temperate and dignified tone which characterizes your share of this correspondence, and the judicious manner in which you have conducted it.

After the fullest consideration which I have been able to bestow upon the subject, I am of opinion, that all retiring Members of the Executive Council should, as a *general and fixed rule*, retain the title which they enjoyed while in office. It may be that this extension of the privilege will, in some degree, lessen the value of the honor to be conferred; but on the other hand to limit the retention of the title to those Members only who have served either "for very considerable periods," or "with peculiar distinction"—qualifications of so indefinite a nature, also render the selection a task at once difficult and invidious—is a course which I conceive to be open to grave objections. Such a rule must expose the Governor, with whom the selection rests, to frequent and unmerited charges of partiality, and must also tend to create feelings of disappointment and jealousy, detrimental to the tranquillity and well-being of the community.

On the other hand, I consider it to be for the the interest of the Province that every fair inducement should be held out to men of ability and character to enter the public service, and the establishment of a general rule, whereby the political service of the Crown in the Colonies shall confer rank and precedence for life, would I believe have the good effect of giving the head of the local Government a wider range for the selection of his advisers, by rendering men of standing and ability in the Colony, who would not otherwise be candidates for public employment, desirous of being selected for this mark of Her Majesty's approbation.

Unless, therefore, there exists any special grounds of objection, of which I am not aware, I have to instruct you to inform the Members of your late Council, that Her Majesty has been pleased to approve of their retaining the rank and titles which they held while Members of the Government of Prince Edward Island.

I have the honor to be, Sir,
Your most obedient humble servant,
JOHN S. PAKINGTON.

Lieut. Governor
Sir Alexander Bannerman, &c., &c., &c.

In accordance with the instructions contained in the foregoing Despatch, addressed to His Excellency by the Right Honorable Sir John Pakington, Secretary of State for the Colonies, the following gentlemen, Members of the late Executive Council, who retired from office in April, 1851, will retain the rank and title which they held while Members of the Government of Prince Edward Island:—

Ambrose Lane	Charles Hensley
Thomas Heath Haviland	John M. Holl
Robert Hodgson (since appointed Chief Justice)	Edward Palmer
	Edward Thornton
	Daniel Brenan.
Geo. Richard Goodman	

And in terms of the general rule established by the Colonial Minister in the same Despatch, Stephen Rice, presently a Legislative Councillor, having retired from the Executive in March, 1852, will also retain the rank and title which he held while a Member of the Government of Prince Edward Island.

By His Excellency's command,
JAMES WARBURTON, Col. Sec'y.
Secretary's Office, Jan. 21, 1853.

ENGLISH AND COLONIAL MAILS.—The last Colonial Mails received here, were brought to town, by the Courier, on Wednesday night last. Nearly every thing of public interest that our exchanges contain, has been transferred to our own columns. A Telegraphic Despatch, as given below, has put us in possession of the principal items of the latest news from England. Our English Mail has not, however, yet reached us; but is hourly expected. The delay is, no doubt, attributable to the unfavourable state of the Straits.

Schr. Margaret, Griffiths, 16 days from Bermuda, bound to P. E. Island, put into Antigua on the 3rd ult., from stress of weather.

Straits of Canso, Dec. 27.—*Extract of a Letter.*—The Schr. William, of Picton, Furlong, master, from P. E. Island, bound to Boston with a cargo of oats, 2840 bushels, was condemned and sold at auction, at Pirate Cove, on Friday last. The oats averaged about 1s. per bushel; the hull, after being stripped of everything, including small spars, was bought in by Mr. John Honson, for £66—only for the difficulty anticipated in getting a new register, would have sold well, as there is no appearance of any damage.

The Schr. Pursuit, of St. Mary's, Murdoch, master, from P. E. Island, bound to Boston, with a cargo of Grain, is refitting at Sleep Creek, and will proceed as early as practicable.

A large topsail schooner went ashore on Tuesday night, at Bear Island, said to be from St. John's, N. F., bound to P. E. I. with Herrings, &c. It is probable she will be got off, as she lies in a smooth beach and in a safe position.

THE ELECTRIC TELEGRAPH.—If we have experienced some difficulty in getting our Power Press into operation, the scientific projector of the Electric Telegraph has, in like manner, had to encounter many unexpected obstacles in the establishment and working of his line. We are, however, glad to have it in our power to congratulate both him and the public, on the success which has attended his enterprise so far, and the confident hopes entertained that it will, before long, fully realize all che advantages, both public and private, which have been expected from it. Last week, it was in full operation between Charlottetown and Sackville; but, at present—owing to some unknown cause, which they are anxiously endeavouring to discover and rectify—all communication by it is interrupted. When again brought into operation, by means of it, in connection with other lines, communication may be held with every part of the North American Continent where Telegraphic stations have been established. The posts for the extension of the wires, have, we understand, been laid down between Charlottetown and East Point—Souris and Georgetown—and Cape Traverse and St. Eleanor's, ready to be erected in the Spring, as soon as the frost is out of the ground.

LIGHTING CHARLOTTETOWN WITH GAS, &c.—To-day, a Public Meeting was held to receive the Report of the Committee appointed, on a former day, to procure information, &c., relative to lighting Charlottetown with Gas. Much valuable information was communicated by the Committee, who seemed to have spared no pains, in correspondence and otherwise, to have the necessary details for insuring a prudent and successful carrying-out of the project. Resolutions were carried for establishing a Company, opening a Subscription List, appointing a Committee to obtain the names of persons wishing to subscribe, and petitioning for an Act of Incorporation. It is in contemplation to raise the sum of £6000 currency, in Shares of £5 each. One gentleman present offered to take shares to the amount of £1000.

MRS. LEWIS.—We regret that our dependence upon information which was afterwards found to be false, caused us to insert, in our obituary of last week, the death of Mrs. LEWIS, who, although in the 101st year of her age, is still going about, and, apparently quite as well as she has been at any time during the last twelve months.

OUR PRESS.

Some disappointment, we apprehend, may have been occasioned amongst our friends, by the lateness of our issue, both last week and the previous one; and, therefore, that they may not attribute the irregularity to any other than the direct cause, we beg leave to call their kind attention and consideration to the subjoined facts, in which they will find a full, and, we hope, satisfactory, explanation of it.

We had made arrangements to have our Power Press shipped from New York by the 1st Nov. last, in the Schooner *Minnie*. Had this been done, we should have had it here by the 1st December; and should, consequently, have had sufficient time to have it, and every thing in necessary connection with it, in order for the publication of our first number in January. Owing, however, to a break-down in some of the machinery of the Messrs. Hoe, the engineers of whom the Press was purchased, they were not able to ship it before the 3d December, and we did not receive it until the 1st January. Had we been able to retain our large Hand Press, this delay would have occasioned no inconvenience; but, having agreed to sell and deliver that Press, in the first week of January, we had not that to fall back upon; and had, therefore, to put our Power Press into immediate operation, and, without any time for experimental trials, patiently to contend against the difficulties, incident to the proper adjustment of the parts of so complicated a piece of new and untried machinery, as well as those which arose from our inexperience of the mode of working it and the effecting of the proper adaptation of speed to its movements. We have now, at length, however, got the whole into pretty good working order; and shall be glad to receive orders of every kind in the printing line; satisfied that we shall be able to accomplish all with which we may be favored, in a satisfactory manner, and at very low rates.

Next week, we will give a description of our Press, and enter further into the details of our establishment.

In the meanwhile, as we know that many of our friends are desirous to see our Press in operation, we have made arrangements for their admission—not more of them, however, than one or two at a time—into our Press Room, at proper times, by Tickets, which, on application at our office, they will receive—*gratis*, of course.

☞The Meeting of the Horticultural Society, advertised to take place on the 31st January, is postponed to Tuesday the 15th February next, at 3 o'clock, p. m.

PUBLISHED IN BOSTON, MASS.,

WILL commence on the 1st of January, 1853, a new Volume—being Volume IV—of this elegant illuminated Journal. It will appear with new type, new heading, and splendidly improved in every department, besides which, the price is to be greatly reduced. The publisher is resolved to commence the new year with a circulation of one hundred thousand, and, therefore, offers the most liberal inducements to clubs. Realizing the spirit of the age, the great improvement in art, and the constantly increasing intelligence of the people, the publisher, with this change of prices, will vastly improve his already splendidly illustrated journal. Especially will a great improvement be manifested in the engraving department, as well as in the literary character of the paper; so that the Pictorial shall appear in a style, not only to merit all the encomiums of praise so lavishly bestowed upon it, but also as to challenge increased respect for its enhanced excellence and perfection. In short, the whole paper will be far superior to anything ever yet offered to the public by the publisher. Improvement of HASZARD'S GAZETTE.

TWICE A WEEK! IMPORTANT TO TOWN and COUNTRY SUBSCRIBERS

THE management of the Newspaper which, for the last 30 years, has been successfully conducted by J. D. HASZARD, Esq., is now transferred to the Subscriber, who will assume all the responsibilities thereof after the publication of the present number.

The circulation of *Haszard's Gazette* is, at present, and has always been, greater than that of any other newspaper in this Colony; and—availing himself of some of the greatest recent improvements which have been made in the art and machinery of the Printer,—its new proprietor and publisher hopes he shall be able still to secure for it the first place in the public estimation.

To this end, he has, at a considerable outlay, purchased a POWER PRESS; and, on his premises, made the alterations and additions which were requisite for its proper erection. About the beginning of February, he expects to have it in perfect working order; and—that being accomplished—he will, afterwards, issue *Haszard's Gazette TWICE a week*, of the same size as that in which it is at present published, and, to *Subscribers*, at the same price. The advantages which, from this LIBERAL ARRANGEMENT, will accrue to Subscribers and Advertisers, are so apparent, that they require no comment, and a due appreciation of it, by the public, will, it is hoped, appear in the increased patronage bestowed upon the Paper.

The Editorial Department will be entrusted to the management of a gentleman, whose ability and experience as a writer for the newspaper press, combined with the liberality and moderation of his political sentiments, are such as to afford a good guarantee for the future utility and popularity of the Paper.

By copious extracts from ENGLISH PAPERS; by approved and well-written TALES; by articles on AGRICULTURE and GARDENING, so timed as to have direct relation to the immediate objects of the farmer's skill and labor; by MORAL and RELIGIOUS matter, free from sectarian bias; and by comprehensive notices of Social and Political Reformations, now happily in progress amongst all the civilized nations of the earth, there will always be manifest in the management of HASZARD'S GAZETTE, an earnest desire to provide valuable and acceptable instruction and entertainment for all classes amongst its readers.

And, further,—that the patrons of Haszard's Gazette may be duly apprised of all PUBLIC NOTICES proceeding from the Government,—they will regularly appear in it—*gratuitously* published—under one general head.

For the transmission of IMPORTANT NEWS, by means of the ELECTRIC TELEGRAPH, the subscriber has also made arrangements with CORRESPONDENTS in Halifax, St. John, and Boston.

COMMUNICATIONS directly bearing on the general interests and well-being of the community, will always be thankfully received.

GEORGE T. HASZARD.

The dismantling of estates is still going on in Jamaica. 80,000 tons of old copper, which had been used in the manufacture of rum and sugar, had been exported to the United States.
