**There's
no doubt
in
her mind**

When it comes to choosing the right sanitary protection, there is no doubt in her mind. She uses Tampax tampons and has, right from the start. They were developed by a doctor, so she knows they're safe. And they give her the protection she needs.

Tampax tampons are softly compressed to give better absorption. And they're the only tampon that comes in three absorbency-sizes: Regular, Super and Junior. Because they're internally worn, there are no bulky pads, pins or belts. So she's free to dress the way she wants and do what she wants, every day of the month.

Use Tampax tampons, without a doubt.
