A POWERFUL Special Carpet SALE

JAMES PATON & CO. respectfully tender their heartiest thanks to the public for the liberal patronage received in the past.

It is a well-known fact that our Carpet Department is the best in the Province, and that we sell more Carpets than any other firm in the City.

If desired, we make and lay Carpets at cost prices. It is the value we give that makes us do the lion's share of the Carpet business.

Take our Great Sale in progress now, for instance, nothing like it has ever been offered the people of Prince Edward Island.

Come and cast your eye over the bargains we are offering in the Carpet Department. If you buy from us you will save money every time.

OUR proof-reader is responsible for a number of errors in our Hawaii letter in Monday's issue. In the heading: "The Napoleon III of the Pacific," should have read, "The Napoleon of the Pacific." The sentence beginning "Five stores and offices," should have read "Five stores, and offices." The penalty of immortality and broken laws must be paid," wrote the correspondent, and the intelligent compositor thought "immortality" a better word, and so it appeared.

The attraction of the fountain on the Square has been greatly enhanced by the addition of a second seal. Mr. George Carter deserves the thanks of the city, for having secured this one from Mr. A. J. McFayden of the firm of Myrick & Co., Tignish. Quite a crowd gathered round to see the introduction in the fountain between the seals. After the first salute by way of a spring towards each other, they got along finely, and in a short time appeared quite at home in each other's company.

MORTUARY STATISTICS.—The following are the mortuary statistics of the city of Charlottetown for the month of April, 1892, as prepared by Dr. Johnson: Number of deaths, 10. Same month last year 16. Causes of death: epidemic influenza, 2; whooping cough, 1; pneumonia, 1; spinal disease, 1; dropsy, 1; consumption, 1; old age, 2; drowned, 1. Age at death: under 5 years, 1; from 5 to 22, 4; from 23 to 30, 3; at 31 and 32, 2; average age at death, 44 years. Religion: Protestants, 4; Catholics, 6. Nationality: English, 2; Scotch, 2; Irish, 5; not ascertained, 1. Sex: males, 4; females, 6.

THE SHIPMENT OF CATTLE.—The Secretary of the S. P. C. A. is corresponding with Mr. Geo. Taylor, the general freight agent of the I. O. R. at Moncton, with a view to having better provisions made for the transportation of cattle from Prince Edward Island to this city. The cattle are shipped from Summerside at eight o'clock in the morning, and do not arrive in St. John for 24 hours. During that time they are neither watered nor fed, and this, together with the weariness of the journey, makes the animals unfit for slaughtering. Mr. Westmore is trying to arrange to have the cattle fed and watered at Moncton.—St. John Globe.

This following is taken from the Northwest Tribune, Stevensville, Montana: "Mr. S. F. Hodgson, of Charlottetown, P. E. Island, Canada, and one of the owners in the Cliff mine, was a welcome visitor last Friday. He, John Dowling, and Pete Solar, talked mining, manufacturing and agricultural interest for a time in the Tribune office. We are pleased to know that the gentleman will remain some little time in Montana. He was here in 1890 and enjoyed our mountain atmosphere very much. We are pleased to welcome the talented gentleman to the best there is in Pictou. He had it while the guest of Mr. John Dowling, at McKee's spur. He went to Missoula last Saturday. L. C. McHaffey came in from the Cliff mine last Monday. He reports the miners in 166 feet. Lewis has taken a position as foreman of the mine, and goes to the charge."

Mr. Hodgson expected home next week. He leaves Mr. McHaffey in charge of the tunnel, a gentleman who has large experience in some of the best mines in Montana. The tunnel is not so far advanced as was expected on account of the very hard granite rock which was encountered, but as working is now working night and day he expects to reach the ore in August or September. A shaft has been sunk on the surface in the ore bed 35 feet, which shows ore every inch.
