Moscow Gives Russians Distorted View Of Canada

OTTAWA (CP)—Canada is being portrayed to the Russian people as a country dominated by American imperialists, eager for war and guilty of cruelty to Eskimos and Indians.

The external affairs department says this picture of Canada is drawn in a six-page section in the latest edition of the Large Soviet Encyclopaedia.

The Russian government has deliberately giving a distorted and untrue picture of Canada to the people of the Soviet Union.

The Canadian government's objections were contained in an article in the July-August edition of External Affairs, a monthly bulletin issued by the external affairs department.

The article contains extracts from the New Soviet Encyclopaedia to enable Canadians to judge for themselves "the bias and distortion of this official picture of Canada presented to the Soviet reader in a government-sponsored publication."

The Russian Encyclopaedia's main contention is that Canada is a country dominated by capitalists and monopolies directly under the thumb of United States imperialists.

The Russians say "the armed forces of Canada are formally a part of the British Empire but in fact are commanded by a defence committee responsible to the cabinet of ministers and working according to the directives and under the

control of the committee of the chiefs of staff of the U. S. A."

The Liberal party also "stands for the launching of a new world war."

The Conservative party also is linked with Canadian monopoly capital, the Russian publication says. The CCF "leans upon the well-to-do farmers and on the petty national interests of Canada to

control of the committee of the chiefs of staff of the U. S. A."

The Liberal party represented "the big Canadian monopolies linked mainly with American capital" and its leaders "carry out a policy of complete subservience to the national interests of Canada to

the imperialists of the U. S. A."

Scout Declines Dinner To Stay With Jamboree Camp

NIAGARA-ON-THE-LAKE, Ont. (CP) — Scout Christopher (Kit) Dark of Broadstairs, Kent, England summed up tersely the spirit that has taken over this historic mile-square bit of Ontario.

"Look," he said, declining an invitation to be elsewhere today. "I came here to be out at the jamboree and enjoying scouting."

Of the 9,000 boys and leaders already here for the eighth World Scout Jamboree opening Saturday, Chris had been singled out to share Toronto's tribute today to Canada's darling—Channel and Lake Ontario swimmer Marilyn Bell.

When Marilyn swam the channel he was in a boat accompanying her. Sponsors of her tribute tribute in Toronto today had invited him to ride with her in a convertible and share the ovation with her as scouting's representative. He declined.

Great open spaces in this reserve army training area, on the west bank of the Niagara river near its junction with Lake Ontario, filled in Thursday as bus after bus, and even a lake steamer disgorged 6,000 scouts who speedily set about pitching camp.

Two Huge Runaway Tanks Crush Four U.K. Soldiers

TILSHEAD, England (Reuters) — Two huge runaway tanks Thursday plunged crazily down a hill into a British army tent camp of 500 sleeping men and crushed four of them to death.

Four others were injured—two critically—in the weird incident at about 2 a. m. on Salisbury plain where reserve soldiers of the Royal Armed Corps were undergoing a two-week summer training course.

Two guards saw one of the mammoth "rioter tank" break loose from its moorings, and blew their whistles and shouted, probably saving several lives.

U.N. Command Protests New Air Incident

SEUL, Korea, (Reuters)—The United Nations command Thursday accused "trigger-happy gunmen" in North Korea of shooting down an unarmed training plane and damaging another.

One of the most strongly worded UN protests since the end of the Korean War in July, 1953, pointed to eight other such shooting incidents in the last 10 months and said the Communist gunners "seem to derive a fiendish delight" in firing against unarmed planes.

A UN announcement said the trainer plane, carrying an American pilot and observer, was shot down near the UN side of the demilitarized zone Wednesday. It said a C-47 transport plane looting for the missing trainer Thursday returned to its base with bullet holes in one wing.

DEMAND RETURN OF MEN Maj-Gen Harlan C. Parks, senior UN member of the military armistice commission, made the protest to Communist members of the commission. He demanded the immediate return of the pilot and observer whose plane crashed in Communist territory and punishment of the guilty gunners.

"We still don't know whether they survived," a 5th Air Force spokesman said. Parks described the shooting as "an unprovoked hostile act" and protested against "the wanton murders and acts of inhumanity committed by your side."

During this period, three UN planes have been damaged and two crewmen killed up to Wednesday's attack, he said. Parks added the American trainer had "inadvertently intruded over the demilitarized zone," but had committed no hostile act.

RICHMOND, Va. (AP) — Dying Diane blew her last gasps Thursday central Pennsylvania Thursday night, leaving in her wake a costly trail of flood and crop damage in Virginia and North Carolina.

The once-fierce tropical hurricane amounted to no more than a low pressure area on the weather map as it left northern Virginia in early afternoon, brushed the western tip of West Virginia and moved north across central Maryland.

But rains of four inches and more caused widespread floods in a broad sector of Virginia. North Carolina's biggest damage was to crops. Governor Luther Hodges received reports that losses from Diane, along with those of last Friday's Connie, would run to between \$22,000,000 and \$27,000,000, mainly in tobacco and corn.

Virginia, too, expected a heavy loss to the southside tobacco crop with Halifax and Pittsburgh, on the Carolina border, reporting damage to the bright cigarette leaf might run as high as \$3,500,000.

Sultan Of Morocco Is Granted Breathing Spell In Bid To Form Gov't

PARIS (Reuters)—The French government Thursday granted the Sultan of Morocco, Moulay Mehdi Ben Arafa, a breathing spell in his bid to form a government, but hopes faded fast he could succeed before new waves of violence hit the Moroccan protectorate.

The cabinet, meeting under President Rene Coty, decided that the elderly sultan's request for an extension of Thursday's deadline for setting up a representative government in Morocco was reasonable.

Ben Arafa earlier told French authorities in Paris that the nationalist parties refused to accept his leadership of a government, it would be impossible to consult them on the formation of one. But he said he would accept the existence of an organized opposition.

Moroccan Resident-General Gilbert Grandval previously urged the government to take some decisive action before this Saturday when Moroccans throughout the protectorate are expected to demonstrate in favor of former sultan Mohammed Ben Youssef who was deposed by the French Aug. 20, 1953. Ben Arafa was put in his place.

circulated throughout Casablanca by secret nationalist organizations urging violence on Saturday.

Premier Edgar Faure was reported to be leaning toward Grandval's view that Ben Arafa's replacement by a regency council is the best solution of the Moroccan problem. But conservative ministers led by Defence Minister Pierre Koenig were reported to have strongly opposed this course.

Meanwhile, in Casablanca, a more night and Thursday resulting in four deaths and seven persons injured.

In Algiers, capital of the North African territory ruled as part of France itself, an Algerian and a policeman were injured when hand grenades were thrown into a police station.

Six Canadian Warships Visit City Of New York

NEW YORK (CP) — Canadian uniforms were a common sight in midtown Manhattan Thursday night as sailors from the largest group of Royal Canadian Navy ships ever to visit New York spent their first evening ashore.

The six Canadian ships, headed by the 19,000-ton aircraft carrier Magnificent and the cruiser Quebec, arrived Thursday for a four-day visit, accompanied by 23 British submarines.

The Canadian ships, under personal command of Commodore E. P. Tisdall, are here to celebrate U. S.-Canadian naval week in connection with New York's summer festival.

"Besides the Magnificent and the Quebec, the Canadian group comprises the destroyers Huron, Micmac, Haida and Crusader. The British submarines are the Alderney and the Ambush.

OPEN HOUSE All the visiting vessels except the two submarines will be open to the public today and Sunday. Also in port for the festival are 23 U. S. navy vessels.

A round of entertainment has been arranged for the visiting sailors.

One crew member of the Magnificent managed to beat his vessel into port. Maurice Nicholls, left behind when the carrier pulled out of Halifax, paid \$129 in plane fare and was waiting on the dock when his ship pulled in.

Canada's Share Of Wheat Market Continues Decline

OTTAWA (CP)—Canada's share of an expanding world wheat market continued to decline in the first 11 months of the 1954-55 crop year as her competitors increased shipments. The crop year ended July 31.

Canada's own exports dipped by 2,200,000 bushels to 232,100,000, the lowest for four years, while those of the United States rose by 60,800,000 to 251,500,000; Argentina, by 21,800,000 to 123,000,000; and Australia, by 31,500,000 to 88,500,000.

Over-all exports in the 11 months by the major shippers increased by 111,900,000 bushels to 685,100,000, the bureau of statistics monthly wheat report showed Thursday.

Thus, for the first time since the 1951-52 crop year, the U. S. retained a commanding lead as the world's top exporter, replacing Canada which held the top spot since then.

U. S. REVENUE LOWER However, the U. S. is disposing of some of her wheat under a \$1,000,000,000 surplus food "give-away" program and undoubtedly, from a dollar point of view, Canada may still be earning more since she gets paid in dollars at commercial prices.

Trac' Minister Howe has complained that the U. S. disposal scheme has eaten into some of Canada's overseas outlets and this has had some over-all effect in reducing anticipated Canadian sales.

The issue of Canadian-American wheat selling policies likely will be thrashed out at a meeting of top cabinet representatives from both governments to be held here Sept. 26. This will be the second conference of the joint Canada-U. S. trade and economic committee.
