BAG-PIPE ORIGINS

Historians have been able to trace the origins of the bag-pipe to Greece in 100 AD and believe they may have been known in ancient Persia.

W. German Shipbuilders In Trouble

HAMBURG, West Germany (AP) — West German shipbuilders have called for im-mediate government aid to save their industry from collapse.

Adolf Westphal, chairman of the Shipbuilders' Association, said German yards — ranking third behind Japan and Britain in total tonnage — were in a state of crisis because of the "distorted competitive picture" of the world market.

Westphal named subsidies by foreign governments and "political prices" as the main distorting factors. He warned that unless the Bonn government takes action, the West German shipbuilding industry will "bleed to death."

He proposed immediate tax relief, "counter subsidies" and government - backed easy financing terms for domestic and foreign orders as some of the remedies required.

Concern over the future of the shipbuilding industry has become acute since the Willy Schlieker concern, one of Europe's most modern shipyards, went bankrupt last month with debts put unofficially at 100,000,000 marks ($23,000,000).

POLICE FLEE FROM ESCAPEE

MONTREAL (CP) — Two burly policemen, both armed, fled in terror Wednesday when the prisoner—a skunk—made an escape bid.

They had "picked up" the prisoner on an early morning round of a downtown street by lifting it by the tail.

With their hind feet off the ground, skunks are robbed of the leverage necessary for squirting.

They kept the animal locked up for several hours. The skunk tried to escape when the officers were carrying it by the tail to the police van for transfer to SPCA headquarters.

One of the officers dropped the skunk when it lunged at him with teeth bared.

The prisoner and policemen fled in opposite directions, the skunk escaping along railway tracks in the west end.

Tranquillizers Are Checked

OTTAWA (CP) — The federal health department has checked two tranquillizers on sale under prescription but has found no indication they may be associated with birth deformities.

A departmental spokesman said here. British and United States drug authorities were asked about the tranquillizers because their chemical structures were in some ways similar to that of thalidomide, a sedative which has been blamed for birth deformities in 50 to 60 Canadian babies.

The check was made when it became evident to the department that thalidomide might be the cause of deformities. Since no evidence could be found that the two drugs produced effects similar to thalidomide on the newborn, they remained on the prescription list.

Nazi Cells Said In Latin America

COPENHAGEN, Denmark (Reuters) — A network of Nazi cells has been set up throughout Latin America and is only waiting for a suitable time to foment trouble for Jewish communities there, Dr. Israel Goldstein, world chairman of the "Keren Hayesod" United Israel Appeal, said here.

Goldstein, former New York rabbi here to open an appeal for funds to assist settling immigrants in Israel from other countries, told a press conference that many Jews in Argentina feel worried and uncomfortable over recent ant-semitic manifestations there.

Government spokesmen have denounced the attacks but little action has been taken, he said.

"We can only hope the government will become more stabilized," he added.

Some of the youth responsible are true Nazis, others young hoodlums, and in some cases they are sons of highly placed persons, Goldstein said.

The number of immigrants from Argentina to Israel has increased in recent months, he added.

WANTS FREE CALLS

TORONTO (CP) — It should be possible to make emergency calls from a pay telephone without using a dime or two nickels, Alderman Joseph Piccinni has told the city works committee. He cited a woman involved in an accident who could not make a call because she did not have any change in her purse, just bills. The committee asked Works Commissioner Douglas Ford to speak with Bell Telephone Company.

CONTRACT BRIDGE

By B. JAY BECKER

QUIZ

You are the dealer, neither side vulnerable, and have opened One Club. Partner responds One Heart. What would you now bid with each of the following five hands

1. ♠62 ♥KJ92 ♦A4 ♣AQ988
2. ♠Q93 ♥AJ5 ♦Q87 ♣KQ82
3. ♠AQ ♥QJ73 ♦K6 ♣AK854
4. ♠A952 ♥— ♦AJ4 ♣KQJ932
5. ♠AQ7 ♥AJ ♦QJ3 ♣KQJ64

1. Three hearts. The high-card range for an opening bid of one in a suit is normally between 12 and 21 points. Naturally, with a range so wide, the opening bidder has an obligation to reveal the exact strength of his hand as soon as he can. In evaluating his hand, the opener counts not only his high cards, but also the distributional features, giving weight to how well his hand fits partner's responses.

Thus, this hand, with only 14 high-card points, is worth much more than that in the light of partner's announced heart length. The heart response raises our hand from the minimum class. The jump to three hearts requests, but does not force, partner to go to game. It shows about 18 points.

2. One notrump. This hand is of the minimum class and partner is so informed by the sign-off rebid of one notrump. It is better to bid notrump than raise hearts. The notrump rebid announces balanced distribution at the same time as it reveals minimum values. A raise to two hearts would be more encouraging and would suggest distributional values that we do not have.

3. Four hearts. This is a strong bid and an indirect slam try. It states that ten tricks can probably be made even though partner's heart response may may have been based on just 6 points. It would be wrong to bid only three hearts because partner could properly pass if he had minimum values for his first response. Partner should not be given a chance to drop the bidding under game.

4. One spade. The heart response greatly reduces the original evaluation of the hand. However, it would be wrong to bid two clubs because that might cause partner to think our hand was of the dead minimum class, which it is not. The spade bid has the advantage of showing indeterminate values and is more apt to induce a further bid from partner. The inequality of the two suits is ignored in order to make a constructive rebid.

5. Three notrump. Partner is given no opportunity to let the bidding die under game. Here, also, as in the third hand above, partner is told that even though he may have responded with only 6 points, a game is in the bag. The jump to three notrump shows at least 20 points.

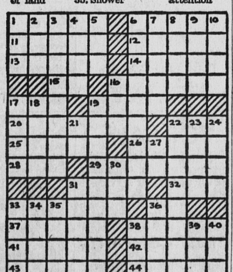
Yesterday's Answer



8-31

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.
