Labor Asks Nfld. Gov't To Ease Sales Tax Load

CORNER BROOK (CP) — The Newfoundland Federation of Labor Wednesday urged the provincial government to abolish sales tax on food and school supplies.

One unidentified delegate to the federation's week-long 22nd annual convention called the tax "a blow below the belt for the working classes." The resolution was one of 10 passed by the 81 delegates.

The federation also set up a committee on education to promote labor participation in the Canadian conference on education. A one-week annual labor school will be established to cooperate with schools in New Brunswick and Nova Scotia.

Another resolution urged the executive to provide an NFL news media to keep the public informed of federation activities.

BWARE HIGH FEES
In its annual report, the federation's council urged the provincial government to beware of high medical fees that may defeat the purpose of the national hospital plan.

Harry Ladd of Toronto, president of International Woodworkers of America (IWA) District 2, told the convention earlier it was "pur rubbish" that IWA demands forced a local woods contractor to go out of business.

W. J. House, owner and manager of Pulpwood Sales Limited here, said last week he was going out of business because of demands by an IWA union certified recently to bargain for his employees. Mr. House said the union left him no other choice.

The IWA local is reported to have asked for the work week to be reduced to 48 hours from 60 and a 65 per cent increase in the undisclosed hourly wage.

Mr. Ladd did not elaborate on his statement about the company's decision.

WANT MORE ACTION
He expressed support of a resolution before the federation urging a speed-up in the handling of certification applications by the Newfoundland Labor Relations Board.

Mr. Ladd told the convention of delays encountered by the IWA in efforts on behalf of loggers. Three times in two years applications for certification had been made, backed by a majority of loggers employed by woods operator under contract to Bowater Newfoundland Pulp and Paper.

Much of the delay, he said is the fault of the Labor Relations Act, which does not provide for time limits.

Unions have given up the "strike weapon", Mr. Ladd added, to gain their ends through an orderly method. But "justice delayed is justice denied," he said.

TO PROTECT RIGHTS
He said the IWA entered Newfoundland to see that rights of woods workers were protected sought a proper wage scale for the logger. "The mill worker gets \$1.72 an hour. Why should the logger be satisfied with \$1.05 per hour?"

He predicted the paper mill workers and the woodworkers would someday come to such a convention as "brothers of the same union."

Rebuilding Of Shed Considered

MONCTON (CP) — The CNR said Wednesday plans are being studied for rebuilding a portion of a New Glasgow freight shed destroyed by fire Sept. 6.

Railway officials here said a "thorough investigation" is continuing to determine the cause of the fire. A spokesman said no evidence of arson had been uncovered and so far there has been no evidence to show that the blaze was caused through electric wiring or spontaneous combustion.

Full damage has been assessed at \$47,000. The burned portion of the building contained shipments of appliances, toys and foodstuffs.

Meanwhile, incoming freight to New Glasgow is being unloaded at Stellarton two miles away and is shipped to consignees by truck.
