London, June 8.

In the House of Lords, this evening, Earl Harrowby gave notice that he should move that the reading of the Irish Church Disestablishment Bill be postponed six months.

The *Times* refers to the fact that some of the Tory Peers decline to follow the policy in regard to the Irish Church Bill determined on by the majority at the meeting last Saturday, and trusts that the danger of a collision is past.

The experience of the last few day reaffirms the truth that in a direct issue the Lords must allow the national will to prevail.

The present appearances indicate the passage of the Bill by a small majority.

CRICKET.

THE Prince of Wales' and the St. Dunstan's boys have, for the third time, contested the palm at Cricket, and, as usual, the victory resulted in favor of the latter. On Thursday last quite an interesting match came off between the junior Clubs of the two Colleges, on the beautiful grounds of Stephen Swabey, Esq. The Prince of Wales eleven having lost the toss, went in first and scored 14; the St. Dunstan's eleven followed them with a score of 38. All were then invited to partake of refreshment, very kindly provided by Mr. Swabey, who appeared to take, during the whole day, a very great interest in the match. When the refreshments were over, and the young lads quite recovered from the fatigue of the first innings, the Prince of Wales eleven returned to the wickets and were disposed of by their opponents after scoring 28. Their opponents had only five to make to win, which they did without the loss of a wicket. We were, indeed, surprised to witness the apparent good cheer with which both Clubs left the grounds—the one not too dejected at their defeat, nor the other too elated at their victory.

On Thursday a match was also played between the St. Dunstan's eleven and eleven of the Charlottetown Cricket Club, which resulted in a victory for the latter.

All the sittings in the Church are free.—Ist.

☞ WE notice that the Gas Light Company are divesting our Streets to-day of the Gas Lamps. This is a move in the wrong direction. No blame, we believe, can be attached to the Gas Company for this step. We shall have something to say on this matter at another time.

☞ Some original and other matter is crowded out this week.

We would call the attention of the Trade to the Sale of Fancy and Staple Goods at the Sales Room of N. Rankin, Esq., on Wednesday next, now open for inspection.

THE Centre of Attraction, to the Ladies at all events—and to some of the gentlemen too if we mistake not—is over at our friend Robert Young's. And certainly he displays a very fine lot of goods, and that too, at prices that are perfectly astonishing. We would certainly advise all who wish to lay out their money to the best advantage to give him a call.—COM.

The Steamship "Oriental," which has been placed on the line for a few weeks in room of the "Alhambra" arrived at this port on Wednesday morning. Having discharged her passengers, 814 bbls flour, and some merchandize the Oriental left for Boston in the evening of the same day, via Canso, Halifax, etc.—IB.

Several Valuable Building Lots in Charlottetown.

THESE LOTS form the plot of ground upon which the soldiers were encamped for several months a few years ago. KENT STREET

CLOTHING STORE.

THE Subscriber takes this opportunity of returning his sincere thanks to the numerous friends and customers who have so liberally patronized him for the last ten years, and begs to intimate that he is still to be found at his old stand,

Kent Street,

where he will be happy to wait upon those who may favor him with their patronage. He trusts that by punctuality and attention to business to merit a continuance of public confidence. As regards cutting, he may say, that having learned that branch of his business from one of the best cutters in British North America, Mr. Henry Found, and having since had every facility for studying the latest improvements in the art, he can guarantee to cut garments as well as those who make more pretensions. He may safely add, that he is the only tailor in Prince Edward Island who ever learned Mathamatics, as certificates, while a student in the old Central Academy, under Messrs. Kenny and Humphreys—still in his possession—will show. Consequently, so far as Mathamatics is concerned, he can apply that science to cutting, which is more than those who never studied Euclid can do.
