

GLAZING FROM LATE PAPERS.

THE TREATY BETWEEN AUSTRIA AND TURKEY.

The following is the text of the Convention between Austria and the Porte, which appeared in the London Standard of the 27th inst.

His Majesty the Emperor of Austria, fully aware that the existence of the Ottoman Empire is necessary for the maintenance of the peace of the State of Europe, and that in particular the Emperor of the Danubian Principalities, in view of the conditions of the integrity of that Empire...

His Majesty the Emperor of Austria agrees to exhaust (epuise) all the means of negotiation and others, to obtain the evacuation of the Danubian Principalities by the foreign army which occupies the same, and the increase of the number of troops necessary to effect the same.

It shall appear, for this case exclusively, to the Imperial commandant-in-Chief to be the person to whom the Emperor will, nevertheless, take care to inform, in due time, the Commandant-in-Chief of the Ottoman Empire of the progress of his negotiations.

His Majesty the Emperor of Austria agrees to maintain the integrity of the Danubian Principalities, and to respect the sovereignty rights of the Imperial Majesty the Sultan and the integrity of his empire.

The Emperor of Austria agrees to maintain the integrity of the Danubian Principalities, and to respect the sovereignty rights of the Imperial Majesty the Sultan and the integrity of his empire.

The Emperor of Austria agrees to maintain the integrity of the Danubian Principalities, and to respect the sovereignty rights of the Imperial Majesty the Sultan and the integrity of his empire.

The Emperor of Austria agrees to maintain the integrity of the Danubian Principalities, and to respect the sovereignty rights of the Imperial Majesty the Sultan and the integrity of his empire.

CAUGHT AT LAST—Our readers will doubtless recollect the "whale" which was captured by the whaler ship "St. Ann Alexander," Capt. Dubois, being stove by a sperm whale in the Pacific ocean. Recently Capt. D. has been again successful in capturing the "Vigilant."

The Earl of Arrol and Halloway's Pills.—An astounding cure by this miraculous medicine, extracted from the finest medicinal plants, is given in his lordship's letter, dated Villa Maestria, Florence, February 21, 1854.

HASZARD'S GAZETTE.

Wednesday, August 2, 1854.

We give the following announcement from the London Standard of the 27th inst. "We are informed that on Thursday, the 29th inst., the Hon. Mr. Hall, as leader of the government, will move in the House of Commons...

On reading the above, the one is at a loss to know whether the Hon. Mr. Colver is to be dismissed, but at the same time expressed a wish that the Hon. Mr. Colver should be dismissed, as, while longer, the more peaceful and pleasing employments of a rural life.

On reading the above, the one is at a loss to know whether the Hon. Mr. Colver is to be dismissed, but at the same time expressed a wish that the Hon. Mr. Colver should be dismissed, as, while longer, the more peaceful and pleasing employments of a rural life.

THE GROWTH AND PROGRESS OF BOSTON NORTH AMERICA.

Continued from Blackwood's Magazine, for July, 41. Having given to our readers the population and resources of New Brunswick, we now present to our readers a sketch of Nova Scotia.

The province of Nova Scotia next claims our attention, by the rapidly of its recent growth in commerce and population, the letter of which is translated from the Boston Herald of the 15th inst. In 1817 the population of Nova Scotia and Cape Breton amounted to 91,515. Its subsequent growth has been as follows:

1827. 1832. 1851. Showing an increase of 244 per cent. from 1838 to 1851. Excluding Cape Breton, whose population is not included in the above, the population is to inhabitants nearly 40 per cent.

The progress of the province, as indicated by its chief port, Halifax, being ascribed to a calling station for the great mercantile trade of the British Empire, and the United States; and its progress must be materially aided when the railway communication between Halifax and the interior, and those which are in progress from Lower Canada to the Atlantic coast.

working establishments of a self-sufficiency character, and the improvement of the country has been very striking during the past few years, the total value being, in 1849, 7,321,925 dollars; 9,659,695 in 1850; and 11,000,000 in 1851.

But before we enter into a comparative estimate of the progress made by both and by our countrymen, it is necessary to ascertain the means of ascertaining the sentiments of the writer's friends as to what is to be the future fate of the Colonies.

When we come to regard British America as a whole, there are some considerations with respect to the future of the Colonies which are of great importance. In various provinces there was in 1851 a population of close upon two millions five hundred souls, and the number of the most numerous consumers of British produce, and employing a large amount of British capital and shipping, which probably exceeds the population of any other country in the world.

NEWS BY LAST NIGHT'S MAIL.

The only important item of European News is the report of the success of the Spanish Insurgent Force, under Generala Dada and O'Donnell held their ground against the British troops, and the British troops were still more mortally debased. Mamma, has long been the object of the Spanish nation, and alienated the army. The unmistakable confession of defeat given by Isabella to the British troops, and the subsequent coup d'etat and subversion of the constitution...

The Collins Steamers.—The Washington Star learns that a great improvement is about being introduced in the steam machinery of the Collins line of steamers, and that the introduction of the new machinery will prevent the condensation of steam in its passage between the boiler and cylinder, and will also prevent the loss of heat by the use of an additional furnace directly operating on the connection between the boiler and cylinder.

The New Orleans Delta meeting and accident.—The Delta meeting was held on Sunday, the 24th ult. Two young men, while rowing in a skiff were capsized, and one of them, Mr. A. M. M., was drowned. The other escaped unharmed.

The town council of Marion, Ala., fixed the license for retailing liquor at \$1,500 per annum, and for wholesale at \$2,000 per annum. An enterprising individual was, however, about to open a shop, even at this high rate, and the council met again and raised the license to \$3,000.

The Hamilton Spectator deprecates the fact that the Government are about to grant a license to the potato root, which is almost as destructive as the "rot." The new enemy is a sort of cutworm, which attacks the roots, and the potato roots quite bare in the brief space of a few hours.

The potato root is said to have already appeared in the State of New York, and is now spreading rapidly. The steamers Admiral, from Boston to St. John, N. B., has been totally wrecked.

To the Editor of HASZARD'S GAZETTE. Sir.—The Scottish Rights Association has now been organized, and its first meeting was held on the 27th inst. The Association has lately been issued. I know that many of your readers will feel much gratified to see the Association thus organized.

Edinburgh, Glasgow, Perth, and Inverness, at the invitation of the Association, and the movement was supported, and Petitions to Her Majesty, praying for the restoration of the office of the Secretary of State, were presented to the House of Commons, and the removal of the grievances under which Scotland is unjustly made to suffer, was the object of the Association.

The present position of the Association is as follows:—The Association has now more than 300 Associates who enrolled their names in the Association, and the west country generally, have come forward in the good cause, with an ardor and zeal which is highly gratifying to the members of those Associates who reside in other parts of the country.

In again writing to our fellow-countrymen, we may advert to the absurd misrepresentations which have been made by the press, and the ignorance, malice, or willful departure from the truth. Unscrupulous efforts have been made to misrepresent the Association as a party which we were actuated not by a desire to place the Scottish citizen on a footing of full equality with the English citizen, but by a spirit of hostile hostility to the sister country. Such representations are entirely false.

Such are our objects—objects which we believe to be in accordance with the true and good will towards their fellow-subjects of the other side of the Tweed, and with the utmost regard to the honor and glory of the Empire.

evidence of your self-educating energy and zeal for the good of our present and future welfare. For these and other reasons, which we cannot here enumerate, we beg to assure you that your name will be inscribed in our list, and we are at the present time, most anxious to see you in person, and to be assured that whoever that will be appointed immediately, and to resign from the office of Secretary, and to respect to you as yourself. We cannot but be glad to pay, or to receive, the praise of those who are so anxious to see you in person, and to be assured that whoever that will be appointed immediately, and to resign from the office of Secretary, and to respect to you as yourself.
