

FINE EXHIBITION AT TIGNISH

—On Thursday, May 15, parents and visitors expressed their joy and appreciation as they examined the Manual Training exhibition of the boys of the Tignish Convent and the Dalton School. The work done by the boys was a credit to themselves and their teacher.

Many pieces of excellent work were on display, including small tables, little rocking horses, garden decorations, medicine cabinets, shelves, book-ends, magazine racks, and numerous figures made from plaster of paris.

The girls' needlework was also seen. It, too, showed the expert training and careful guidance received from the teachers. Most of the work is from the course in sewing, sponsored by the Women's Institute, but other pieces of knitting and embroidery were also on exhibition.

These articles of work done by both the boys and the girls remain on exhibition until early this week and all would find it well worth their while to visit and examine this excellent display which is on the first floor of the Convent School.

Refreshments were served by the ladies.

Following is the address:—
To Mr. and Mrs. Foster Dunning, Dear Hazel and Foster:
It is with feelings of genuine regret that we have learned of your intended departure from our midst—and that we are to lose such good neighbors and citizens. We have met with you and your family this evening to extend to you, one and all, our most sincere good wishes for your health, happiness and prosperity in your new home.

Since coming to French River, you have proven yourself to be all that could be desired in a most obliging and helpful neighbor, and one whose influence has always been for the betterment of the community.

As for Hazel, who has grown up among us, we shall miss more than words can express. You have brought with you the tradition of your family, and with your vocal talent, cheerfully and faithfully taken your place in all our social gatherings. As president of our Women's Institute, and secretary of our W.M.S., your place will be hard to fill.

It is said there are just two classes of people in the world today, "the people who lift" and "the people who lean" and we have always found you both among the lifters. We are glad you are not going far away, and we hope to see you often in French River.

In conclusion we wish to assure you that you and your family shall carry with you the best wishes of every one in or near this community.

We now ask you to accept this gift as a token of our love and esteem, and as a remembrance of the many happy hours we have spent together.

On behalf of your many friends,
French River, April 22, 1952
