PEARSON SAYS FREE WORLD IN GREAT DANGER FROM REDS

China's Premier Declares U. S. Wants War

Minister Claims Statement To Growers Misinterpreted

FREDERICTON, N.B., Feb. 2 — (CP) — Hon. A. C. Taylor, Provincial Agriculture Minister, issued a statement here today clarifying remarks attributed to him before a meeting of potato growers held in the county court house at Andover yesterday.

Declaring that his promise to the potato growers had been misinterpreted, Mr. Taylor stated that the plan of procedure outlined by him for the potato growers had not included a definite promise of Federal aid. The meeting was called by potato growers to determine what steps could be taken to secure financial aid for the industry.

The plan he outlined, Mr. Taylor said, was similar to that which the Federal Department of Agriculture had instituted in connection with apple growers in British Columbia and Nova Scotia. Under that plan, the potato growers would make every effort to sell their output at a satisfactory price under normal marketing conditions. After the crop had been disposed of information would be gathered, determining the price received by the growers, costs, etc., before the Federal Government would give full consideration to the request for help.

It was in the gathering of this information that the Provincial Department of Agriculture offered assistance to the New Brunswick Potato Marketing Board, Mr. Taylor stated.

His department would, of course, also support the growers' representations.

The Federal Department of Agriculture then would determine whether, in view of the information before it, New Brunswick growers would be eligible for help. This plan, he said, had worked out satisfactorily in British Columbia and Nova Scotia and he was confident it would in New Brunswick also with minor variations.

Yesterday's news story had quoted Mr. Taylor as saying the growers would be paid the difference between their selling prices and a "fair" price.

Charges Path To Peace In Korea Is Blocked

TOKYO, Feb. 3 — (Saturday) — (AP) — Communist China's Premier said today the United States Government and its accomplices want war and have "blocked the path to a peaceful settlement in Korea."

Chou En-Lai's statement came in a Peiping radio broadcast giving Red China's first official reaction to the United Nations resolution branding his country an aggressor in the Korean war. The broadcast was monitored in Tokyo.

The no. 2 man of Communist China declared his regime "will absolutely pay no attention to U. N. 'good offices' committee proposed in the resolution to help bring the conflict to an end."

The Premier, who also is the Foreign Minister, said the resolution "in a most naked way proves to the peace-loving people of the world that the United States Government and its accomplices want not peace but war and that they have blocked the path to a peaceful settlement."

Chou declared the General Assembly's action had encroached on the power of the U.N. Security Council.

He said the Assembly "blatantly" adopted the U. S. resolution "slandering China without the participation of the lawful representatives of the Peoples (Communist) Republic of China."

He asserted the U. N. acted "under the domination and coercion of the United States Government."

12,000 Dosco Coal Miners Given Increase In Wages

GLACE BAY, N.S., Feb. 2 — (CP) — Dominion Steel and Coal Corporation today took notice of spiralling living costs by announcing jointly with District 26 of United Mine Workers a 60-cent daily increase covering 12,000 men employed in the firm's mining operations.

The increase, to run for a year, is effective as of yesterday. Previous basic wage in Dosco's big coal mines was \$1.08 an hour under a two-year agreement signed last year.

The joint announcement was signed by Harold Gordon, coal operations chief for Dosco, and Freeman Jenkins, district president of the mine union. Hourly-rated workers now will be paid an additional 7 1-2 cents an hour and contract earnings are increased by 60 cents per shift. The agreement does not affect some 1,000 miners employed by independent operators in the Maritimes.

The announcement stated that all other terms of the existing agreement will remain in effect until the normal expiry date of the contract Jan. 31, 1952.

Dosco first acknowledged the cost of living increase by granting its coal operations employees a \$100 bonus immediately before Christmas last year.

The announcement today said that the increase is in lieu of such a bonus. A second bonus had been expected around Easter.

Pressure had increased lately among the local unions for renewed efforts by district officers to obtain relief for the miners, whose contract still has nearly one year to run.

Review Of International Situation Given

OTTAWA, Feb. 2 — (CP) — External Affairs Minister Pearson solemnly warned the Commons today that the free world is "in the greatest possible danger" from Communist aggression.

In a 75-minute run-down on the critical world situation, he told the Chamber that danger still is greatest in western Europe, a glittering prize which "is still relatively weak and still stands open to Soviet conquest."

But, he went on with sober confidence, if the North Atlantic powers increase their strength and use it wisely they have "no need to fear."

The External Affairs Minister made these other points:

1. The fall of Western Europe would put North America "in a desperate position indeed."
2. Russia then would have industrial resources rivalling those of the Western Hemisphere.
3. At the same time, he shares Prime Minister St. Laurent's view that the building up of a North Atlantic bloc will deter Soviet aggression in that part of the world.
4. A cease-fire in Korea would not remove the dangers of Communist aggression, but would put the free world in a "stronger position" to meet it.
5. The U. N. forces in Korea are neither "weak nor frightened" and, in fact, are "getting stronger."

Canada, along with other delegations, is "determined to do everything we can to prevent a war with China, whether limited or unlimited."

Mr. Pearson, speaking from personal experience as a member of the U. N. cease-fire committee, reviewed the steps leading to the U. S. resolution branding Red China an aggressor in Korea. That resolution did not slam the door on subsequent negotiation of a cease-fire, he said.

His policy statement came in the

Maritime Members To Urge Potato Aid From Gardiner

OTTAWA, Feb. 2 — (Special) — A committee of members of the Commons from potato-growing areas in the Maritimes will wait on Agriculture Minister Gardiner next week to ask Federal aid to the potato-growers. H. H. Hatfield, Conservative member for Victoria-Carleton told The Guardian this evening.

New Brunswick representatives on the committee will be Mr. Hatfield and Paul Dube, Liberal member for Restigouche-Madawaska. It is expected that T. J. Kichham, Liberal member for King's and W. Chester S. McLure, Progressive Conservative member for Queen's will represent Prince Edward Island.

At present, top officials of the Department of Agriculture here and the acting chairman of the Agricultural Prices Support Board say there are no immediate plans for Federal aid to the Maritime potato-growers.

"The only aid promised potato-growers" a ranking official told The Guardian, "is that pledged on sales of potatoes in new and unusual markets such as Portugal and Spain. There is no plan for aid in a general way or for potatoes sold in Canada, the United States or South America."

Field Marshal Baron Carl Gustaf Mannerheim, Finland's national hero, former president and leader against the Russians in two wars, succumbed to a heart attack in hospital at Lausanne, Switzerland, following an emergency operation. In a tribute paid to the 83-year-old soldier, once known as the uncrowned king of Finland, President Juho Paasikivi said Mannerheim "was not only a warrior tested on many battlefields, but also a statesman fitted for the tasks of peace."

Coming Events

- Skating Cornwall Rink tonight.
- Mail your Films to Garnham Photo Studio, Charlottetown.
- Wheat \$3.15 per hundred. McGuigan & Boyle.
- Salvation Army Rummage Sale, Tues., Feb. 13.
- Dance in Mt. Stewart Legion Hall Monday night.
- Buying oats and mixed grain, also feed bags daily. Highest prices. Fraser and Annear Feed Service.
- The official opening of West Royal School will be held on Monday, February 5th, at 8 P. M.
- Buying good feed bags daily. Highest prices. Russell Driscoll, Mt. Herbert.

Reveal Canadian Navy To Reorganize Air Arm

OTTAWA, Feb. 2 — (CP) — The navy today announced a reorganization of its air arm, posting two of the four squadrons of aircraft to sea ready for action at any time.

Headquarters said the arm — still plagued by a shortage of pilots for expansion plans — is being divided into operational and support groups, one permanently at sea, the other ashore.

The aircraft carrier Magnificent will sail from Halifax Monday for five weeks of flying training and exercises in the South Atlantic, mainly in the Bermuda area.

Aboard will be the 18th carrier air group. The group will take to sea for the first time the United States-made Avenger anti-submarine planes acquired last year.

The 18th group has been reformed to become an operational formation permanently attached to the Maggie, giving her an ever-ready air striking force.

Similar to the support group, it has two squadrons, one a fighter squadron, the other an anti-submarine squadron.

The support or training group, now called the 19th Support Air Group, is being based at the naval air station, H.M.C.S. Shearwater at Dartmouth, N.S., where a \$4,000,000 rebuilding program was announced recently.

For some years there have been two groups, as now, but one consisted of two fighter squadrons, the other of two anti-submarine squadrons. Both were in training.

Now the Magnificent always will have one squadron of each ready for action.

Concern In Las Vegas Over Fourth Atom Blast

By GARBER DAVIDSON
LAS VEGAS, Nev., Feb. 2 — (AP) — The fourth atom blast in a week shook Las Vegas like an earthquake today.

Concussion was the heaviest yet, and a big window in a furniture store shattered under the strain. One witness said other windows "bulged in and out like balloons. I thought they were all going to go."

The third shock, yesterday, brought only a ho-hum reaction. But today there was some concern in this city famed chiefly for wide-open gambling and six-week divorces.

The man in the street wondered out loud what the Russians think about it all.

Boomed a cattleman: "They've only shot off one, haven't they? Look at us, four in a week."

"Pretty expensive," a poker dealer put in, "but I'm sure it's worth it."

Mrs. Mary Ellen Davis, whose store window was shattered by the blast, summed up a lot of the thinking this way:

"It has occurred to us that we may be just letting Russia know what we have in the way of atom weapons."

There were uncounted versions of what's going on in the 5,000-square-mile proving ground northwest of here.

One version is that they're testing a fixed charge placed on top of a tower, but of smaller force than an A-bomb. Other's lean to the theories that atomic weapons such as artillery shells and guided missiles are being looked into.

Some citizens thought today's shock was about as much rocking as the city could take without extensive damage. Even the city's low buildings were jarred, and a four-storey hotel trembled violently. At one hotel, the bug-eyed night clerk reported the doors swung open and shut in the concussion as if tripped by an electric eye.

The white flash, quickly turning to orange and finally fading in a yellow core, came at 8:49 a.m. EST. It took six minutes for the concussion to reach here, putting the distance at roughly 75 miles.

As dawn came, a "dirty-brown" cloud was observed. It drifted toward Las Vegas but disappeared in about two hours in the clear desert air. Informed sources said it was dust stirred up by the detonation.

An A.E.C. statement amplified, referring to the blasts Saturday, Sunday, yesterday and today: "We are able to say that no levels of radiation have been found anywhere which could conceivably produce damage to humans, to animals or to water supply."

Cost - Of - Living Index Continues Upward Climb

OTTAWA, Feb. 2 — (CP) — Living costs climbed again in December, boosting the official cost-of-living index by 1.4 points to a peak of 172.5 from 171.1.

In reporting this, the Bureau of Statistics today also estimated that wholesale prices for selected industrial and farm products hit fresh heights in January. That may be an intimation of what is yet to come for consumer prices.

The index, based on 1925-30 prices equalling 100, recorded price increases for meats, butter, vegetables, fruits, men's wear, furniture, blankets, carpets, telephone rates, laundry, coal, health care, barbers' fees, gasoline, street car fares and newspapers.

Eggs, however, dropped about 11 cents a dozen in December, following a sharp seasonal price decline.

The Bureau estimated that since August, 1939, the index has increased 71.1 per cent.

Rents were not surveyed. They remained at the peak of 136.4 established in October.

In the wholesale field, the Bureau reported a 7.3-point advance in January for its composite index for 30 industrial materials, moving the barometer to 206.2 at Jan. 26, from 193.8 Dec. 29, 1950. This index is based on 1926 prices equalling 100.

Canadian farm product prices at wholesale level were firmer, too: The composite index registering an increase of 3.0 points to 147.7 from 144.7, in the month ending Jan. 26. Prices were higher for livestock, hides, skins, fowl, raw wool, rye, flaxseed, potatoes and onions.

Prices for eggs were slightly lower.

News In Brief

WASHINGTON, Feb. 2 — (AP) — The Wages Stabilization Board tonight relaxed the wage freeze to permit pay increases to millions of production workers.

OTTAWA, Feb. 2 — (CP) — France's tall, scholarly Premier, Rene Pleven, arrived today on a brief official visit and was given a hearty welcome.

TOKYO, Feb. 2 — (CP) — A Canadian destroyer was reported today to have bombed Communist positions on the west coast of Korea today. Associated Press war correspondent Stan Swinton reported the action but did not identify the destroyer. Nor did he give other details.

BATESVILLE, Miss., Feb. 2 — (AP) — A roaring fire was reported tonight to be out of control at Pontotoc, Miss., about 56 miles east of here. The Mississippi state highway patrol officer here said "the whole town was burning up." The patrol radioed for aid from New Albany and Tupelo.

U. N. Offensive In Korea Grinds Ahead Half-Mile

TOKYO, Feb. 3 — (Saturday) — (AP) — The United Nations offensive toward Seoul ground forward one-half mile Friday in the smallest day's advance of the nine-day-old Allied push.

A heavy fog and difficult terrain slowed the Allies more than the spotty Chinese and North Korean resistance along the 50-mile front, field dispatches said.

A tank-led spearhead pushed to unenclosed points north of Anyang, 8 1-2 miles south of Seoul. At 10 P. M. Friday two Chinese Red companies—possibly 400 to 500 men—counter-attacked at a place 2 1-2 miles south of Anyang and seven miles north of Suwon. Unless the Reds hit with greater force it seemed unlikely they could cause much damage.

Elsewhere along the Korean front, there was little contact. The Reds seemed to be pulling back from the Allied artillery and aerial attacks which had claimed more than 8,000 Communist casualties since the offensive began Jan. 25.

Truman Urges Quick Tax Boost

By Francis J. Kelly
WASHINGTON, Feb. 2 — (AP) — President Truman called today for a quick \$10,000,000,000 tax increase and told Congress to look for still another increase later this year.

He recommended these immediate additions to the tax load: Individual income taxpayers, \$4,000,000,000; corporations, \$3,000,000,000; excise (sales) taxes, \$3,000,000,000.

These increases, if adopted, would raise the total Federal tax take to an estimated \$64,200,000,000. The largest amount of taxes collected in any one year thus far was \$43,000,000,000 in 1945.

Although some Democratic members endorsed the Truman program as sensible and necessary, Representative Daniel Reed of New York, senior Republican member of the House of Representatives ways and means committee, said:

"I strongly oppose consideration by the Congress of additional taxes for this administration to squander until the congressional appropriations committees have cut the fat out of the President's budget."

The President did not say how high individual rates he deemed necessary. Individual income taxes would have to be hiked about four percentage points in each bracket to bring in \$4,000,000,000 more.

Truman likewise was silent on details of the proposed corporate tax increases. Congressional tax sources, however, reported that Staley will recommend that the maximum normal corporate tax rate be raised from the present level of 47 per cent to 55 per cent.

U. N. Offensive In Korea Grinds Ahead Half-Mile

LONDON, Feb. 2 — (Reuters) — Sir Charles B. Cochrane, Britain's master showman, died because arthritis of the hips prevented his turning off a stream of scalding water in his bath, a coroner's court found today. A verdict of accidental death was recorded on the 78-year-old producer, who died in hospital Wednesday from the scalds.

The Government said the work stoppage is "directly injuring our national security" and that "the people can tolerate no other outcome" than a return to work.

In Chicago, leaders of the key union in the walkout, the Brotherhood of Railroad Trainmen, were summoned into Federal court on a contempt citation. The contempt citations stem from a similar "sick-call" walkout of switchmen in mid-December.

The Government took steps at the contempt hearing to obtain the names of every switchman who took part in the December walkout in its effort to prove that the work stoppage was a concerted action and not the result of sickness.

HEIDELBERG, Germany, Feb. 2 — (Reuters) — Maj. Harold D. Banning today was sentenced to five years hard labor and fined \$50,000 by a United States army court martial on charges of misusing more than \$500,000 in army funds. Banning was finance officer in the Berlin military post from September, 1949, until August, 1950.

TORONTO, Feb. 2 — (CP) — Minimum temps observed between 7:30 p.m. and 7:30 a.m. EST; maximum temps between 7:30 a.m. and 7:30 p.m.: Victoria 32-46; Edmonton 5-10; Calgary 13-21; Regina 11B-6; Winnipeg 9B-7; Toronto 9-19 Ottawa zero-14; Montreal 8-13; Quebec 9-10; Saint John 23-46; Moncton 25-49; Halifax 48-53; Charlottetown 42-48; Sydney 41-55; Yarmouth 48-48; St. John's 29-55.

Four Of Seven Negroes Are Executed For Rape

RICHMOND, Va., Feb. 2 — (CP) — The first four of seven Martinsville Negroes condemned for the cry-rape of a white woman were electrocuted here today and a clamor for clemency continued for three others who are to die Monday.

The Negroes were put to death within an hour. Immediately after they died a white man went to the chair for murder in the rape-slaying of a white schoolgirl.

Eleventh-hour efforts for the Martinsville men failed to halt the multiple electrocution in Virginia. Their counsel, turned down finally by Governor John S. Battle yesterday, rushed to Washington for a midnight plea to Chief Justice Fred M. Vinson.

Vinson refused to intervene.

There was no sign near the old prison of the demonstrations, rallies and vigils that have marked the efforts of sympathizers here the last three days.

Efforts to obtain clemency for the seven were based on the contention the constitutional rights of the

U. S. Gov't Seeks To End Rail Strike

CHICAGO, Feb. 2 — (AP) — The Government applied both legal action and persuasion today in an effort to end the switchmen's "sick-call" strike that is progressively paralyzing rail service and crippling industrial production in the United States.

The Government said the work stoppage is "directly injuring our national security" and that "the people can tolerate no other outcome" than a return to work.

In Chicago, leaders of the key union in the walkout, the Brotherhood of Railroad Trainmen, were summoned into Federal court on a contempt citation. The contempt citations stem from a similar "sick-call" walkout of switchmen in mid-December.

The Government took steps at the contempt hearing to obtain the names of every switchman who took part in the December walkout in its effort to prove that the work stoppage was a concerted action and not the result of sickness.

Quadruplets Born To Couple In Boston, Mass.

BOSTON, Feb. 2 — (AP) — Four babies were born today to a policeman's wife who had "bought clothes for one" and by their first night feeding tonight were a famous four with a "wonderful chance."

The rare quadruple birth of two boys and two girls—occurring only once in 512,000 births—dazzled and delighted the Robert J. Allens.

Allen, 41, takes home \$53.03 a week.

His wife, Helen, 31, and 110 pounds, was awake and chipper shortly after the arrivals of her tiny youngsters.

Karen Elizabeth weighed in at one pound, four ounces; Robert, Jr., three pounds, three ounces; Timothy, two pounds, three ounces; Kathleen, two pounds, eight ounces.

Some Brides Even Have To Learn To Boil Water!

The weather is turning much colder tonight following a day of record breaking temperatures. At Moncton the mercury has already fallen 40 degrees since morning and is expected to slide downwards another 15 degrees during the night.

Friday's storm is centred over the Straits of Belle Isle and is moving northeast away from the Maritimes. Skies are clearing and generally fine, cold weather is forecast for the weekend.

Regional forecasts:

Prince Edward Island: Saturday clear and much colder. West winds 15. Low and high Saturday at Charlottetown 5 and 12.

Outlook for Sunday—Clear.

High tide today at 8:36 A. M. and 7:14 P. M.
Sun rises at 7:32 A. M. and sets at 5:22 P. M.

Queen's County Lodge, Meets at Kingston, Tuesday, February 6th

Meeting starting at 2:30 P. M. sharp.

••Come to card party and dance at Hunter River Masonic Hall Tuesday, February 6 in aid of the hockey team.

••Hockey, North River Rink tonight, Covedale Redwings vs. Cornwall Meteors. Game time 8:30. Skate after.

••Hockey in Long Creek Rink tonight, Nine Mile Creek School vs. Rocky Point School. Game starts at 7:30. Skate after.

••Notice — Commencing February 19th, all work including through the week on a strictly cash basis. Spurgeon Follard, Willshire.

••Don't miss Humphrey Bogart and Eleanor Parker in "Chain Lightning" at Macdonald Bros. Theatre tonight, 8 P. M. Screens first story of Jet Planes.

••Collecting Hogs by truck for Canada Packers Ltd., every Monday until 2:00 P. M. If roads are impassable bring your Hogs to Kinkora Station. Phone 7-13 Collect. Alden Corr.

••Don't miss South Winsloe V. P. U. Valentine Supper, Winsloe Road Hall, Wednesday, February 14th. Baked Beans, fancy bread, pie, cake, etc. Admission 50 cents and 35 cents.

HALIFAX, Feb. 2 — (CP) — Official forecasts issued by the Dominion Public Weather Office at Halifax and valid until midnight Saturday, with an outlook for Sunday.

The weather is turning much colder tonight following a day of record breaking temperatures. At Moncton the mercury has already fallen 40 degrees since morning and is expected to slide downwards another 15 degrees during the night.

Friday's storm is centred over the Straits of Belle Isle and is moving northeast away from the Maritimes. Skies are clearing and generally fine, cold weather is forecast for the weekend.

Regional forecasts:

Prince Edward Island: Saturday clear and much colder. West winds 15. Low and high Saturday at Charlottetown 5 and 12.

Outlook for Sunday—Clear.

High tide today at 8:36 A. M. and 7:14 P. M.
Sun rises at 7:32 A. M. and sets at 5:22 P. M.
