do not know of any one thing that I can speak more highly or than Celery Compound. It certainly is a great medicine, and I am an advocate of it."
