A grand Fancy Dress Carnival will be he at SOURIS SKATING RINK

On Wednesday, Febuary 8th

Admission 20c and 10c.
Ticket holders in costume free.

THE DAILY EXAMINER

FEBRUARY 4 1899.

A STOLEN SEAT.

It is charged that the seat for West Elgin, in the Ontario Legislature, was deliberately stolen by the precious Liberal leaders. For instance, at a polling place called Shedden a stranger acted as returning officer. No one knew him. At the close of the poll, when the ballots were counted McDiarmid, the Conservative candidate, was only credited with 42 votes. The Conservatives thereupon came voluntarily forward and said "this is outrageous, and an outrage has been perpetrated upon us." In a couple of hours seventy-two of the best citizens made solemn declarations that they had cast their votes for McDiarmid, and subsequently ten others made a declaration to the same effect. That would give McNish (The Liberal candiate) a majority of five in that polling division, while the returns showed a majority for McNish of 85. This is only one of many outrageous and deplorable acts in the West Elgin campaign.

AGRICULTURAL EXPORTS.

There has been a large increase in the exports of the farms of Canada. In respect to cereals, etc., the yearly shipments have fluctuated greatly. Those of 1897 amounted to $17,892,646, and those of last year to $33,215,177. This branch of our export trade depends materially upon good crops and good prices. When, as frequently happens, crops are not up to the average or when prices abroad are low, our exports of grain are necessarily reduced; and when, as last year, crops and prices are both good the output is abnormally large. On the the other hand the exports of animals and their produce have steadily and continuously increased from $25,106,995 in 1890 to $44,301,470 worth in 1898. In the fluctuations on one one side and the steady growth on the other, there will readily be seen a good reason why farmers should, as a matter of policy, apply themselves to the production of animals and poultry, cheese and butter, etc., for export, rather than to grain. It has been pointed out that while our exports of animals and other products to Great Britain have been steady and continuous, they are still but as as drop in the bucket to the total consumption of such things by the British people.

—Lord Roberts, in a letter which he has addressed to the periodical War Against War, expresses what is doubtless the general feeling of soldiers on the Czar's disarmament scheme. While he has no love for war in itself, he believes disarmament will only be possible when all the nations of the civilized world agree to rest content with what they have got and never strive for anything more. But there is another consideration. What would be the fate of the inhabitants of civilized nations if they were to deprive themselves of means of defence against the barbarians, who outnumber them by many millions. Lord Roberts puts the matter in this nutshell;—What would unharmed civilization do against armed barbarism?

Money savers in boots and shoes at Jost's tonight.

The Earl of Elgin, until recently Viceroy of India, has been appointed a Knight of the Garter, in place of the Duke of Northumberland.

NOTES AND COMMENTS.

—The Diplomatic Journal says the Sultan is about to protest to the powers against the British protectorate system and to reassert Turkish suzerainty over Egypt.

—To get the Liberal-Conservatives to give them a majority in the Legislature seems to be the main object of the Liberals of New Brunswick. The Liberal-Conservatives seem to think that they have done this long enough.

—A colony of Mennonites and Dunkards from Indiana is coming into Canada next spring. In addition a colony of about seventy-five families of Belgians will remave into Canada from Michigan. Canada will soon be a country of "all sorts."

—The Boston Herald, in suggesting the holding of an impartial enquiry into the causes of the loss of the battleship Maine in Havana harbor, says that "as time goes on, the opinion in many quarters is strengthening that the explosion was due, not to an exterior mine, but to interior combustion."

—Mr. Balfour, in the course of a speech delivered at Manchester a few days ago, expressed his strong conviction that the present friendly feeling between Great Britain and the United States will be permanent, and he deprecated the cynical view that it will disappear it the material interests of the two nations interfere with each other.

—In Quebec the tidiest and best farmer in the province is particularly distinguished. A gold medal is given to the farmer who has the best kept farm. This was recently won by Mr. F. O. Lachappelle, of St. Paul l'Emite' who has been declared "Laureate of the Merite Agricola for the province of Quebec, 1899." Agriculture has made great strides in Quebec in recent years.

—When Mr. Blair—now Minister of Railways—became Premier of New Brunswick the net debt of the Province was $737,997; and now the net debt is about $2,500,000. In 1884 the Province paid in interest on debenture and floating debt $63,000. In 1893 the payment on debenture debt alone amounted to $127,000. Still the Liberals want to hang on to office,—all for the good of the country, of course!

—A practice prevails in New York this season of serving hot coffee and sandwiches to the coachmen of the guests at big dinner parties, receptions and balls. The idea was suggested last winter by Bishop Potter, after an accident caused by the drunkenness of a coachman who carried a bottle of whiskey in his pocket to keep his blood warm, and declared that he could not prevent numbness in his arms and legs without taking something warm inside of him.

—The Patriot of last evening says that "it was not thought that his (Mr. Reid's) majority would be as large as Mr. Bell's." This is a neat way of putting it. No one would imagine on reading the Patriot's article that the Liberal majority in the Bedeque district had been brought down from 229 to 90. This marked reduction is all the more significant in view of the fact that the total vote cast in the bye election was considerably larger than in the general election. Mr. McQuarrie, in point of fact, polled 181 more votes than Mr. Ross, while Mr. Reid polled only 42 more than Mr. Bell.

LOCAL NOTICES

Where do you buy your white shirts? We have a new line—with a bosom that won't bulge, won't crush, perspiration can't spoil—$1.00 and $1.40.—Moore & Co.

Our great white goods sale is now on. The whitest note papers, envelopes, foolscap, etc, etc. The largest stock, the lowest prices you ever saw, call to day and see Geo Carter & Co.

Lord Hallam Tennyson, son of the late Lord Alfred Tennyson, the poet laureate, has been appointed governor of South Australia.
