NOTES AND COMMENTS.

An invitation to the postal employees of England to take part in the International Postal Congress at Ghent gave an opening for a broad hint to the Belgians of the disgust which the acquittal of Sipido has excited in England. The reply was the following laconic message: "Thanks, but we don't want to be murdered."

For the five months ended May 31st, 1900, Canada sent to Great Britain 353,000 dozens of eggs as compared with the 165,000 dozens during the same period in 1899—an increase of about 130 per cent. This is a mere drop in the bucket of 12,000,000 dozens that that country consumes every month.

It is said that owing to the great demand for coal in Great Britain, a demand that cannot be properly met, the Dominion Coal Company are considering the advisability of re-opening the Victoria mine, which they closed down a couple of years ago. The price of coal today in Cape Breton is double what it was in 1878 when the National Policy was adopted.

At the general election Sir Wilfrid Laurier roped in the prohibitionists on the promise to accord them a plebiscite, and after that prohibitory legislation. If the principle for which they stand should carry. It is different now. The Liberal organ in Quebec, La Patrie, gives the prohibitionists notice to quit. Speaking of them as the "water drinkers," it declares that ninety eight people out of every hundred are against them.

Major-General William Ludlow, U. S. A., is investigating the military establishments of Europe for the United States government. When asked how American military men regarded the British army in the light of South African campaign General Ludlow said:—"Great Britain's possession of 250,000 battle-trained veterans has made her the most formidable war power in Europe. The inuring of her troops to the hardships of actual service has more than compensated for the loss of prestige incident to the early disasters."

Mr. R. G. Reid has formed and registered the second of a series of companies into which he proposes to convert his franchises in Newfoundland, pending Governmental sanction for the absorption of all these holdings into one giant corporation. This new company is the "Reid Railway Lands Co.," capitalized at \$4,000,000 (one dollar an acre). It acquires all the lands which Mr. Reid is entitled to under his railway contract, and can develop, lease, sell or otherwise dispose of them. Benton mill is included in this transfer, and power is also taken to establish a pulp mill and develop such minerals as may be found on the lands. The fees for registration of this company amounted to \$1,137.50.

The latest reports from Montreal speak of the excessive rains in the Province of Quebec as follows: "The rain fall of the present month has broken all July records at McGill University, a total of 7.92 having fallen during twenty-five days ending at noon on the 25th inst. This beats all previous records by about two inches. Rain has fallen on sixteen days out of the twenty-five, although in three instances the quantity was inappreciable. When one takes into consideration that the average rain fall in July for the past twenty-five years has been only 3.59 inches, some idea can be formed of the exceedingly heavy fall which has characterized the present month. The hot weather has had a very bad effect on cereals, and it now looks as if the potato yield at least will be entirely ruined by the excessive rains. Already the market prices of this vegetable have increased very greatly, and a further rise is imminent unless the weather changes in the very near future."

ESTEEMED EXCHANGES.

St. John Sun: "The United States admiral in Chinese waters, who at first refused to act with the naval commanders of the other powers, has explained why he changed his mind in the matter of intervention. He discovered at last, as the other officers did at first, that the Boxers owned the country."

Mail and Empire: We thought the Japanese great warriors because they made such short work of the Chinese five years ago. But the little soldiers appear to still better advantage under the much severer test of fighting beside bodies of British European, and American troops. At Tien Tsin the Mikado's men won the admiration of all the other contingents by their fearlessness and by the execution they did. They appear to have carried off the palm in more than one hard encounter of the allies with the enemy.

A German View.

Berlin, July 26.—The German foreign office, which has received no additional news from China, points out that the conditions for mediation demanded by President McKinley, published in Berlin yesterday, place the United States in substantially the same position as Germany and France. Nevertheless the German press continues to assert that the Washington government is trying to part company with the powers.

The Vorwarts contrasts President McKinley's answer to the Chinese note with Count Von Bulow's, praising President McKinley's as a masterpiece and saying: "The American President plays upon China's sympathy without in the least degree committing himself. While he states certain conditions clearly and energetically, he avoids every threat and all rude rattling of the sabre."

AN UP-TO-DATE PUBLICATION

The August number of that popular publication, the National Magazine contains a great amount and variety of timely and readable matter. A glance at the contents page is a revelation in the way of the comprehensive make-up of a popular-priced magazine. Despite the prevailing hot weather that has driven Washington society to the mountains and seashore, Joe Mitchell Chapple still finds many things of great interest to gossip of in his "Affairs at Washington." All devotees of the noble game will be delighted with "Auld St. Andrew's the capital of Golf Land."

Art lovers will appreciate "Sleep in Art," by a careful and competent critic, and "What Rural Free Delivery is doing," by Perry S. Heath, First Assistant Postmaster-General, explains methods and results of free mail delivery in suburban districts. A staff correspondent now with the British in the Transvaal writes interestingly of "Colonization Experiments in East Africa." An article of great moment for its bearing on the present world crisis is "China and the Secret Will of Peter the Great." From ice-bound Alaska an editorial representative writes of a "Summer Cruise in the Arctic."

There is a notable and showing in the way of fiction in this number, well sustained interest in the regular departments. It may safely be said that no other ten cent publication excels "The National Magazine" and that few equal it. It is the proper thing for hot weather reading. If your newsdealer's stock is exhausted, or if he does not carry it, you may obtain it from the publishers, the W. W. Potter Co., 91 Bedford St., Boston, for the popular price, ten cents.

Chinese Raiders.

St. Petersburg, July 26.—The Russian agent at Hankow telegraphs under date of July 27, as follows:—

"Foreigners are in a constant state of panic owing to the hostility of the natives, who are affected by the events in the northern provinces. The American and British consuls have recommended their respective people to send their families to Shanghai. Nevertheless there are no symptoms that serious disturbances are impending. The viceroy has taken all necessary measures to protect foreigners and reassure Chinese."

The Russian minister at Seoul, M. Pavloff, reports that the Russian detachment which left Port Arthur en route to Pyong Yang, reaching Jagan Sunday, July 22, has arrived at Pyong Yang with the loss of fifteen killed and many wounded. They fought their way through, opposing natives at the point of the bayonet.

General Grodekoff in a despatch dated at Chabarovek, Tuesday, July 24, states that Chinese troops are raiding and looting in the Yalu valley. Another steamer with Russian troops aboard were bombarded by Chinese from the river bank July 24. Securing reinforcements, the Russian commander returned to the scene and attacked the Chinese posts in the face of a heavy fire. Three magazines were set on fire and exploded. The Chinese loss was 300 killed, while the Russians lost only seven. Desultory bombardment of Blagovestchensk continues. The town of Aigun has been set on fire by the Russians. The Chinese at Saghalien have been compelled to retreat and take a fresh entrenched position. Cossacks have destroyed the Chinese pickets at Nikolsk, Capriavsk and Stavivsk.

THE MOTHER OF A SOLDIER.

The mother of a soldier—she gave him to her land;
She saw him on the transport as he waved his sun-browned hand;
She kissed him through the tear-drops and she told him to be brave,—
Her prayers went night and morning with her boy upon the waves.

The mother of a soldier—her comfort and her joy.
She gave her dearest treasure when she gave her eldest boy;
She saw the banners waving, she heard the people cheer;
She clasped her hands and bravely looked away to hide a tear.

The mother of a soldier—Ah! cheer the hero dead,
And cheer the brave who battle 'neath the banner of their creed;
But don't forget the mothers through all the lonely years,
That fight the bravest battle on the sunless fields of tears.

Nay, don't forget the mothers—the mothers of the men,
Who see them go and never know that they'll come back again,
That give them to their country, to battle and to die
Because the bugles call them and the Empire's banners fly.

—The present population of Ottawa is estimated at 68,550.

Montreal Gazette: A British party is the latest thing to be spoken of in U. S. politics. The idea is to have it composed of men of British birth who have become U. S. citizens. It is a good project to drop. When a British subject living in the United States thinks it his duty to become a citizen of that country he should go the whole length and drop his British politics. Hyphenated Americans are not thought so much of as to warrant any additions to the number.
