### Fire Damages North Shore Packing Company Plant

Fire at the North Shore Packing Co. plant at Malpeque, which broke out about 5:15 yesterday afternoon, spread to the cooking room before being extinguished. The outbreak originated in the boiler room, presumably from an overheated boiler, and raged with such intense heat that the stone-board in this fire resistant section of the building became so hot that it melted and carried the flames upward through the room, permitting the fire to reach the cooking room where considerable damage was done, mainly from water and from cutting to get at the fire.

### Canvass by S'side Lions Successful

Once again the Summerside Lions Club has brought a fund raising drive to a successful conclusion. This was due to several factors, each of which played an equally important part in reaching the objective. This particular project, of selling electric light bulbs by house to house canvass was a new venture for the local club. In fact, it is probably the first of its kind ever effected on the Island. For this reason it called for special organization and Lion Buddy D'Atte has been selected to head the committee and bring the campaign to fruition. Assisting on the committee were Lions Wendel Rogers and Herb Schurman. Of course, one hundred per cent co-operation from each of the 25 Lions Club members was necessary and it is worthy of note that every man gave unstintingly of his time.

Local business houses greatly assisted by contributing a valuable space in their newspaper and radio advertising for the promotion of the campaign. However, without the generous support of the local citizens who received the workers so kindly and who bought without stint, it would have been impossible to achieve the success registered. Grateful thanks also to Mrs. Ralph Ozon and Mrs. Raymond Grant for assistance in rendering in tabulating sales on the night of the campaign. To all, including the press who in the past have given much space in reporting the activities of the Lions Club, the officers and members of the club express heartfelt appreciation and give assurance that all monies will be used in promoting such community projects as will merit continued support.

### Graduation Exercises For Kensington Senior Grades

Graduation exercises for the senior grades of Kensington school were held last evening in King George hall which was being used to accommodate all the parents and friends who were present to witness the event.

Mr. Austin Pendergast, a member of the school board, presided and introduced the guest speaker, Dr. L. W. Shaw, Deputy Minister of Education.

Mr. Shaw, in remarks to the students, and particularly the grade eleven graduates, pointed out the advantage that they had in being able to carry on their education in their home district on completion of the new high school this fall, which will add grade twelve to the facilities now provided.

He told the students that the present condition of the world was a challenge to the young people to tackle the many problems through the ever improving scientific and educational facilities available today.

He cautioned that while they had, in most cases, been given greater opportunities for learning than their parents had been privileged to enjoy, that with this went the responsibility for the achievement of the greater things which were expected of them.

Dr. Shaw said he was happy to attend the graduation because of the intense interest of the people of the district in what was going on educationally in Kensington and he congratulated the citizens on their initiation of the new high school, which he said was an investment which would pay untold dividends for many generations to come.

Mr. Roscoe Walker, president of the Home and School Association, congratulated the graduates and students on the fine work accomplished during the school year, and made remarks preliminary to the presentation of gifts to three teachers who are leaving the teaching staff of this school, namely, Miss Mary Johnstone, grade XI teacher; Miss Lorraine Hughes, grade VIII and IX teacher; and Miss Irene Flood, music teacher.

A presentation by the Home and School Association was also made to Rev. L. M. Murray for his assistance to the music department of the school. Presentations were also made by the students to their respective teachers.

### McInnis-Rankine Nuptials

St. Mary's Anglican Church, Summerside, was the scene of a double-ring wedding on Friday evening, June 17, 1955, at 7 p.m. when the Ven. Archdeacon G. R. Harrison united in marriage, Gloria Marina, daughter of Mr. and Mrs. James G. Rankine, to Gordon Frank, son of Mr. and Mrs. Frank McInnis.

The bride entered the church on the arm of her father, preceded by the church choir singing, "The Voice That Breathed O'er Eden." The bride wore a floor-length gown of white nylon fashioned with tight fitted bodice, sweetheart neckline and long tapering sleeves forming points over the hands. The full skirt was fashioned with over skirt of nylon net. Her headpiece was a tiara of brilliance with finger-length veil of embroidered nylon net, and carried a cascade bouquet of aristocrat roses. She was wearing pearl earrings, and a strand of pearls, the gift of the groom.

Miss Betty McInnis, sister of the groom, acted as bridesmaid and wore a floor-length gown of salmon pink net over taffeta with fitted bodice, long-sleeved lace bolero and peter pan collar. Her headpiece was shirred nylon net and sequins in matching shade. She carried a colonial bouquet of Queen Elizabeth roses.

Mrs. Rankine, mother of the bride, wore a street-length dress of nylon sheer in navy with check taffeta trim. Her accessories were of white and her corsage of bettertime roses. Mrs. McInnis, mother of the groom, was attired in a street-length dress of navy taffeta. Her accessories were of natural, and her corsage of American beauty roses.

The groom was supported by his brother, Mr. Edward McInnis, Mr. Richard Savidant and Mr. James Ogden were the ushers. The church was beautifully decorated for the occasion with copper bowls of yellow mums on the altar. The guest pews were marked with large satin bows and shasta daisies. During the signing of the register, Mr. Robert Schurman sang "Because", accompanied by the church organist, Mr. Everett Penwarden.

Following the ceremony a reception was held for 60 guests at St. Mary's Church hall, which was beautifully decorated with spring flowers and tall white tapers in silver candlesticks. The bride's table was centered with a three-tier wedding cake, surrounded by soft folds of white tulle and sprigs of lily of the valley. Mrs. Wilfred Lecky presided over the tea cups. The table was covered with a filee lace cloth, centered with a silver

### A Country Garden

The eye always asks for a definite boundary to a piece of ornamental ground as it does for a frame to a picture and there is nothing so lovely as a well kept evergreen hedge.

Of course a garden is preeminently a place to indulge individual taste. So regardless of those who may think it is planted so and so, let me say that the best general rule that I can devise for garden-making is: put all the beauty and delightfulness you can into your garden, get all the beauty and delight you can out of your garden, never minding a little mad want of balance, and think of the proprieties afterward.

A very good garden gives us its advice. Happiness lies in our tastes, and not in things themselves; a man is happy in possessing what he likes, not what others like. All that is requisite is to enjoy life, and should lift up our hearts to things that are pure goods in themselves, so that to have found and loved them, whatever else may betide, may remain a happiness that none can sully.

### COLOUR AT TWILIGHT

My garden! How much there is in those two words. The garden that belongs to oneself, one has planned it, made it, dreamed in it.

I wonder often which is the most beautiful hour in the garden, early morning, with all the freshness and the flowers opening out to another day of sun, or the time when twilight draws on, as in Millais, picture "The moon is this and yet it is not night." At that hour the colour flowers, especially purple flowers, becomes more vivid. Aubretias and honesty, and later on in the summer the red and white tobacco plants, larkspurs and delphiniums, all become deeper and more glowing in the twilight, as if darkness had some power of evoking their innermost soul. The scent also of fragrant plants especially petunias becomes stronger as the night draws in.

It is in twilight that you feel the intense beauty of a garden and mystery of form and colour. You go into the garden alone, when sunset is over, to gain the complete joy and satisfaction of all your work.

There is also the miracle of growth during the hours of darkness, when buds become flowers.

### We And Our Neighbors

Afghanistan have been entirely wiped out. The people have been taught how to drain the swamps and the local governments help to finance the work.

On the Island we have made such wonderful progress in fighting tuberculosis that it is horrifying to learn that 5,000,000 still die yearly of T.B., a great many of these children. Here indeed is a fruitful field for UNICEF. It is heartening to know that 20 million of the world's children have been vaccinated against tuberculosis and that millions of cups of milk, vitamins and other health builders are being distributed yearly.

The films showed in a moving manner thousands of babies of Australian, British, American, American, Canadian and Canadian fish oil circling the globe on their way to the sick and needy. Sometimes we may get discouraged.
