House of Representatives Interior Committee to a bill calling for increased subsidies to gold mines. The bill, approved Friday, states that operating mines will receive subsidies equal to six per cent of the value of gold produced in the years 1967-1970.

Closed mines will receive subsidies equal to \$44 an ounce above the fixed subsidy rate of \$25 an ounce. The fixed subsidy rate was set in 1939.

Senior base metals also reached a high on index of 99.74, ahead 1.19. The rise was caused mostly by activity in copper.

Banks suffered losses in main list activity. Canadian Imperial Bank of Commerce fell 1/2 to a low of 61 and Bank of Montreal 1/4 to a low of 56 1/2.

In senior western oils, Dome Petroleum gained 1/4 to 15 1/2 and Hudson's Bay 1/4 to 18 1/2.

Silvermarket dominated speculative action, trading 799.00 shares and losing 6 cents to 53 cents.

On index, industrials lost 45 to 159.65 and the exchange index 1/4 to 152.56.

Volume rose 28 to 102.68. Volume was 2,211,000 shares compared with 2,622,000 Thursday.
